Mrs. Fannie Surdam Stelle, the wealthy New York society woman who died suddenly under mysterious circumstances in the Palmer House, Chicago. The lower picture is Edgar R. Accetta, a young Italian tenor, who some time ago sued Mrs. Stelle for alleged breach of promise. It is stated by the physicians that the woman's death was due to apoplexy. Within a few hours after her death her will was filed by her attorney in which the young tenor was made the beneficiary to the amount of \$25,000. The estate is valued approximately at \$500,000. Mrs. Stelle won great fame in New York society circles through her musicals. It was here that she met Accetta.

**CHAS. HARRIS DEAD**

Trustee of Perry Township Expired Sunday After a Prolonged Illness.

**WAS VERY POPULAR MAN**

(Palladium Special)  
Economy, June 13.—Charles A. Harris, trustee of Perry township and proprietor of the implement store here, died at his home yesterday morning about 10 o'clock after a long illness from heart trouble. He was forty-six years old. He is survived by his wife and two children. The funeral will be held at the Liberty church, twelve miles north of here, on Tuesday morning. Private services will be held at the home at 9 o'clock Tuesday morning.

Mr. Harris was elected to the office of trustee of the township two years ago, and took his office on January 1, 1909. Last December he became quite ill and his death was not unexpected. He has been confined to his home since he was taken ill. During his illness his office was in charge of Enos Veal, whom Mr. Harris succeeded in office. He has been a resident of this place almost his entire life and for several years has been engaged in the implement business. He enjoyed a large trade and was in comfortable circumstances. He was active in the Odd Fellows' lodge of this place. The township trustees of the county will attend the funeral in a body.

**Hay Fever and Catarrhal Asthma**

Tens of thousands of sufferers from hay fever and catarrhal asthma find great comfort and quick relief by breathing Hyomei.

Of course where asthma is not caused by a catarrhal condition, but by nervous contraction of the bronchial tubes Hyomei is not recommended. But in either hay fever or asthma where there is a discharge of mucus, breathing Hyomei gives most wonderful relief by soothing the irritated and highly inflamed membrane.

Mr. W. A. White, R. F. D. No. 1, Evansport, writes: "I have been bothered with asthma for over five years but could not get any relief until I tried Hyomei. I have spent lots of money on remedies for asthma and if I could not get another bottle I would not be without Hyomei for \$50. I recommend it highly."

A complete Hyomei outfit including hard rubber pocket inhaler, costs \$1.00 with instructions for use in hay fever and asthma. Extra bottles of Hyomei cost 50 cents at druggists everywhere and at L. H. Fife's.

**AEROPLANES WILL FLY AT SPEEDWAY**

Indianapolis This Week Will Interest Itself in Man-Bird's Sports.

**WRIGHTS ENTER MACHINES**

SIX OF THE DAYTON MEN'S SPEEDERS WILL CONTEST IN THE VARIOUS EVENTS—MEET LASTS FOR SIX DAYS.

Indianapolis, June 13.—Indianapolis today becomes the center of interest for lovers of aviation the world over. Housed in the big aerodrome eleven aeroplanes of modern type await the signal at two o'clock this afternoon which will set in motion the first licensed aviation meet to be held in America. Six days this week, weather permitting, the Indianapolis Motor Speedway will be the stage upon which thirty-five events of various kinds will be staged; it is expected that many thousands of persons from Indianapolis, from throughout Indiana, from the West, from many parts of the United States, will congregate to form the biggest crowd that ever attended an aerial contest.

Everything is ready. All is ready. Work of overhauling, repairing and inspecting the monsters of the air ended last night, and weary aviators and assistants left the Speedway to obtain much-needed rest for the strenuous program which will start this afternoon. The inside of the Speedway course has been transferred into an almost perfect aviation field. The surface is smooth and level and seems to invite the daring pilots, who, this week, will strive to set new records in the world's history of aviation.

The aeroplane course, 150 feet wide and a mile and a half in circumference lies within the two-and-a-half-mile brick track and is situated in the south-westerly part of the Speedway. It is said to be the greatest, most completely inclosed aviation ground in the world. The course is overlaid with turf, which has been closely cropped to allow machines on wheels to get under way. The entire field is smooth so as to offer every advantage to the little army of aviators who will hold forth this week.

The program for today was announced yesterday by E. A. Moross, director of contests. Walter Brookings of the Wright team, who Saturday ascended 1,560 feet in the air in a trial for altitude, will be the first on the card. He will cover five laps around the one-and-a-half-mile course.

Following Brookings, A. L. Welsh, Brookings and E. P. Coffey, and Welsh and Ralph Johnstone, all employed by

the Wrights, will attempt five-lap flights. Welsh and Brookings will then engage in a pursuit race of from five to ten laps. This, it is believed, will be one of the most exciting events on the day's program.

**Pursuit Race Today.**  
The sixth event, also, will doubtless prove extremely interesting. Johnstone and Welsh will oppose Coffey and Brookings in a pursuit race of from five to ten laps. Immediately after this novel air maneuvering an effort will be made to establish a Speedway record for altitude, now 1,560 feet held by Brookings.

Two or more match races, entries to be announced this afternoon, will constitute the eighth number on the card. This completes the program as given out by Mr. Moross, but he has announced that additional events will be scheduled.

Orville Wright arrived yesterday afternoon from Dayton, Ohio, to watch the six Wright machines perform this week. Wilbur Wright, the older brother, reached Indianapolis Saturday. Both are enthusiastic about the Speedway; both are modestly enthusiastic about their type of aeroplane. They will remain at least the greater part of the week to see the flights here.

Miss Katherine Wright, sister of the Dayton inventors, probably will come to Indianapolis Thursday. She is extremely proud of her "big brothers," has been abroad with them to witness their flights and is a zealot of the aviation game. Miss Wright formerly taught school in Dayton. It is possible that Bishop Wright, father of the aeroplane wizards, may journey here from his home in Dayton to see the program at the Speedway. Recently he flew with one of his sons and said he enjoyed the experience very much. He is rather vigorous, despite his advanced years.
