

We Treat You 30 Days FREE

Blood poison can never be cured with mercury or potash. You might as well know this first as last. Medical authorities say so. The most these drugs can do is to drive the blood poison back into the system and smother it for several years. Then when you think you are cured, pitiful mercury symptoms will break out, and you find that your bones have been rotting all the while. Your teeth will begin to loosen and your tissues, glands, brain and vital organs will show the terrible destructive power of the mercury and potash. Locomotor Ataxia, Paralysis, Imbecility and Premature death are then almost inevitable. Any medical authority will corroborate these statements. The remarkable vegetable Obbac Treatment does not drive in the

Blood Poison

but drives it out. It positively contains no mineral poisons whatever, so that once cured by the Obbac Treatment you never run the terrible risk of having your bones soften, your nerves collapse, your teeth fall out, your kidneys degenerate or your brain weaken. The Obbac Treatment is a marvel, producing remarkable changes in only 30 days. This is why we offer to any blood poison victim living, no matter how bad a case, a

30-Day Treatment FREE

You want to be cured and cured quick—not poisoned with mercury and potash for years. A 30-Day Treatment is yours for the asking. You will open your eyes at what it will do for you in a month. We treat you free for a month. Just write to us and get the treatment free. Then if you are satisfied it is the most remarkable treatment you ever took, you can continue if you wish. Never in your life, will you ever again have such an opportunity for a complete cure, as is given you by this

Great Obbac Treatment

This is a square deal. You sign nothing, no notes, makes no promises, except to take the treatment. The wonderful Wasserman Test, the only blood poison test known to scientists, proves that the body is completely purified by the Obbac Treatment, and that mercury and potash do not cure blood poison. Sit down and write to us, giving a full history of your case in detail. We will treat your letter as a sacred confidence. Consultation and advice free. We will send you also the remarkable book, "Driving Out Blood Poison," free.

THE OBBAC CO.

1779 Rector Bldg., Chicago, Ill.

DOWLING TO RETIRE

(Palladium Special)
Indianapolis, Ind., Dec. 2.—Charles W. Miller, United States District Attorney for Indiana, and Henry M. Dowling, at present a member of the Indiana railroad commission, formed a law partnership in this city, and have opened offices in the American Central Life Building. Mr. Dowling will retire from the railroad commission on the first of January.

While Mr. Miller was attorney general of Indiana for four years, Mr. Dowling was assistant attorney general, and the friendship of the two men has been of long standing. It is believed that this will be one of the strong law firms of the capital city. Whether Mr. Miller will desert Goshen and the Thirteenth district entirely, is not yet known, as he has not made any statement on the subject.

How to Treat a Wife.
An ancient Egyptian moralist, writing to his son, said: "If thou takest a wife try to make her happier than any of her women friends. She will be doubly bound to thee if the tie is sweet to her. Accord her what pleases her. She will appreciate the effort."

AWAY GOES INDIGESTION, GAS AND ALL STOMACH MISERY.

A little Diapiesin relieves bad Stomachs in five Minutes.

As there is often some one in your family who suffers an attack of indigestion or some form of stomach trouble, why don't you keep some Diapiesin in the house handy?

This harmless blessing will digest anything you can eat without the slightest discomfort, and overcome a sour, gassy stomach five minutes after.

Tell your pharmacist to let you read the formula plainly printed on these 50-cent cases of Pape's Diapiesin, then you will readily see why it makes indigestion, sour stomach, heartburn and other distress go in five minutes and relieves at once such miseries as belching of gas, eructations of sour, undigested food, nausea, headaches,

TROUBLE IN RANKS OF STATE LEAGUE

Resignations of Some of the Saloon Fighters Are Now Expected.

A DIVISION OF SENTIMENT

QUESTION OF WHETHER STATE-WIDE PROHIBITION OR BETTERMENT OF PRESENT LAWS CAUSES ALL THE TROUBLE.

(Palladium Special)

Indianapolis, Dec. 2.—There are strong surface indications that a rift is on in the ranks of the Indiana Anti-Saloon league, and that within a short time, probably within the next few days, there may be some resignations among the officers of the organization. It is known that there is a division of sentiment among them as to whether the league should stand in favor of state wide prohibition at this time or whether it should go ahead as it has been going and strengthen the liquor laws from time to time until it is found that the sentiment of the people of the state demands state wide prohibition.

It is known that E. S. Shumaker, state superintendent of the league, is in favor of pressing forward at once for a prohibition law, and that he has the following of many members of the league.

Barney Not a Prohi.

On the other hand, it is known that E. M. Barney, superintendent of the Indianapolis district, and R. C. Minton, attorney for the league, are not in favor of pressing for prohibition at this time. They believe it will be safer to wait a while and get everything in just the right condition before the league goes after a prohibitory law.

A few weeks ago a meeting of the trustees of the Anti-Saloon league was to have been held in this city, but it was called off and it is said now that the reason was that it was feared there might be a serious division in the ranks on the prohibition question if the directors came together at that time. At least, the meeting was not held, but it is understood that another will be called within the next few weeks. And there are indications that when the trustees get together they will declare in favor of a state wide prohibition law and begin laying plans to bring it about.

Just what Barney and Minton will do under such circumstances cannot be told now. All parties are maintaining a deep silence on the subject.

UNCLE SAM INVITED

(American News Service)

Washington, Dec. 2.—Through Count Conrad de Buisseret, Steenbecque de Blarenghien, the Belgian minister to this country, Uncle Sam has received an invitation to attend the International Congress on Radiology and Electricity, to be held in Brussels in 1910.

An international commission will be appointed at the forthcoming convention for the purpose of examining all questions pertaining to radiology.

Nothing so cheap for a good, wholesome, hearty breakfast, as Mrs. Austin's pancake flour. At all grocers.

Have your furs made into a nice fur hat at C. A. Brehm's. 1-2t

Just Once.

It was Charley's first game of golf. His patient friend had taken him sadly around the eighteen holes and watched him hack the ball into small bits and cut up the green as though it had been played by shrapnel. After the game Charley and his patient friend were talking to a few of the golfers on the clubhouse veranda.

"That was a beautiful shot you made this afternoon, Charley," said his patient friend.

Charley brightened up and flushed happily, while the young woman looked at him admiringly. "Which one?" he asked eagerly.

"Why," said the patient friend, "the time you hit the ball."—Chicago Tribune.

The telephone and telegraph wires of the United States would encircle the earth at the equator more than six hundred times.

SCHOLARS TO MEET

At Anniversary of American Historical and Economic Associations.

NEW YORK MEETING PLACE

New York, Dec. 2.—Upon the occasion of the twenty-fifth anniversary of the American Historical and Economic associations, which will be celebrated in this city, Dec. 27 to 31, scholars in sociology, economics and other similar subjects will meet in convention.

Learned men of all branches of science from foreign countries have been in attendance. Arrangements have been made for thirty sessions to be held during the convention at which addresses on scientific subjects will be delivered and discussed.

Some of the prominent men expected to be present are: James Bryce, British ambassador to the United States; Henry Higgs of the Royal Economic Society of England; Pontaleoni of Italy; President Davis R. Dewey, American Economic Association; President Albert Bushnell Hart, American Historical Association; President A. Lawrence Lowell, American Political Science Association; President Henry W. Farnham, American Association for Labor Legislation; President W. G. Sumner, American Sociological Society; acting President S. N. D. North, American Statistical Association; President John Finley, American Social Science Association; G. W. Prothero, London; Edward Meyer, Berlin; R. Altamira, Spain; C. T. Colander, Holland; Camille Enlart, Paris; E. Dana Durand, Director of the Census; Franklin H. Giddings, Columbia University; W. S. Ferguson, Harvard University; Albert G. Keller, Yale University; Julian P. Brez, Cornell University; A. C. Howland, University of Pennsylvania; Albin W. Small, University of Chicago; Charles A. Ellwood, University of Missouri; R. F. Scholz, University of California; Frederic L. Paxson, University of Michigan; Charles E. Andrews, Johns Hopkins University; H. L. Bourne, Western Reserve University; Frank Heywood Hodder, University of Kansas; Edward S. Meany, University of Washington; Waldo G. Leland, Carnegie Institute; Paul Diesel, Library of Congress, and Hon. W. L. MacKenzie, Canadian Minister of Labor.

At Local Theaters

Better Than Usual.

The vaudeville bill at the Murray this week is better than the usual run of vaudeville shows. Every act is clean and entertaining. The variety of entertainment is well distributed and the acts are well balanced. The Reckless Recklaw Troupe head the bill with a comical cycle and skating act. Their work although very difficult, is performed with perfect ease. They are exceedingly clever in their line.

The real "tony" act of the bill is the dancing and singing act. Many dancers and singers have appeared on the stage in this city, in fact no vaudeville is complete without a dancing and singing act, but there has never been as clean, up-to-date, and clever dancing and singing act on the stage in this city as this one. They are original. Their steps are all new and different from the kind you have been used to seeing. They did not come as a surprise for it has been rumored that they would show the people of Richmond something in the dancing line when they hit this town.

Georgia Gardner and Co. have a family mixup act that is very amusing. The cast compose man and wife and two office boys. It shows how clearly a little misunderstanding will cause a great deal of trouble between man and wife. If you cannot laugh, go and see this act. George Muder, the unrivaled violinist, opens the show with some clever selections on the violin and mandolin. His imitations are very good.

Cash Stock Company.

The Burleigh Cash company presented "A Daughter of Satan" last night at the Gennett Theater to an audience which appreciated each point to the utmost. The play was an intense one and the excellent manner in which Mr. Cash's company have staged it, made it one of the best bills which they have presented this week. Mr. Cash has selected some of the best vaudeville acts which any stock company has offered here this year, one of the best on the program being the male quartet of which Mr. Cash himself is one of the principal singers. He has a true baritone voice which is a pleasure to hear. Tomorrow night they will present their big production of Monte Cristo.

"The Prince of Tonight."

"The Prince of Tonight," is the name of the new musical play by Frank Adams, Will Hough and Joe Howard, which Manager Mort Singer will present at the Gennett on Tuesday, Dec. 14. The story is the most fascinating Messrs. Adams and Hough have ever invented, combining as it does, modern characters and places with fantastic incidents and situations and making the whole the most original musical comedy of recent years. The music of Mr. Howard embraces the best compositions of his career. The mere mention of Henry Woodruff's name in the title role is sufficient guarantee of the character of the play. Mr. Woodruff has been recognized as one of America's best actors, who, after a wide experience in Shakespearean roles, as leading man for Mrs. Fiske, Amelia Bingham and Henrietta Crossman, and as the star of "Ben Hur" and "Brown of Harvard," and other notable productions, will make

Take Off the Fat Where It Shows

Most women suffer much humiliation because of great quantities of fat so located that no matter how they dress, everybody sees that they are abnormal. This is the day of the slender figure, and fat women are simply not tolerated either in business or social affairs. Women may not know it, but men when they see a fat woman pass them on the street or in public places make all manner of sympathetic remarks about her. They do not mean to be unkind or to seem unmanly, but it is natural for a man to dislike fat on a woman. Where fat shows the most there is where it must be removed, and as quickly as possible. This season's dresses seem to be made for the fat woman's misery and the slender woman's delight. They expose all the charms of woman and her ugliness as well. Exercise and diet will not remove fat. This has been proved. The famous Marmola prescription which has met with such phenomenal success and has so many of our society women as its sponsors, is now being sold in tablet form to meet the demand of the public for this style of treatment. These little tablets go into your system just like food. They stop the stomach and digestive apparatus from producing fat and reduce the fat upon the body at the rate of from 12 to 15 ounces a day. They are harmless and can be carried in your purse and taken after you have indulged in a hearty meal away from home. They are a case, or if you prefer you may write the Marmola Company, Dept. 895, Detroit, Mich.

his bow to the American public as the leading player in a pure musical comedy. "The Prince of Tonight," was staged by George Marion, that wizard of stagecraft, and he has left nothing undone to make the musical numbers a success.

Boyer Stock Company.

The popular priced theatrical event of the season will take place at the Gennett next week when Nancy Boyer and her superb company of players will open in the "Girl From Out Yonder," a high-class play, demanding not only brains on the part of the performers to interpret, but a full and complete scenic equipment as well, with Maine's sea-washed shores as the background, with the charm and witchery of the sea, bringing to inland dwellers the life of the fisher folk and those who go down to the sea in ships.

It is as far different from the average blood and thunder repertoire performances as could well be imagined, brim full of comedy of intense dramatic interest. It is safe to say that the "Girl From Out Yonder" is by far the strongest play ever produced at popular prices in America. To lovers of the better class of plays "The Girl From Out Yonder" will be a revelation in the way of popular priced entertainment.

An Emergency Brake.

Saying her prayers is considered by Little Katherine a nightly propitiation to the Almighty to be accomplished with all possible speed. Night after night she rattled off the Lord's Prayer a string of unintelligible gibberish until a Nemesis overwhelmed her in the form of maternal chastisement.

"I'm sorry to be obliged to punish you," said her mother, "but you are a naughty little girl. It's very, very irreverent in you to rattle off the Lord's Prayer like that."

"I don't rattle it off," sobbed Katherine. "Really and truly, mother, I don't. I always slow up toward the end, because I'm afraid if I don't I'll say it all through twice before I think."—Philadelphia Ledger.

PAMELA: Be sure to use Gold Medal Flour. ISABELLA.

A TOBACCO REPORT

Agriculture Department Submits Some Interesting Figures.

KENTUCKY IS THE LEADER

(Palladium Special)

Washington, Dec. 2.—An interesting report just issued by the Department of Agriculture on tobacco production in the United States, shows while some tobacco is produced in almost every state, less than 1 per cent of this country's crop is grown west of the Mississippi. Texas being the only trans-Mississippi state in which the industry has gained much importance.

Kentucky leads all the states in tobacco growing. It produces more than one-third of the United States' crop, and about one-ninth of the entire crop of the world.

The tobacco grown in the United States is of two general types or classes, cigar tobacco and chewing, smoking snuff, and export tobaccos. In 1908 something more than 150 million pounds of cigar tobacco was grown in the United States, and nearly four times that amount of the other types.

The cigar tobaccos are grown mostly in New England, Pennsylvania, Ohio and Wisconsin, though there is a considerable and rapidly increasing production of this type in Georgia, Florida and Texas. The tobacco used for chewing, smoking, snuff and export are produced most heavily in Kentucky, Tennessee, North Carolina, Virginia and South Carolina.

Tobacco production is largely confined to certain clearly defined districts, each of which produces a special type and fills a demand for that type. The kind of tobacco grown in particular districts depends mainly on the soil and climate conditions.
