

A ROAD PETITION WAS FILED TODAY

Residents Along Part of National Road Want Improvements Made.

COUNTY BOARD FAVORS IT

PETITIONERS WOULD LIKE TO HAVE GOVERNMENT GOOD ROADS EXPERT SUPERVISE CONSTRUCTION WORK.

Asking the Wayne county commissioners to authorize the construction of a macadam street with cement retainers on the National road, west of West Fifth street, to the road which is the boundary line of Wayne and Center townships, and requesting that negotiations be entered into with the Bureau of Good Roads, Washington, D. C., so that expert road builders could supervise the construction, a petition was filed with County Auditor Demas Coe, yesterday afternoon, and signed by Vernon D. Grave and 562 others.

The agitation for the improvement of this road has been up for several months and the West Richmond Improvement association is primarily responsible for the action taken. The road could be built under the provisions of the three mile gravel road law, which recently was affirmed by the Indiana Supreme Court.

Looked on With Favor. Every indication points to the success of the petition. The county commissioners are known to look upon the improvement with favor. The size of the petition also seems to assure its success.

The cost of the road would be considerable and probably more per square foot than any other roadway in the county, with the possible exception of Main street. In the petition, it is set forth that the petitioners would like a roadway forty-six feet wide, paved with crushed stone and on either side a cement retainer, similar to curbs and gutters. The surface of the roadway is to be bound with tarva or some other equally good binding material, which also makes a dust proof surface.

A SKI TOURNAMENT

Will Be Held at Coleraine, Minnesota, the Latter Part Of Month.

NORTHWEST IS EXCITED

(American News Service)

St. Paul, Minn., Feb. 2.—Inhabitants of the Northwest are looking forward with considerable interest to the national ski tournament, which will be held in Coleraine, Minn., Feb. 19 and 20. The great mass of Norwegians, who have settled in this section of the country and who were responsible for the introduction of this graceful exhilarating sport, are making elaborate preparations for the forthcoming meet, and the snow-covered hills courses are dotted daily with intrepid jumpers, training for the tournament.

The list of entries is a long one and includes the names of a number of jumpers who lay no claim to Norwegian ancestry, which is a slight indication of the increasing popularity of the sport. All the cracks of the Northwest are expected to compete, and a number of clubs will send representative jumpers, including the Norge Ski club, of Chicago, who will be represented by Andrew Schanke, Ed Anderson, Adolph Swenson and Harold Smedvik.

In connection with the tournament there will also be a national convention which will meet on Feb. 20 and 21.

NOT LIKE A HUBBY

Pittsburg, Pa., Feb. 2.—Under the names of Harry Palmer and wife, Harry Freed, a Buffalo jewelry salesman and Louise, his wife, are locked up at Central station charged with being suspicious persons, as the direct result of a slow waiter.

While waiting for a meal in a Fifth avenue restaurant, another guest remarked to Mrs. Freed that the service was slow. She assented. Her husband took umbrage and accused the wife of flirting. A fight followed between the husband and the strange guest, the police were called and Fred Freed took to his heels, drawing a revolver as he ran. After an exchange of shots he was captured and taken to the station.

A RAILROAD WRECK

(American News Service)

Wilmington, Del., Feb. 2.—A passenger train on the Wilmington & Northern Railroad ran into an open switch at Coalville this morning. The engineer was killed and several other members of the train crew were injured.

An Airship Circling Eiffel Tower

This unusually interesting picture is from a photograph taken in Paris showing Count de la Vaulx in his airship, a dirigible, at the moment when he was starting his remarkable feat of circling the Eiffel tower, which he did with ease, showing perfect control of his airship.

Gossip for Awakening Fandom

The Cleveland Americans and St. Louis Cardinals will meet in a spring series at Little Rock, Ark., beginning March 20. Four games will be played.

Harrisburg fans are confident that Manager Seibach has picked up two stars in Houser and Newashe, the Carlisle Indian players.

Roger Bresnahan is trying to secure Miller Huggins to play second base for the Cardinals, but balks on an offer of that player and Spade for Pitcher Beebe.

Hugh Duffy, the new manager of the White Sox, in discussing the new players became eloquent over Blackburn. Among other things he said: "He is a finished ball player." Some of the Sox looked like that last summer.

Manager Griffith has fixed on March 8 as reporting date for his pitchers, with the other members of the team coming along a week later. The team will remain at Hot Springs about 20 days.

William Breitenstein, who played third base for the Tiger tourists the day they beat the Chattanooga champions on their way to Cuba, has been appointed manager of the Columbia South Atlantic League club. He was with the team named last season.

Coveleskie, traded to Cincinnati by Philadelphia, isn't celebrating the switch very wisely. In a dispatch from his home town he is quoted as saying that much of his ill success last year was due to enemies on the Phillies, who tried to throw him down at every chance. That sort of talk will bring him trouble.

Eddie Doyle, a brother of Larry Doyle, of the Giants, has been started on his professional career. Eddie, like his brother, is a fast fielder and will play with the Springfield, Ohio, club this season. If he makes good Eddie will be drafted next year by the New York club.

Andy Coakley has a bright idea on the foul-strike rule. He says he thinks it would be a good idea on the part of the rule makers to call only the first foul a strike. Coakley thinks no batter takes a chance of fouling off the

A POLICE SHAKEUP

(American News Service)

New York, Feb. 2.—As a result of the wave of crime in this city a big shakeup at police headquarters appeared to be under way today. Inspector McCafferty, one of the best known detective chiefs in the country will be taken from the detective service, two captains now drawing pay as inspectors and doing the work of inspectors will be sent out to precinct work and six old inspectors will be retired.

H. W. TAFT BETTER

Los Angeles, Feb. 2.—Although still suffering severe pain from an attack of erysipelas, Henry W. Taft, of New York, a brother of the President, is out of danger, according to a bulletin issued by Dr. W. A. Edwards, the patient's brother-in-law, and attending physician. At the Good Samaritan hospital, where Mr. Taft was taken after his sudden attack Saturday night in the Hotel Green, at Pasadena, every attention is being given to the distinguished lawyer patient.

Mrs. Taft and Mrs. Mary Stranahan, Mr. Taft's niece, are visiting with Dr. and Mrs. Edwards. As soon as Mr. Taft is able they will proceed to New York.

A TEMPERANCE TALK

(Palladium Special)

Milton, Ind., Feb. 2.—Mrs. Mary B. Sibbitt will lecture on the subject of "Temperance" at the M. E. church Thursday evening instead of this evening as was the original intention. There will be a song service and a large attendance is desired.

next one, because it would only put him "in the hole."

Any one who doesn't think there is money in base ball in Cuba may be convinced by the latest offer. The Havana park proffers \$1,500 in cash, round-trip tickets for the entire team and all hotel bills while in Havana to any club that will spend the month of March training there. The club can carry any number of players up to 20 men.

Fred Lake, the new manager of the Doves, has returned to Boston from Pittsburgh with an unmistakable grouch. He says he tried to make several trades while in the Smoky city, but that other managers held him up in road agent fashion. Lake is not an exception to the general rule. Nearly every manager in the big leagues who is anxious to strengthen his team has discovered that there is no charity in base ball. So many team handlers have been gold-bricked in past deals that the average offer to trade players is regarded with suspicion.

The best argument against the adoption of the 198-game schedule by the National League, as used by conservative base ball men, is the fact that in spite of the opening of the world's series last fall October 8 and the wind-up October 16 the weather was entirely too cold for comfort in many of the games. As a result it is pointed out that if the world's series this year does not begin until after October 16 the weather may be so unfavorable that a fair test of the rival pennant winners' relative strength may not be possible while the attendance and receipts may fall off to an alarming degree.

John I. Taylor of the Boston team is preparing a speech for his ball players on cigarettes and here it is:

"If the players will promise to a man to cut out the paper smokers until the end of the base ball season I will agree to furnish the cigars for the team from April 14 to October 4. And these all-night poker sessions that oftentimes take place on the long trips from Boston to the western cities must be cut down. Too much of the midnight oil hurts the eyesight, and, last of all, is abstemiousness from the light and heavy drinks. Too much of even the light drinks will make a player lousy and heavy and unfit to play ball."

A POLICE SHAKEUP STARTS LONG HIKE

(American News Service)

Los Angeles, Feb. 2.—Edward Payson Weston, the 71 year old pedestrian, started at 9 o'clock last night to walk across the continent to New York. If he succeeds in crossing to the Atlantic coast it will be his fourth walk from coast to coast. The aged pedestrian says he has wagered to cross the continent in 90 days, but hopes to reach New York in 85 days. Wall Street financiers, he says, have promised him \$500 a day for every day he cuts off the 90-day period.

REVIVAL A SUCCESS

The revival meetings at the Second Presbyterian church, which are being held this week, are being well attended and unusual interest is displayed in the services. The usual methods adopted by the professional evangelist to secure confessions are not resorted to, the conversions being brought about in a quiet way. There have been several new members added to the church enrollment this week.

WORKING ON SCHOOL

The construction of the Webster high school, which has been delayed for some time because of financial difficulties, has been commenced again. The workmen are now engaged in plastering and laying the floors. It is probable that the building will be ready for occupancy by spring, but as the school will close either in March or April, little use will be made of it until the next fiscal school year.

APLAWD: Mother says "they can't say anything else good about Gold Medal Flour." CHARLIE.

HE SAW HIS SHADOW

Old Man Groundhog Stepped Out and Walked Into a Sunbeam.

A SIGN OF COLD WEATHER

Get out your furs and prepare for another long siege of cold weather, for its coming if there's anything in the old tradition.

At the first break of day, when his majesty, the ground hog, left his winter quarters for his annual ramble over the country, he did not stay out very long, for Old Sol poked his face behind the misty clouds which hid his countenance, and shone forth with brilliant radiance. And did Mr. G. Hog scamper? Well rather. The little animal literally burned up the dust getting back into his hole, so frightened was he at the appearance of his humble shadow.

And now its coming. Cold weather, of course, and six weeks of it at that. In view of the fact that this has been an unusually severe winter, it was the hope of many that today would mark the quiet and peaceful death of the icy king. But now the fondest anticipations for warmer weather have been cruelly blasted, and all on account of the little ground hog, too. The sun shown brightly all day and it seemed like spring, but the cold wave is evidently on its way and will doubtless be here shortly.

PLAY GOOD MATCH

After losing two games to the Entre Nous, the Phoenix team came back strong in the third and won. Lacey and Graham of the Phoenix team were this team's 200 point makers last evening. On the Entre Nous team, Markley made 223 in his first game and Foster scored 202 in his third game. The team scores were as follows: Phoenix, 833, 829, 902. Entre Nous, 882, 890, 871.

STORK PAYS VISIT

Joseph Hearst of Centerville, is wearing the broad grin today. The reason for his particularly beaming countenance is the fact that the stork called at his home last evening and left twins, a boy and a girl. Both children and their mother are doing nicely, it is said.

FIRST DEGREE WORK

The Walnut Level lodge of Odd Fellows, No. 156 of East Germantown, conferred the first degree on three candidates at Jacksonburg last evening. Several candidates for the republican primary were present among them being Thomas R. Jessup, candidate for county clerk, who made an excellent speech to the lodge members.

A CATHOLIC CENSUS

(American News Service) Milwaukee, Feb. 2.—According to advance sheets of the 1910 Wiltz Official Catholic Directory, published in this city, there are 14,347,027 Catholics in the United States. A gain of 111,576 is shown over the figures presented by the same directory a year ago.

TO INSPECT TEXAS

A party composed of Omar Hearst, Charles Ferguson, Willard Williams, Omar Kurlin and others left Cambridge City yesterday morning for Texas on an inspecting tour of that country. It is probable that several members of the party will buy land and locate in that state in the spring, and the present trip is made with the view of becoming more thoroughly acquainted with the conditions as they exist there.

A BIG EXAMINATION

One of the largest examinations ever held in this county is that scheduled for Saturday, at which time applicants for positions as census takers will take a quiz in the office of County Superintendent C. W. Jordan. The examination will be supervised by Postmaster J. A. Spenkhuier.

MISTAKE WAS MADE

It was stated in last evening's Palladium that Parker was the manager of Van Horne and Clark, the two boxers, who, with Kid Griswold, skipped out to parts unknown with the large majority of the box office receipts Monday night. Mr. Parker states that Jake Hart, of Columbus, who is manager for the fighters, should have been given the credit.

Lost—Maltese Angora kitten. Any information in regard to same will be thankfully received at 1119 N. A or Haner's Jewelry Store. Phone 2276.

FEEHAN A WISE ONE ON MECHANIC LIENS ON THE WAGON NOW

President Lewis Tries to Shelve Him, But Feehan Outwits Him.

DODGES HIS TOLEDO TRIP

(American News Service)

Indianapolis, Ind., Feb. 2.—Delegate Francis Feehan, leader of the insurgents in the Mine Workers' Convention, who was appointed chairman of the committee to go to Toledo and arrange a postponement of one day of the joint conference with the operators there, made the arrangement for postponement over the long distance telephone and therefore was on hand at the opening of today's session, much to the surprise of President Lewis and the administration faction, who thought they had "shelved" Feehan and his gang by sending them to Toledo on a mission. Several minor amendments to the constitution were adopted today. One thousand dollars was voted for the relief of miners' families at Drakesboro, Ky. The "water wagon" amendment to the constitution was adopted, providing for the dismissal of any officer or delegate convicted of intoxication on duty or in public.

A TRUSTEE'S NOTICE

The result of the election of trustees of the Milton Christian Church, to serve for one year, was announced this morning, notice of the election having been filed with the county recorder by Charles H. Callaway, clerk of the meeting. The trustees include Dayton H. Warren, George F. Doty and Wilbur Elwell.

HE PASSED CIGARS

Today is Groundhog Day, but that isn't all; it is also Prosecuting Attorney Ladd's birthday, and although he exerted every effort to keep the matter quiet, it leaked out somehow. The patrolmen became wise to the fact early this morning and offered congratulations. Whereupon it was up to Charlie to buy the smokes, and he did. Dozens of times today Attorney Ladd was asked if he had seen his shadow and declares that he is becoming extremely tired of what he alleged to be a bum joke.

Two suits to foreclose mechanic's liens on the Murray theatre building were filed in the circuit court today by John L. Rupe. It is understood that the purpose of the suits is friendly and to force a final settlement with the contractors.

In one of the suits Louck and Hill Company, of this city, are suing on account, demand \$100. It is claimed by the plaintiffs that supplies and material were purchased from them by J. A. Ross, who had the contract for the construction of the building. In the second suit, the Richmond Brick Company is the plaintiff and is demanding \$100 on account. In this suit the contractor for the brick work, Mr. Logan, purchased 28,800 brick for \$2,632.50 and paid but \$1,973. The suits are brought against Omar G. Murray and his wife, Mrs. Ottilie M. Murray, as the building is held in their names.

James Nolan Released on Promise to Cut Out the Booze Habit.

HIS MOTHER NEEDS HIM

Upon his promise to abstain from the use of intoxicants in the future and care for his aged mother, who needs his support, James Nolan was released in the city court this morning by Mayor Zimmerman and the charge of intoxication against him was dismissed. Nolan was arrested last evening by Patrolman Edwards on North Ninth street. He was hilariously drunk at that time but the deep pangs of remorse pierced him this morning and in police court he pleaded for leniency. The man promised faithfully that if he were given another chance he would make the most of the opportunity thus afforded him and care for his aged and infirm mother, who is entirely dependent upon him. Mayor Zimmerman in granting the man's release declared that if he were arrested again on the charge of intoxication he would be given six months in jail and no leniency whatever would be extended him.
