

LITIGATION FOR ESTATE STARTED

Death of Mrs. Sarah Harris
is Immediately Followed
By a Suit.

A CONTEST IS PROBABLE

GRANDCHILDREN OF ELIJAH KERLIN AVER THAT UNDER TERMS OF HIS WILL THEY ARE ENTITLED TO ESTATE.

Within twenty-four hours after the burial of Mrs. Sarah Jane Kerlin Harris, whose husband, William H. Harris, is in the Michigan City penitentiary, serving a two year sentence for a murderous assault on John D. Lancaster, and who is a claimant for his wife's estate, which is of considerable proportions, suit was instituted in the circuit court this morning by Lizzie Harvey against Louisa Thomas Wiggs, and several others for partition of Mrs. Harris's estate, also the estate of Martha Alexander, and appointment of a receiver for the same, that the land may be farmed during the pendency of the partition proceeding.

Mrs. Harris and Mrs. Alexander are daughters of Elijah J. Kerlin, deceased who left an estate of considerable proportions. Both of these daughters were given 60 acres, and it was specified in the will that in event neither had children, that their estates should be divided among the grandchildren of Mr. Kerlin. The husbands of the deceased sisters and in whose names the property was held, claim the estates. The plaintiff of the action avers that by her grandfather's will, the husbands of Mrs. Harris and Mrs. Alexander are not entitled to any claim to the property. No action has been taken relative to the appointment of a receiver, for the properties involved in the litigation. Mrs. Harvey is represented by an attorney from Ohio.

IN THE CONVENTION

Governor Marshall Says Is the Place to Decide on Senate Candidate.

A PUBLIC ANNOUNCEMENT

(Palladium Special)
Indianapolis, March 14.—Governor Marshall today comes out in a public statement favoring the selection by the democratic state convention of a candidate for United States senator. The governor says that since 1894, democrats have favored the election of a United States senator by popular vote, and, since under the constitution this cannot be done, a selection by the state convention is the nearest approach to it. He believes, also, such action would place the democrats on an equal footing with the republicans, whose only candidate will be Beveridge. The governor made his statement after discussing the matter with a number of democrats.

A LAYMEN'S CONVENTION

Local Churchmen Are Taking Interest in Meeting at Indianapolis.

Local laymen are very much interested in the Indianapolis laymen's missionary convention to be held at the Capital, April 12-14, and it is probable that a number of them will attend. E. M. Haas and E. G. Hill are making arrangements to be present. It is the endeavor of the local laymen to arrange, if possible, a meeting to be held in this city immediately following the Indianapolis convention. It is thought that several of the speakers at the convention can be secured for the affair. In event the meeting is held here the East Main Street Friends' church will probably be used.

HARD ON THE HORSE

Complaint was registered with the police this morning over the fact that a horse had been left tied to a hitching rack at the corner of South Fifth and C streets all night. The animal is owned by a man by the name of Perkins, from Fountain City, it is alleged, and according to the statement made by the person who registered the complaint and reported the matter, Perkins was more or less under the influence of liquor when he abandoned the horse and rig. The outfit was called for this morning at Knolls Ivory barn where it had been taken by the police.

HE DIED FROM A FALL ON PAVING

William Gilkerson, Leaving a Saloon, Is Attacked With Dizzy Spell.

CALL CORONER INTO CASE

SHORTLY AFTER HIS FALL, MAN WAS REMOVED TO THE HOSPITAL, WHERE HE EXPIRED WITHIN THREE HOURS.

Becoming suddenly subjected to a severe dizzy spell at the corner of North Twelfth and F street this morning, William Gilkerson fell forcibly to the brick pavement, sustaining injuries from the effects of which, he died at the Reid Memorial hospital about three hours later.

The accident occurred about 9 o'clock. Gilkerson complained of a pain and severe cramps in his leg, to a companion in John Schell's saloon and it was while walking out of the door onto the sidewalk that he was seized with the dizzy attack. The man struck his head against a sharp rock and was rendered unconscious. He bled profusely, the blood flowing from his mouth, nose and ears in large quantities.

A physician was summoned and the man was immediately removed to the hospital, where his injuries were given attention. However, he never recovered consciousness and died about noon. Death was due to a fracture of the skull and concussion of the brain. Gilkerson is about 40 years of age and was married. He came to Richmond several months ago from some place in Ohio, where it is said he has relatives. Coroner Bramkamp stated this afternoon that he had not completed his investigation yet, but that a post mortem examination would very probably be held. For the past few weeks Gilkerson had been employed at Henry Lennard's saloon on North Twelfth street.

PLAN BIG REVIVAL

J. Wilbur Chapman or Dr. Torrey May Be Brought Here to Conduct It.

MINISTERS TAKE ACTION

Plans for the holding of evangelistic services, next October, such as have never been held in this community before, were discussed at the meetings of the Ministerial association this morning and yesterday afternoon. Either the Rev. J. Wilbur Chapman or Dr. Torrey, or some other equally well known evangelist will probably be secured to conduct the services.

Committees to have charge of the arrangements for the services will be appointed within a short time. It is probable that the committee will include the members of the general committee, which has charge of the Layman's Missionary movement, probably to be held in this city in April, following a similar meeting at Indianapolis. The service will not be denominational but for the good of all creeds and in planning for the event, leading members from the different Protestant churches will be appointed on the various committees. It is the consensus of opinion that the service should not be held until after October.

(American News Service)
Washington, March 14.—The greatest trust in the world began its fight for life before the Supreme Court of the United States today, when an appeal of the Standard Oil company from the decision of the circuit court of Eastern Missouri came up for a hearing. The lower court, sitting at St. Louis, some time ago, ordered the dissolution of the Standard Oil company because of the alleged combination in restraint of trade. The question as to whether the government can curb trusts under the Sherman anti-trust law is at stake. The consideration of the case will require three days. The most brilliant and high salaried legal talent is employed. Evidence fills twenty three huge volumes.

Circuit Court Was Busy Today

Judge Fox Was on the Bench This Forenoon After Week's Absence and He Made Up for the Time Lost.

Judge Henry C. Fox, of the circuit court, was on the bench this morning after an absence of a week, during which time he presided in cases heard in Jay and Randolph counties, and a number of matters which had accumulated, during the week of enforced idleness in the local courts, were attended to.

In the case of the G. R. & I. railroad against the Indiana railroad commission, to have a ruling of the commission declared void, a stipulation agreement was entered into by attorneys for both parties. It was agreed that no action should be taken in the case by either side unless ten days notice of such action was given the attorneys of the other side, by the attorneys of the side who contemplated taking some form of court procedure. The case has been on the docket for several months.

John A. Buffkin borrowed \$100 from a local bank in 1898 and William J. Hiatt went his security. When the note expired Buffkin did not pay and Hiatt was compelled to do so. Suit was filed by Hiatt in the circuit court recently against Buffkin on the account and he demanded \$225. This morning a decree in the favor of Hiatt was given. The case was damaged in a dynamite explosion. It was adjacent to an alley, in which contractors were constructing a sewer.

Satisfaction being secured and costs of litigation being paid, the case of William P. Robinson and Henry R. Robinson, trustees of the estate of Henry E. Robinson, deceased, against the city of Richmond and others for \$100 damages to property, was dismissed. The property of the decedent was damaged in a dynamite explosion. It was adjacent to an alley, in which contractors were constructing a sewer.

Law's Inconsistencies Shown

Statute Governing Township Trustees Alleged to Be Weak One in Article by Cambridge City Man.

Inconsistencies of existing laws, relative to township trustees are pointed out in the March number of the Public Officials Magazine for Indiana, by Manus E. Mason, of Cambridge City, trustee for Jackson township. His article is in part as follows:

The statute empowers the township trustee to establish and maintain a township graded high school in the township under certain conditions which is well enough and savoring of good law. Another section directs him to transfer pupils out of his township for high school purposes under certain conditions, notwithstanding the high school he has established and is maintaining at a heavy cost to the taxpayers. An illustration: In Abington township, Wayne county, Indiana, the trustee is maintaining a township graded high school in the village of Abington, with an attendance of seven pupils in the high school. He has been compelled under the statute to retain 25 per cent of the high driver's wages until he had fully complied with the contract as such driver. But the isolated family, which is very inconvenient to reach with the hack, becomes the problem in executing this law.

In the absence of a stipulated price per mile by statute for such transportation the parent will invariably demand an unreasonable price for transporting his children and will refuse to allow them to be transported by another who will do so for a reasonable sum.

The lecture is illustrated by the use of stereopticon views.

A Compliment.
Mrs. Hersey was unhappy over the stern severity of her new photographs. "Norah," she said to her pretty wifes, "do you think this photograph looks like me?"

Norah's warm Irish heart came to the rescue. "Share, Mrs. Hersey, dear," she replied quickly, "if you looked like that would I ever have two afternoons a week?"
