

URGE BOARD TO REMOVE TRACKS

Committee of Richmond Citizens Thank City Administration for Action.

CAR LINE IN THE GLEN

MAYOR PROMISES TO CARRY CASE INTO THE COURTS IF COMPANY REFUSES TO OBEY THE ORDER.

For the purpose of thanking the members of the board of public works for their earnest and conscientious efforts in endeavoring to compel the Terre Haute, Indianapolis & Eastern Traction company to remove its tracks from the Glen Miller park, a committee of representative citizens called at the office of the board this morning and personally expressed appreciation for the attitude taken by the present administration in behalf of the matter. The committee was appointed about two years ago at a mass meeting of citizens, at which time a protest was entered against the placing of the tracks in the Glen. It is composed of Timothy Nicholson, chairman; Dr. Paul Ross, Dr. D. W. Stevenson, Dr. M. F. Johnston, C. B. Hunt, Mrs. M. F. Johnston and Mrs. Wallace. Mr. Nicholson said that he voiced the sentiments of the majority of the people in Richmond when he declared that he was very much pleased with the recent order of the board of public works by which the traction company was ordered to tear up its tracks in the park. He said that two years ago when the permission was granted the company to run through the Glen, he wrote a personal letter to the president of the company, advising him not to place the tracks in the park, as he would sooner or later regret having taken the step. Mr. Nicholson then asked that no hesitancy be shown by the board of works in soliciting the aid of any member of the committee as any assistance would be rendered. On behalf of the board Mayor Zimmerman thanked the committee for their hearty cooperation and declared that the board would do everything in its power to remove the tracks. He stated that the whole affair hinged on a fine point of law and that unless the company agreed to abide by the decision of the board and follow its orders the case would be carried to court.

TEAM TO FT. WAYNE

Country Club Golfers Will Play Match with Keklouga Club Next Monday.

EIGHT TO MAKE THE TRIP

The golf team of the local Country club will go to Fort Wayne Sunday where it will meet the Keklouga golf club of that city in a match on Decoration day. The Richmondites expect to make an excellent showing. Although handicapped somewhat by a lack of familiarity with the course, the local delegation hopes to bring home the scalp of the Fort Wayne aggregation. The following will probably make the trip: Will Dill, Frank I. Bruffett, Walter Hutton, George Seidel, S. S. Strattan, Jr., and Prof. Waldrup, Thompson and Torrence. A number of other matches have been arranged by the local team this season. A keen interest is being taken in golf this year by the members of the local club and some excellent new players are being developed.

Princess Mary and Prince Henry of Wales, two children of King George V., are just as fond of toys as youngsters who have no royal blood. They get as much fun out of Noah's ark and its myriad of animals as the average youngster in a workman's home.

News of the Diamond Idols

Birmingham ought to be known as the M. club. Its batting order reads as follows for the first five spaces: Marcan, Messenger, Molesworth, McBride and McGilivray.

Holly, the Eastern league shortstop, formerly with the Cardinals, is a Chicago Bohemian, and closely related to Jack Root, the ex-fighter. The real name of both Root and Holly is said to be something like Ruthalik and when they became professional athletes Root took part of the name and Holly another portion.

Chick Fraser is pitching for semi-pro. clubs in Chicago, and is being hit pretty hard.

Simon Nicholls refuses to go minor league, and has retired to his farm in Maryland. By industrious burrowing, he has trained his hens to lay base balls, and hopes to get them on the market in a season or two.

Jimmy Barrett is having another time on earth. He leads the American association with .438 and is playing like a demon.

Lapp is shining as a pinch hitter, and Connie Mack thinks he is the best emergency swatman of the season.

The Reds didn't lose much in Ellam. He is hitting .146 in the Association.

Laporte is to play left for the Highlanders. The Franco-Hoosier is a bit clumsy for the outfield, but is too strong a hitter to be kept out of the game.

Joe O'Brien, it is said, will soon get back in baseball. He is said to be in the market for a team.

"Indian" baseball clubs are again touring the country, getting whatever dates they can. About two-thirds of the "Indians" are black-haired white boys hired for the season and given lurid aboriginal names.

Bill O'Hara, who wanted to go to Toronto, is happy at last. Bresnahan has sold him to the Canadian team. Cheek of the Quakers also goes to Toronto.

Jackson, Mich., has a pitcher named Ghoulis. That fellow ought to be working for the dissecting room of some medical college.

Sox Seybold is now with the little team at Jeannette, Pa. Where next, oh puppy-dogs!

The West Virginia league has a pitcher named Barnabark. Oh pingpong, oh puppy-dogs!

Cy Young is quite ill, and can not work for the Cleveland bunch many days. McGuire has signed a college pitcher named De Mott, who is touted as having fine curves and most terrific speed.

lege graduate, polished gentleman and alas, not even an Irishman.

Moran and Martel who looked so good at the start, didn't last long with the Doves. This was about the fourth or fifth try in the fast company for Moran at that.

Collins looked as if he might break the league record for outfield flies Monday, as he caught eight in six innings. The fire slackened after that and he got no more. Record is eleven, caught by Dick Harley.

There is a pitcher named La Follette in the Ohio league. Wonder if he is an insurgent when team discipline is under discussion?

Ollie Chill is still umptiring. His leg gave the hardest kicker cold feet, even though his decisions are fearfully frosty.

Hunter and Swan are with Kansas City. Wonder if Swan honks when he sees Hunter approaching with a gun?

In the shuffle and confusion, few

fans seem to have noticed that little Jap Barbeau got the hook from the Cardinals, and is playing with Kansas City.

Frock might be more of a winner of Cote, the old New England league catcher, were secured to backstop him. Wardrobe notes, please copy.

The New York Highlanders are about to reduce their team number to save expenses. Stallings hates to do it, but Farrell thinks the money must be saved.

The record for the present year as to the number of men engaged in a game was made at New York the other day, when 28 cherubs took part—12 for Cleveland and 16 for the Highlanders.

Cliff Blankenship of Red and Washington memory, is now at Tacoma. He always did prefer the coast, anyhow.

Spokane has an outfielder named Weed. How would he look playing on a team with Bush, Wheat and Burch?

Would Boost Butter \$1 a Pound

Chicago and Elgin Interests Have United for a Corner This Fall—Packing Firms Interested.

Chicago, May 26.—Following the announcement that Chicago meat packing interests had obtained contracts for about eight million pounds of butter, practically all the output of the Omaha market during June and July, to be delivered at Elgin prices, it was openly declared that local and Elgin butter interests would combine to raise the market price and force the packers to cancel their contracts or lose a fortune by the deal.

According to the Inter Ocean it is pointed out by local dealers that the delivery of this vast quantity of butter for cold storage purposes into the hands of the packers would leave the market at the latter's mercy in the fall when prices are expected to rise. The dealers controlling the Elgin butter board and quotation committee announced last night that they would mark the price of butter at \$1 a pound if necessary to make the packers annul their contracts and leave the western market open.

Federal Investigation Promised. Regardless of the turn of the butter situation federal investigation is promised. The conditions which lead to the simultaneous attack of the packers on the central market for western butter at Omaha, it is said, will be investigated. If the threats of E. L. McAdam, leader of the opposition to the

packing interests, are carried out and the quotations are placed above the actual price of sales, it is promised that the legality of the move will be investigated by a federal grand jury.

The butter involved in the fight is termed "centralized" butter, the cream being shipped from all parts of Iowa, Nebraska and Kansas to Omaha, where about four million pounds are manufactured monthly. It is considered slightly below the grade of No. 1 Elgin butter, and if purchased at the actual price of the latter a considerable loss to the packers is expected.

The packers succeeded last year in depressing the market at this season and bought large quantities of butter, which profited them handsomely in the fall," said Mr. McAdam last night. "They are evidently expecting to control the market this year and buy at their own prices. I believe I can control a majority of the Elgin board and we will make butter 50 cents or \$1 a pound but what we make them break their contracts or put them out of the butter business.

Hope to Control Market. "This time they trusted in the Lord, hoping that they could control the market, and did not investigate. If they were allowed to carry out their

scheme they would have a larger part of the available butter supply next fall and make us come to their terms."

The bitter strife expected in the Elgin butter board meeting next Saturday was forecast Monday when Mr. McAdam and his supporters held the market at 28 cents in spite of a bitter fight to lower the quotation. The term "liar" and "thief" were used freely and blows were prevented only by the more peaceful members.

An emergency call has been sent to every member of the Elgin board asking all to be present Saturday and the stormiest session in the history of the board is expected. It is rumored that a representative of District Attorney Sims will be present to decide whether the action taken is in restraint of trade.

Among the packing concerns interested in the deal and who have no representation on the butter board are the Armour, Swift, Morris and Cudahy concerns. The only other firm in the deal is the Friedman Manufacturing company. The connections said to exist between the packers and the Fox River Butter company and other firms represented on the board are already under investigation by the federal authorities.

AMATEURS TO PLAY

Games Scheduled for Sunday and Decoration Day for Delectation of Fans.

DAYTON NINE IN RICHMOND

Several amateur and professional baseball games are scheduled to be played in and about Richmond on Sunday and Decoration day. The Starr Piano team will meet the Garfield club of Dayton at the Athletic park in a game Sunday afternoon and another on Monday afternoon. The lineup of the Starrs is as follows: Catcher, Sullivan; pitchers, Kuhlbeck, Evans and Bulla; first base, Enelbert; second base, Martin; short stop, Kelley; third base, Bueening; left field, Carter; center field, Schattel; right field, Ralph. Boston will cross bats with the Webster nine at the latter place following the exercises Sunday afternoon. The Light, Heat and Power company's team will contest for honors with the railroad employees' nine at Hawkins' pond, and the Nationals of this city will go to Lynn on Decoration day for a game. On Sunday afternoon the Glen Millers will be pitted against the Y. M. I. team at the Beallview park. The T. P. A. S. will meet Easthaven Saturday afternoon at Easthaven.

NEW COURSE AT EARLHAM.

A course in electro-chemistry has been added to the curriculum at Earlham college. Dr. H. M. Holmes will have charge of the new department

which will comprise two laboratory studies and three lectures each week. The study looks to prove very popular and already twenty-five have enrolled. The equipment recently installed is most modern.

A Tonic

Make no mistake. Take only those medicines the best doctors endorse. Consult your own doctor freely. Sarsaparilla is a strong tonic, entirely free from alcohol. It puts red corpuscles into the blood; gives steady, even power to the nerves; strengthens the digestion.

SHOT SCARES BURGLARS.

Unknown men last evening made an effort to enter the Scott residence, 222 South Twelfth street but were frightened away by a shot fired by Mrs. Fannie C. Scott. The police were called and after an investigation were unable to discover any clue which might lead to the discovery of the intruders. Mrs. Scott was working in a down stairs room, when she heard some one walking on the tin roof.

Cash Loans

Housekeepers and workmen you can secure money from us without publicity at the very lowest rates. These things, combined with courtesy and consideration, will give you more solid satisfaction and contentment of mind than you think, and if the company you do business with will not live up to this policy, then it's time for you to change. Come in. No Red Tape. Our methods are entirely different from any other concern of money lenders. We don't ask you to tie up to a long-time complicated contract.

INDIANA LOAN CO.

3rd Floor Colonial Bldg. PHONE 1341 ROOM 42. RICHMOND.

Again We Say, "It's Incubator Time"

It has been incubator time, it is incubator time and it will be incubator time for many months yet.

The new way of raising chickens calls for the use of the incubator all the year. You don't have to depend on a setting hen to raise one brood of chickens per year, but instead can have chickens hatching every month. That means that you will have chickens to sell when they are highest, and that you'll have hens laying when eggs are scarcest.

You Can Add 10 Per Cent. to Your Income by Raising Chickens in the Back Yard.

That's a low estimate. Some people are almost making a living just from a few chickens and an incubator in the small back yard. It's not hard, only a little time and a little patience and such results are easily possible.

The Banta is the Incubator You Want.

You can buy incubators for less money, but you get less results. With only a little care the Banta will hatch all the eggs that are hatchable. It will give such uniformly satisfactory results that your work will succeed even better than you hoped.

All Other Needed Appliances.

We've everything else that is needed to help you make a success of your poultry raising. Out-door and in-door brooders, poultry houses, feeding pans, etc. They'll all be a decided advantage to you in making a bigger success of your poultry business.

The Incubators sell from \$11 to \$57, according to size.
