## BAD BLOOD.

Is the cause of nine tenths of the ill which the human body is afflicted. The symptoms of which range from the dreaded contagious blood poison to the minutest eruption on the skin. They include rheumatism, catarrh, scrofula, eczema, erysipelas, pimples, boils, ulcers, running sores, inflamed eyes, and enlarged glands, down to sick headache and a muddy or sallow complexion.

The prescription of Dr. Simpson, (the noted blood Specialist of Richmond, Ind.) known as Dr. A. B. Simpson's Vegetable Compound, is the most powerful alterative, or blood purifier, ever known. Its reputation was firmly established a few years ago, by curing apparently hopeless cases, was certified by county and city officials, and widely noted by the press; since which thousands have been relieved by its use.

Good blood invariably means vigorous health, and appetite, good digestion, strength, and a clear, healthful complexion. This is assured to all who try this remedy; its remedial effects are apparent with the first few doses.

Dr. Simpson's Vegetable Compound is purely vegetable, and is harmless as it is effective. It is put up in convenient form at one dollar per bottle and is sold at all drug stores.
