

You Will
Be Proud
of the appearance
of your stove
if you use
**Black Silk
Stove Polish**

It makes old stoves look like new
and lasts four times as long as any
other shine. Don't imagine all brands
of stove polish are alike. Black Silk
is different. It's so much better than
other stove polishes that there is ab-
solutely no comparison. It's in a
class all by itself.

It makes a brilliant, glossy shine
that appeals to the iron—don't rub
or dust off. Give it a trial. Try it
on your parlor stove—your cook
stove or your gas range. If you do
not find it the best stove polish you
ever used, your dealer is authorized
to refund your money.

Here is what some of the ladies write us:

"I like Black Silk Stove Polish. It
is the best I have ever used.
People say, 'where did you get your
new stove,' and I tell them it's Black
Silk Stove Polish that makes it look
so good."

"I will not use any other kind when
I can get Black Silk Stove Polish. It
is far better than any other polish."

"Black Silk Stove Polish is by far
the best. It looks nice and stays nice
longer than any other polish."

"Black Silk Stove Polish is the best
I have ever used. Several
parties in this neighborhood are an-
xious to get some of your polish since
they saw my stove after using it."

Ask your hardware and stove
dealer for Black Silk Stove Polish
and refuse a counterfeit brand.
Costs no more than the ordinary
kind so why not have the best?

Annual Convention of Ameri-
can Bankers Was Started
at Los Angeles Today.

ADDRESS BY PRESIDENT

(American News Service)
Los Angeles, Cal., Oct. 4.—The Ameri-
can Bankers' association, whose
membership embraces practically the
entire financial fraternity of the United
States, began its thirty sixth an-
nual convention in Los Angeles today.
In point of attendance and in the
importance of the speakers and the
importance of the subjects scheduled
for discussion the meeting promises
to be the most notable in the history
of the association.

Men of finance from every section
of the country and representing every
branch of the banking business, from
the village repository to the billion-
dollar banks, trust companies and sav-
ings institutions of New York, Chicago,
Boston and other great centers,
filled the Auditorium theater when
the convention was formally called to
order at 10 o'clock this morning by
President Lewis F. Pierson of New
York. An invocation by Rev. Robert
J. Burdette was followed by cordial
greetings from Governor Gillette, Mayor
Alexander and W. H. Holliday,
president of the Los Angeles Clearing
House association. The response to
the addresses of welcome was made
by George H. Russell of Detroit.

When the exchange of greetings
was concluded the convention listened
to the annual address of President
Pierson, which touched upon numer-
ous questions of interest and import-
ance to the financial world. The pres-
ident's address was followed by the
annual reports of the several officers
and standing committees, including
those of Secretary Fred E. Farnsworth,
of New York, Treasurer P. C.
Kaufman of Tacoma and William
Livingston of Detroit, chairman of the
executive council. At the afternoon
session the discussion of practical
banking questions was begun. To-
morrow the several sections will hold
their annual meetings, continuing over
Thursday, and on Friday the associa-
tion proper will resume and con-
clude its sessions.

St. Louis, Oct. 4.—The annual

association opened today with a
large number of appeals on the
docket of the Supreme Court for

today. Involved in the various cases
appealed from the Provincial courts

tion.

IS READY FOR JAIL A MEETING OF C. E. COTTON BELT ROAD

(American News Service)
Auburn, N. Y., Oct. 4.—The most im-
portant case to be taken up by the
Federal grand jury which met here to-
day is that of John M. Lowery, pro-
tector of Vice President Sherman and the
self-confessed embezzler of more than
\$100,000 from the vaults of the Utica
City National Bank of which he was
assistant cashier. Following the
disappearance of the fund banks Lowery
fled from Utica and was arrested
nearly a year later in Philadelphia.
Since the early part of last summer
he has been confined in the Utica jail,
refusing the offers of his relatives and
friends to provide bail. Following his
probable indictment Lowery says he
will plead guilty and that his only de-
sire is to begin serving his term as
speedily as possible.

Calais and Its Lighthouse.
Calais is rather an untidy place for
a French town. The Place d'Armes,
where the tower of the Hotel de Ville
has remained since the fifteenth cen-
tury, is the center spot. Here Calais
meets its friends and has its cafe noir.
In the square, towering out of the
roofs of surrounding houses and
dwarfing them is the old watchtower.
Since 1848 it has been superseded as a
lighthouse by the magnificent one at
present in use. Never shall I forget
the effect of this lighthouse as I stood
under it that night. The revolving
spokes of light cast away into dim
space in all directions, looked like the
ribs of a huge umbrella being turned
by the white handle, which was the
lighthouse tower. So tall is this that
its revolving light can be seen from a
distance of twenty miles at sea.—Wide
World.

Young Man! Buy a Good Watch!

Take the advice of successful men
who have carried the same watch for
years, and who say that a good watch
begets habits of punctuality and reg-
ularity, that it requires little attention and
repair, and is always dependable.
It's foolish to waste money on a cheap
watch now, thinking you will buy a
good watch "some day." A reliable
watch is a fortunate investment, which
pays well all through life.

Elgin Watch

G. M. WHEELER MODEL

12 Size

Here is a high-grade watch at a medium price—a watch that is accurate,
strong and handsome—that will be a punctual life companion. In fact, it's
the best medium priced watch we have ever made. You'll be delighted with it.

A thin model, in a variety of stylish cases, built particularly for young men,
and older men of indoor occupation.

Go look it over to-day at the nearest jeweler's! Ask him to show you the
17 Jewels, which protect the pivots from wear, the Compensating Balance,
which automatically adjusts to temperature changes; the Micrometric
Regulator, which can't be accidentally moved. They're mighty interesting—
and mighty important, too! Every watch is cased and regulated at the factory.

Price of Movement Only, \$17.

In Filled Gold Cases, \$30 and up. In Solid Gold Cases, \$80 and up.
