### RICHMOND, INDIANA "PANIC PROOF CITY"

Has a population of 23,000 and  
is growing. It is the county  
seat of Wayne County, and the  
trading center of a rich agri-  
cultural community. It is lo-  
cated due east from Indianapo-  
lis 40 miles and 4 miles from the  
state line.  
Richmond is a city of homes  
and of industry. Primarily a  
manufacturing city, it is also  
the jobbing center of Indiana,  
and enjoys the retail trade  
of the populous commu-  
nity for miles around.  
Richmond is proud of its  
splendid streets, well kept  
yards, its cement sidewalks and  
beautiful shade trees. It has 3  
national banks, 2 trust com-  
panies and 4 building associa-  
tions with combined resources  
of over \$1,000,000. Number of  
factories 125; capital invested  
\$1,000,000, with an annual out-  
put of \$7,000,000. The total pay-  
roll for the city amounts to ap-  
proximately \$4,000,000 annually.  
There are five railroad com-  
panies radiating in eight di-  
rections from the city. Incom-  
ing freight handled daily,  
1,700,000 lbs. Outgoing freight  
handled daily, 250,000 lbs.  
Yard facilities, per day 1,700  
cars. Number of freight trains  
daily 77. The annual post office receipts amount  
to \$80,000. Total assessed valua-  
tion of the city, \$15,000,000.  
Richmond has two interurban  
railways. Three newspapers  
with a combined circulation of  
15,000. Richmond is the great-  
est hardware jobbing center in  
the state, and has many other  
general jobbing interests. It  
has a piano factory producing  
high grade pianos in 15  
minutes. It is the leader in the  
manufacture of cotton gin  
gins, and produces more  
threshing machines, lawn mow-  
ers, roller skates, grain drills  
and burial caskets than any  
other city in the world.  
The city's area is 2,400 acres;  
has a court house costing \$500,000;  
10 public schools, the largest and  
the finest and most complete  
high school in the middle west  
under construction. Secondary  
schools: Earlham college and  
the Indiana Business College.  
Five splendid fire companies in  
fine hose houses; Glen Miller  
park, the largest and most  
beautiful park in Indiana, the  
home of Richmond's annual  
chautauque; seven hotels; mu-  
nicipal electric light plant, un-  
der successful operation; private  
electric light plant, in-  
curring competition; the oldest  
public library in the state, 40  
cent one and the second largest,  
40,000 volumes; pure, refreshing  
water, unvaried; 40 miles of  
improved streets; 40 miles of  
sewers; 25 miles of cement  
and gutter combined; 40 miles  
of brick walks, and many  
miles of brick walks. Thirty  
churches, including the Reid  
Memorial, built at a cost of  
\$250,000. Reid Memorial Hospi-  
tal, one of the most modern  
in the state. K. C. C. build-  
ing, erected at a cost of \$100,000.  
One of the finest in the state.  
The movement center of Pan-  
ern Indiana and Western Ohio.  
No city of this size in Rich-  
mond holds as fine an annual  
exhibit. The Richmond Fall  
Festival held each October is  
unique, no other city holds a  
similar affair. It is given in  
the interest of the city and  
financed by the business men.  
Successes awaiting anyone with  
enterprise in the Panic Proof  
City.

### Items Gathered In From Far and Near

**A Cure for Tetanus?**  
From the Philadelphia Inquirer.  
Reports from the Cooper Hospital in  
Camden give surprisingly gratifying  
results in the treatment of tetanus.  
Within the past month, it is said,  
three patients who had genuine cases  
of lockjaw have been cured. Two of  
these were children and the other a  
man of forty-four. In the latter case  
the disease had reached the state  
where the man's jaws were locked  
and his whole nervous system was  
temporarily paralyzed. The treatment  
used is an anti-tetanic serum which  
is said to act very quickly and leave  
no harmful results. This disease is  
one that has baffled medical science  
for centuries and if a specific has  
been discovered one of the most insid-  
ious and most serious menaces to life  
has been overcome. It has been often  
said that medical science is not pro-  
gressing with the same rapidity as its  
allied branch, surgery, but there  
seems reason for believing that ex-  
perimentation will in the next decade  
or so work wonders in this line. Cures  
of tetanus are so uncommon as to ex-  
cite comment at present, and the con-  
tinued results obtained from his serum  
will be watched with more than ordi-  
nary interest.

**Midsummer Nonsense.**  
From the New York World.  
If Russia and Japan arrive at an  
understanding as to the management  
of their railroad lines in Manchuria

## First Signs of Fall

In the midst of summer comes a whiff of Fall.  
The meetings of the Fall Festival committees have commenced with  
a rush.  
The men who will give up many pleasant summer evenings from now  
on—and sweater for quite as many others are not the sort to want  
publicity.  
But in the summer weather which is likely to hit here about Aug-  
ust—or sooner—it's a fall breeze that will be welcomed.

## Repartee

In answer to Mr. Kern's most brilliant latter remark about Roose-  
velt's "whirligig" policy we can only suggest that the gentleman in  
question will have something to say about that.  
It did not take long in a campaign two years ago to demonstrate the  
superior ability of Mr. Roosevelt in repartee when attacked—notably in  
the case of a Governor of Oklahoma.  
We can almost imagine how some of the nice things that Mr. Kern  
has said about the gentlemen in his own party would look on a Monday  
morning after Roosevelt had reduced them to a moral issue.

## The Strike Situation

The announcement that the Pennsylvania strike situation seems to be  
clearing up will be received gratefully by all sorts of people over the coun-  
try—most of them innocent bystanders.  
Both the company and the railroaders are to be congratulated that  
the outcome has been without actual physical disturbance.  
It is mighty hard to tell from the outside just what it all means, par-  
ticularly as the six months conference has been pretty well kept out of  
the newspapers—that is from public intelligence.  
One thing seems to stand out—that the unanimous action of organ-  
ized labor when conducted in an orderly fashion and by temperate men  
counts for more than violent chaos such as existed in the Philadelphia  
strike of recent memory.  
Of the things which the averted strike seems to mean is the recogni-  
tion of the fact that organized labor is not wild eyed. That, in a period  
of general unrest is the thing that workmen in organizations and the Rest  
of Us need to steadily keep in mind because the gradual revolution in  
the social fabric depends entirely on the ability of the Many to control  
themselves.  
How much the trouble between the company and the men has had to  
do with the problem of railroad discipline cannot be determined. That is  
the big problem which is going to come up more and more—as apart from  
wages.  
That this will ultimately be a problem involving the more socialistic  
tendencies at work is true. The lesson for the Many in all this is simply  
self control.

some excitable statesman in private  
life at once seizes a conspiracy  
to shut the United States out of Asia.  
To defeat this sinister plot a coalition  
of the United States with Germany  
or the triple alliance or somebody is  
suggested as the only way of guaran-  
teeing the open door. If the Kaiser,  
in replying to an official note from  
President Madriz of Nicaragua, ad-  
dresses him as "great and good  
friend" other nervous persons suspect  
that Wilhelm II is preparing to tram-  
ple on the sacred Monroe doctrine.  
They have visions of a third-class  
German cruiser appearing at Blue-  
fields and the German flag being hoist-  
ed over a coaling station in Central  
American waters.  
In midsummer international affairs  
always give rise to these rumors. It  
never fails. Jingoism is an all-year  
complaint, but during the heated term  
it runs to plain silliness.

**Improved Compass.**  
From the Springfield Republican.  
Until now the ancient mariner's  
compass, which has been used by na-  
vigators for centuries, has been consid-  
ered a fixed quality. It is, therefore,  
interesting to learn that an improved  
compass is being tested by the navy  
department on board the scout cruiser  
Birmingham. The new compass is  
combined with a rapidly revolving  
gyroscope, which eliminates all varia-  
tion and deviation of the needle of  
the compass. This, according to na-  
vigators, will make the art of naviga-  
tion much easier and remove the un-  
certainty of a ship's location due to  
variation and deviation of the com-  
pass. Another advantage of the im-  
proved compass is that the main in-  
strument can be placed in the interior  
of the ship, where it can be protected  
by armor plate. Branch compass sta-  
tions can be placed in different parts  
of the ship, connected by an electric  
wire to the main compass. So far  
the reports on the new compass have  
been satisfactory.

**The Gould Family.**  
From the Chicago Post.  
The Gould family should publish a  
schedule so the public may know  
which is who, as well as when, matri-  
monially.

**New Job.**  
From the Harrisburg Telegraph.  
Talk about exciting life! Think of  
being postal clerk on an airship mail  
express.  
In spite of the dismal weather of  
the last season the total number of  
last year's visitors at Shakespeare's  
tomb, 43,510, exceeded the previous  
year's record by 4,616 and only fell  
behind the topmost figures, 44,213,  
which were reached in the year 1907,  
by 703.—London Telegraph.

**GERMOLENE TOILE POWDER**  
MAKES YOUR COMPLEXION

Its antiseptic  
fragrance is in  
evidence hours  
after use.

## GOVERNOR-GENERAL OF DOMINION OF CANADA

Earl Grey, Governor General of Can-  
ada, who is returning home after a  
three weeks' stay in London. He will  
continue his present high office in  
Canada for one year, when it is ex-  
pected, the Duke of Connaught will  
succeed him. The Canadians were de-  
lighted to hear the news that Earl  
Grey would be with them another year  
as he is very popular in Canada. He  
has held the post of Governor-General  
longer than any of his predecessors  
except Lord Dufferin and Lord Minto.

## Heart to Heart Talks.

By EDWIN A. NYE.  
Copyright, 1908, by Edwin A. Nye

**CHEER THEM!**  
This is an old story, but a good il-  
lustration:  
Amid the flame and smoke an in-  
trepid fireman is climbing up a ladder  
to rescue a child. He has almost  
reached the windows, but is driven  
back, overcome by heat and smoke.  
The crowd below is breathless, but as  
the fireman falters some one says:  
"Cheer him! Cheer him!" And, nerved  
by the shouts of encouragement, the  
rescue is made.  
That is the heartening thing that  
all humanity needs—appreciation and  
cheers.  
You listen to a sermon that has cost  
your pastor time and spiritual expendi-  
ture. The words from the pulpit have  
helped you. Did you think to stay  
and grasp the preacher's hand and  
thank him for his message?  
Cheer him.  
The teacher of your child has been  
uncommonly good. He has been help-  
ful in the times of stress. He has  
been sympathetic and kind. He has  
faithfully served your flesh and blood.  
Have you been thoughtful and kind  
in your appreciation?  
Cheer him.  
You enjoy your favorite newspaper.  
You find in its pages news, entertain-  
ment, instruction and heart interest.  
Your editor has spent money and an-  
xious thought on every issue. Did you  
ever write him a letter of encourage-  
ment? Do so. And if you like the  
"talks" you are reading at this mo-  
ment tell him.  
Cheer him.  
And your own folks? Are you chary  
of your words of commendation to  
wife or mother or child? Know you  
not a cheering word is like wine to  
the weary? Your reticence may be  
thoughtless, but the effect of it is the  
same as if it were unloving.  
Cheer them.  
There are in this life sins of omis-  
sion as cruel as the sins of commis-  
sion. The word we should have said,  
but did not say—ah, that is as much to  
be regretted as the heartless speech!  
The word we had not said to say—  
Who knows how grandly it had rung?  
But we did not say it when it should  
have been uttered. We restrained the  
kindly expression that flew to the  
doors of our lips and begged for  
egress.  
And as we follow with slow and  
halting tread the precious body of the  
loved and lost it is all too late to say.  
"Oh, if I only had!"  
Ah, woe for the word that was never said  
Till the ear is deaf to hear.  
And woe for the lack to the fainting head  
Of the ringing shout of cheer!  
Ah, woe for the lagging feet that tread  
In the mournful wake of the bier!

**A single cylinder engine of 5,000-  
horse power, weighing close to 750,  
000 pounds, recently was built in Ohio
