SPAIN FEARFUL OF A GREAT OUTBREAK

It is Thought That Within 24 Hours, Much Disorder Will Occur.

ALL TROOPS HELD READY

KING AND PREMIER HOLD A CONFERENCE TODAY AND PLAN TO SUPPRESS TROUBLES IN A VIOLENT WAY.

(American News Service)

Madrid, July 23. (Via Cerebes, France)—An outbreak of violence and bloodshed is expected throughout Spain within the next 24 hours. The government is fearful of general bomb outrages and a policy of assassination of which the attempt on the life of ex-Premier Maura last night is believed to be the opening signal.
King Alfonso and Premier Canalejas conferred today and it is understood that the sternest policy of repression was ordered.
The government today reinforced the troops held in readiness for trouble at crucial points, in anticipation of immediate outbreaks.
Demonstrations planned by the republicans and the clericals for tomorrow, will, it is believed, lead to bloodshed and the situation at Barcelona, where the anniversary of the summer riots of last year comes on July 27, is serious. Moreover, the coal mine strike in the Bilbao district is growing more serious and many clashes have been reported.

Mutiny in a Prison.
The mutiny in the Carcel model prison here yesterday, in which 3,000 prisoners and guards struggled for over three hours, is commented on today by the radical papers as only a straw that indicates the direction of the wind. Many of the prisoners involved, it is understood, are in jail for political offenses.

The investigation ordered by the minister of justice is already under way. Special efforts will be made to find how the prisoners secured anarchistic literature.
The outbreak in the Carcel and the attack on Senor Maura are related, according to the authorities' belief, and both are but parts of the large revolutionary plans.
Manuel Pozas, the Barcelona who attempted to kill Senor Maura last night, was today subjected to a close examination in Barcelona; the authorities declaring that they had proof of his membership in the Central Anarchist organization.

It was given out here today that the ex-premier's condition was not serious, the only one of the three shots fired that hit him having penetrated his leg. The fact that he was hurried to the island of Majorca, is accepted by the public as corroboration of the optimistic reports of his condition.
His departure from the mainland, increasing the difficulties of learning his actual state, have given some basis to serious reports. The authorities have begun drawing large military forces about Barcelona preparatory to avert disturbance and all officials have been put under heavy guard.

BLAZE A SMALL ONE

Sparks from a C. & O. engine caused a fire in the trestle work of the road near the gas plant of the Light, Heat and Power Company this morning about 3 o'clock. A few dollars will cover the damage.

CITY ADVERTISEMENT.

Department of Public Works.
Office of the Board, Richmond, Ind., July 21, 1910.

To Whom It May Concern:
Notice is hereby given by the Board of Public Works of the City of Richmond, Indiana, that on the 21st day of July, 1910, they approved an assessment roll showing the prima facie assessments for the following described public improvement resolutions: Improvement Resolution No. 215-1910. Providing for the improvement of Elm Place, by the construction of cement gutter strip and cement sidewalk 10 feet in width on the north side thereof, from North 8th to North 9th street.
Improvement Resolution No. 216-1910. Providing for the improvement of the alley between South 4th and 5th streets from the first alley running east and west south of South B street, south to South C street, by constructing cement roadway in said alley the full width thereof, between the points named.
Persons interested in or affected by said described public improvement, or either of them, are hereby notified that the Board of Public Works of said city has fixed Monday, August 8, 1910, as a date upon which remonstrances will be received, or heard, against the amount assessed against each piece of property described in said roll and will determine the question as to whether such lots or tracts of land have been or will be benefited in the amounts named on said roll, or in a greater or less sum than that named on said roll.
Said assessment roll showing said prima facie assessments, with the names of owners and descriptions of property subject to be assessed, is on file and may be seen at the office of the Board of Public Works of said city.
H. M. HAMMOND.
FRED R. CHARLES.
W. W. ZIMMERMAN.

LOANED HIM MONEY

Mrs. Young Will Show that She Aided the Man Who Tried to Kill Her.

HER DEFENSE TO SUITS

(American News Service)

Chicago, July 23.—That Mrs. Amy Young with her own money put C. W. Rigdon, "on his feet," and enabled him to pull nearly a half million dollars out of mining stocks during the last few months, it was learned today will be one of the strongest points to be made by Mrs. Young in any suits that may be brought for an accounting as between her and C. W. Rigdon's estate. Rigdon, who killed himself after seriously wounding Mrs. Young in the office of John C. Fetzer a week ago, was absolutely "broke," according to Mrs. Young and it was her money that enabled him to recoup.

She declares she will sue for a share in what is left of his estate. This adds another action to the long list of proceedings threatened as a result of the shooting.

Mrs. Young, now believed to be rapidly recovering at St. Luke's hospital, was engaged early today preparing the statement she is to make in the coroner's hearing at the inquest next Thursday.

Eight or nine months ago Rigdon literally "went broke" and borrowed money which Mrs. Young had saved in the hope of recouping his fortune, she says. With this money and with John C. Fetzer as a partner he got in a rising market and in the last six months profited fully \$500,000 mining stocks, only a small part of which has been uncovered.

Mrs. Young says that she was to have shared the profits along with Rigdon, Fetzer and Peters, a member of the firm of Fetzer-Peters company. It was hinted that she would sue the Rigdon estate.

A SAFE AIR CRAFT

Texas Man Claims to Have Solved the Question of Stability Now.

IMPRESSES BIG AVIATORS

San Antonio, Tex., July 23.—If the theories of U. B. Reagan of this city work out correctly, then mankind in a very short time will have an airplane that will be much safer than any of the flyers now in use. Mr. Reagan says that his machine will be as good in practice as it is in theory, and Glenn H. Curtiss and Charles K. Hamilton, the noted aviators, who saw the machine some time ago in its first stages of construction, are also said to be highly impressed with it. In view of the fact that Mr. Reagan is a successful inventor of practical things such as the Reagan round cotton bale, a number of other things, something worth while may be expected from his machine.

The Reagan aeroplane is totally unlike any other known. The principle employed is not related to the flight of birds or even the kite, except the very principle on air be involved. Instead of having a set of monoplane or biplanes extending from each side of a dead center set on and radiating from a common axis. Seen from some distance from the side the machine resembles a dirigible balloon in its outlines. From the front and rear it looks like a wheel with eight spokes, but without any other rim than that furnished by taut piano wires. Suspended from the center of these planes and well below the gravity line is a little platform on which will be mounted the motor. On this also the operator and possible passengers will find room. Steering is effected by means of two rudders, one of them controlling elevation and the other horizontal direction.

The inventor of this machine claims for it one great advantage over all other flying devices. No matter how the wind may blow his machine will maintain its equilibrium while in flight. His arrangements of planes will at all times present to the air currents a uniform surface of resistance, and what is more it will do this without the interference of the operator. The planes being free to revolve will constantly change their position so as to suit the air currents and for this reason the aviator will be able to leave his post at the steering wheel for short periods should his motor or other matters require attention.

Mr. Curtiss, who saw the machine while attending the aviation meet here last April, was greatly impressed with the possibilities of the Reagan principle. He feared, however, that the machine would be a little too heavy for the motors now in use. The machine will be tried out as soon as its motor has arrived.

A NEGRO SUSPECT

IN RAWN MURDER PROVES AN ALIBI

(Continued From Page One.)

lump of lead. The family insisted this was a bullet fired from Mr. Rawn's revolver at a burglar.
Newspaper men for the first time were shown the night gown worn by Rawn when he was slain. They all agreed the garment was powder burned, showing the shot had been fired at close range. Until the widow gave her statement this was accepted as almost conclusive evidence of suicide.
This statement disposed of the doubts concerning the two shots—the circumstances that the two—if there were two shots—came in such quick succession that it was impossible to say whether there were one or two. The second it was suggested might have been mistaken for the echo of the first.

The statement also showed for the first time that there was a terrible but brief struggle on the stairway just before the shot or shots were fired. The intruder apparently was met unexpectedly in the darkness, there was a clash and shots rang out almost simultaneously and Mr. Rawn tumbled headlong to the rug at the foot of the stairs.

This proving to be a fact, the powder marks on Mr. Rawn's shirt and burns on his flesh are explained in harmony with the murder theory.
110 HORSES BURNED
(American News Service)
Newark, N. J., July 23.—Fire in the stables of the L. J. Buckley Contracting company early today resulted in the death of 110 horses. Nearly all were burned to death, though some were so injured that they had to be shot. The stable employees displayed great heroism in attempting to save the animals, rushing into the stable when it was flaming in every part. They succeeded in getting out only forty horses safely.

THEIR PAY BOOSTED

Notice of promotions to post office employees has been received by Postmaster E. M. Haas. Mr. Haas recommended the promotions some time ago. John Lott was increased from \$1,100 to \$1,200; Anna Golden from \$1,000 to \$1,100; Josephine Flemming from \$1,000 to \$1,100; Sallie Moorman from \$900 to \$1,000.

CONDITION IS FAIR

City's Finances Not So Bad as Has Been Painted, McMahon States.

REVENUE IS NOW IN SIGHT

According to City Controller E. G. McMahon, Richmond is not in as bad a financial condition as might be inferred from meetings of the board of works and city council. "We are more than 60,000 under the limit of bonded indebtedness," said the controller today, "and that is a whole lot better than many cities can say." The limit of debt is \$288,000.
Mr. McMahon stated there is over \$8,467 to come in yet this year, not including the October installment of taxes. \$4,267 is yet to be paid in for liquor licenses, \$300 for markets and \$400 is expected from city court fines and other revenues of the police department. The new vehicles license will go into effect September 1 and between \$3,000 and \$4,000 is anticipated from this.

NOTICE TO CONTRACTORS.

Sealed and separate bids will be received by the Board of Wayne County Commissioners up to 11 a. m., August 30, 1910, for furnishing all materials and labor required to construct complete the following buildings and steam heating plant:
Dining Hall, Kitchen and Boiler House at County Farm to be let in one contract.
Heating Plant for heating dining hall, kitchen, woman's building and connecting with present heating plant in men's building to be let in one contract.
All of the above to be built according to plans and specifications made for same by W. S. Kauffman & Son, architects.
Each bid must be prepared on blank forms prescribed by the State Board of Accounts, which may be obtained at the office of the Auditor. Each bid must be accompanied by a good, sufficient and acceptable bond, equal to the amount of the bid, made payable to the State of Indiana, signed by at least two freehold sureties both of whom shall be residents of Wayne county or by properly authorized and qualified Surety Company. Said bond to cover the time limit for completion, December 30, 1910, and the indemnity of \$10 a day for each day beyond December 30, 1910.
Full plans and specifications may be seen at the office of the undersigned auditor of Wayne county; also at the office of the architects.
Dennis S. Coe,
Auditor of Wayne County.
