Hints From Palladium's Pattern Dept

MISSIE'S UNDERGARMENT. This is a dainty garment for wear with modern dresses. The front view shows it made of plain lawn and trimmed simply with lace and insertion. A ribbon runs down the back, binding it at the waist. The back view shows the chemise plain without the ribbon at the waist. This pattern is cut in three sizes, 12, 14 and 16 years. Size 16 requires 3 1/2 yards of 36-inch material. Price of pattern 669 is 10 cents. No. 669.

Fill out blank and send to Pattern Department of this newspaper.

LADIES' HOUSEDRESS. This design has many advantages. Part of the fullness at the sides of the waist is cut away below the bust. The skirt is plain and cut with two side gowns. The dress closing is used or the dress may be finished to button in the ordinary way down the center front. This pattern is cut in five sizes, 30 to 40 bust. Size 36 requires 5 1/2 yards of 37-inch material. Price of pattern 524 is 10 cents. No. 524.

Complete Franchise Investigation

Public Utilities Committee Reports to Bureau of Municipal Research on Condition of Existing City Contracts.

Criticism of the methods of the city in dealing with public utilities corporations and particularly in reference to the franchises or grants held by these companies is made by the municipal research bureau committee on public utilities in a statement issued today. The report was prepared by a committee of the bureau and in it the committee recommends that most careful consideration be given to grants by the city in the future. The committee further states that a review of some of the franchises under which public utilities corporations are now operating reveals crude and vague conceptions of the public rights. The report is signed by Pettis A. Reid and Elbert Russell, and is as follows:
"The within has to do with the public utilities of no other town or portion of Wayne county than the City of Richmond. To date no search has been made in the records of the various towns of the county as to the public utilities operating therein. Mr. Demas Coe, the county auditor, informs your committee that there is no record of the public utilities operating within the county. Your committee has made no effort to search through the records of the various county offices having jurisdiction over such, because of lack of time and the enormous amount of work required.
"In the city of Richmond we find that some public utilities are operating under licenses, others under franchises both limited and unlimited, others under somewhat in the nature of contracts, and so far as our search extends there are others that are operating without any rights formally obtained from the city, such as the various express companies, the various railroad companies, excepting the C. & L. Ry. Co., and all others not listed on Schedule A accompanying this report.
"A glance over schedule A referred to in the foregoing reveals the following:
1. Two (2) are subsidized, the amount of the subsidy not being mentioned in one however.
2. No franchises have been given under a general petition.
3. The shortest time limit in any of the franchises is three (3) years; two carry a twenty (20) years limit; two carry a twenty-five (25) years; three fifty (50) years and no others carry a time limit.
4. The city derives no direct financial benefits or revenues under any of the franchises granted except that from the Telephone companies. Possibly the Richmond City Water Works company should be excepted, though doubtful. Your committee considers this class legislation of the worst sort, not in that the Telephone companies are required to recompense the city (and that is very slight), but that each should recompense the city at least to a reasonable extent according to the benefits received. We believe the

reading and study given each of the franchises, etc., tabulated, we are impressed by the extreme crudity and vagueness of many of them and the apparent lack of legal training in the framing of them. We do note however that in form and in setting forth terms and conditions there is a great improvement in those bearing later dates. We note a considerable tendency in the latest ordinances to set forth more specifically the purposes of the ordinances, and to protect the interests of the public from more and different points of view and looking somewhat to the future as well as the present conditions and welfare of the public.
"It is probably the case in nearly every instance at this date that all ordinances, etc., desired by Public Utilities grantees are prepared by attorneys of the grantees in advance of their consideration by the City authorities. In many instances these grantees are corporations of great wealth and possessed of the most skillful legal talent and who naturally will frame such ordinances to best protect their clients. This being a self-evident fact, your Committee suggests that all proposed ordinances taking on the nature of a franchise, license or contract be first submitted to a Board of not less than five (5) of the leading attorneys of Wayne County for their unanimous approval before being finally acted upon by the Common Council, or Board of Public Works, or County Commissioners, according to their jurisdiction.
"A further study of the Schedule A clearly indicates that all ordinances of the character under consideration possess a number of elements in common that are vital for the greatest protection of the peoples' interests and it should be seen to by the proper authorities that none of them be omitted in the framing of such."
A Mistake Somewhere.
"Is it true, Miss Gertrude," he said, "that there are just two things a woman will jump at—a conclusion and a mouse?"
"No," she answered; "there is a third, Mr. Philip."
After thinking the matter over a few moments he tremblingly made her an offer, but she didn't jump at it. He was not the right man.
Two Men.
A feeble man can see the farms that are fenced and tilled, the houses that are built. The strong man sees the possible houses and farms. His eye makes estates as fast as the sun breeds clouds.—Emerson.
High Class.
Teacher—What class of birds does the hawk belong to, Tommy?
Tommy—Birds of prey. Teacher—Now, Johnny, to what class does the quail belong? Johnny—Birds on toast.—Chicago News.
A Sure Cure.
"Doctor, my wife has lost her voice. What can I do about it?"
"Try getting home late some night."
—Boston Transcript.

FAITHFUL BIBI.

He Remained True to the Last to His Little Weakness.

When Verlaine, the French poet, died he left his friend Bibliapuree as a legacy to those who had cared for him. Bibli was inoffensive. There was a tradition that years ago he had worked, but the man lived not who had seen him with pen in hand. Yet Bibli was looked after for the dead poet's sake. Painters, sculptors, journalists, gave him house room in turn, fed him and clothed him, and Bibli was grateful. But one little vice of his was incurable—he invariably walked off with his host's umbrella. This persistent absent-mindedness at last produced a cool-

AS HE LEFT THE HOUSE.

ness, and his friends dropped off, and Bibli experienced the cold shoulder of neglect.
One day he was discovered almost starving in an empty house, and Verlaine's friends reproached themselves for their unkindness to the poor old man. A subscription was raised for his benefit and the money handed to him at a banquet at which the twenty-seven subscribers were present. Bibli's health was drunk with enthusiasm. He rose to reply, but emotion so overcame him that he sought permission to retire. This was graciously granted, and Bibli retired, taking with him as he left the house the twenty-seven umbrellas of his entertainers, which he gathered up as he passed through the antechamber.

SUNDAY SCHOOL PICNIC.

The annual Sunday school picnic of the First M. E. church will be held tomorrow afternoon at Glen Miller park. More than two hundred are expected to attend. Games, music and a short program will furnish the entertainment.

Davidson Glacier.
Davidson glacier, in Alaska, which is really a tongue of the Muir glacier has been ascended by travelers for a number of years. It is a dead glacier, having a moraine of several miles between it and the sea. Looking at it from a boat, it represents a kaleidoscopic appearance as the sun shines upon it, and the surface seems scratched with tiny pin lines, in reality deep crevices.
