

\$30,000 IN PRIZES AT SPEEDWAY IN SEPTEMBER RACES

Promoters at the Indianapolis Track Plan to Give \$10,000 in Cash and Twice as Much More in Cups and Medals.

WILL ATTRACT MANY EUROPEAN DRIVERS

Meet Which Opens on September 2 Will Be Greatest in History of Speedway — To Be Many Fine Features.

Indianapolis, July 9.—Ten thousand dollars in gold and twice that much in plates, cups, medals and trophies will be posted by the Indianapolis Motor Speedway in a strenuous effort to attract Hemery, Wagner, Nazzaro, Sizor, A. Smith and Edge from the shores of the Old World, as well as Robertson, De Palma, Strang, Oldfield, Chevrelot, Burman, Lytle, Harroun, Aitken and the score or more of famous American pilots to the great Hoosier course at the September speed carnival. The decision of the Speedway management to cancel the arrangements for the proposed twenty-four hour race August 13-14 resulted in their taking the money scheduled for the promotion of the long grind and throwing it into the treasure which will be divided among the speed kings during the races of September 2, 3 and 5.

The big Speedway plant will bask silently in the sun during the month of August, and only the sounds of activity from a few workmen and occasional practice flights of aeronauts or motor racing craft will break the peaceful calm. The balloon races which were scheduled will be held on the afternoon of August 13 as a curtain raiser to the twice-around-the-clock circuit will also be abandoned.

The Speedway management hopes however, to offer a purse of \$2,000 in cash, which will bring the greatest drivers of the world together in a magnificent battle over the 100 miles distance. The Benz, Fiat, Napier and other famous foreign car drivers will be in America by that time, preparing for the Grand Prize and Vanderbilt event on Long Island the first part of October. Two thousand dollars or more, counting the medals, cups and prizes of the accessory firms, is expected to lure the greatest pilots to the Hoosier course.

On Saturday, September 3, the Speedway will put on a special race, known as the Speedway Gold Purse event, which will also carry a rich cash prize. This event will be under the same conditions as the Wheeler-Schaefer trophy race of 200 miles. It will open to cars regardless of class and not necessarily of stock construction, under 600 cubic inches piston displacement. One thousand dollars will be given for first place, \$500 for second and \$300 for third place.

In addition to these rich races there will be the usual number of shorter events for stock and free-for-all cars, and also the big stock races for the Remy Grand Brassard and trophy cup and also for the Prest-O-Lite trophy. The combination of these stock classes with the cash free-for-all events should make the greatest program ever witnessed.

The Speedway desires to make this event a fitting climax to the season of 1910, which has produced the most thrilling motor racing in the history of the sport. They are anxious for the Indianapolis course to hold every record for speed, eclipsing even the startling marks held by the Brooklands course in England.

The twenty-four hour race was called off by the Speedway promoters because of the danger which attends these long grinds. There was a great popular demand for a twenty-four hour race in the west, and the public as well as the manufacturers were anxious to see the twice-around-the-clock event staged on the great Speedway course.

The Losers, Buicks, Marions, Marmons and other cars noted for speed and endurance had signified their intention of entering the motor Marathon, provided the Indianapolis men held the event. The fatality at Bright on Beach recently, however, turned the tide of sentiment of President Fisher and others against the project. Although the Beach accident was due to the rough condition of the track, which could not occur at Indianapolis, nevertheless the Speedway concern is determined to preserve the reputation of safety which the vitrified brick surface course has earned this year.

There is no medicine so safe and at the same time so pleasant to take as Dr. Caldwell's Syrup. It is the perfect cure for all diseases arising from stomach trouble. The price is very reasonable—50c and \$1.

ICE CREAM

As a Brick

Order your Ice Cream in brick form, equal to 1 quart, and 1 pint, wrapped in Parafine Paper, and ready to serve by cutting in slices. More convenient than in the bulk; perfectly sanitary and air tight.

25c PER QUART.

English Question Morals of Their King

Efficiency of Ruler Is Firmly Defended by Dean of Norwich, Who Tells People They Should Love and Respect Him.

BY HERBERT TEMPLE.

London, July 9.—Rumors about King George, to the effect that he would be found unfit to rule the British empire because of his love of strong drink, and about his secret morganatic marriage to an English girl of humble birth with whom he was said to have had several children, have for years been circulated in England and recently became so persistent that the Dean of Norwich, in an address to a congregation of members of friendly societies found reason to say with much emphasis the other day "We have now upon the throne a king who to my personal knowledge is a man of intense self-sacrifice and high character.

"Against him one has heard brought two accusations, 'brought, as I think by that part of society which is in no society at all, but as these things percolate down, it is just as well that when speaking before a mass of people, one should give the lie to those accusations.'

"In the first place the king is sometimes accused of insobriety. You may take it from me on undoubted authority that such a statement is a libel.

"As far as his close friends have noticed him he has never been intemperate throughout his life; but on the contrary is a man, who even from the point of health, has to be abstemious and who has no desire to be anything else.

"I want you generous hearted men when you hear some light, stupid talk with regard to our king to say with absolute confidence that there is not a more sober, temperate, quiet-living man in this country than
