LAUGH AND BE HAPPY.

"Laugh and the World laughs with you." What an old saying and how often it is heard and yet one wonders often how many people really try this plan. Instead of moping when adversity comes why don't you just smile. It will always help and if it doesn't seem to aid any, you haven't lost anything by the effort. But it really shouldn't be an effort. If some one is kind to you don't be selfish and keep the kindness all for your own, just pass it on. Let somebody else share the pleasure with you and really you will be much happier. Of course everyone has a gloomy day and sometimes more than one, but that is no reason that we should tell our troubles to some one else and make them sad. Really sympathy is a bad thing for it makes one too dependent and later on in life we simply can't get along without it. So just "Smile" and things will look brighter after while. Every cloud has a silver lining you know.
