

QUANTITY OF WATER

Used by the New Local High School.

Interesting statistics concerning the amount of water used in Richmond, given out by Howard Dill, of the Richmond City Water Works company Monday morning, showed that a half million gallons are used every month at the new high school building, nearly a fourth of that used by all the rest of the public schools combined.

The reason for the heavy consumption at the new building is from the fact that the water runs continuously from a number of sanitary fountains. Superintendent Mott is investigating the enormous consumption and it is probable that stop cocks will be placed on the fountains.

There is also great waste in Glen Miller, it is said. The board of works has been asked to investigate this waste. Forty thousand gallons were used last month at the park, which is excessive for winter, according to Mr. Dill.

ADDITIONAL SOCIETY

HEINEMANN RECITAL.
Alexander Heinemann, the great German baritone, will visit America for the first time this coming season. For a decade and a half Heinemann has been the favorite of the Berlin public. He is heard oftener in Berlin than any other singer now before the public; his appearances in concerts, recitals and oratorios, numbering at least thirty-five each season. His rare vocal art and his remarkable powers of interpretation have won friends and admirers wherever he has sung. One of the most interesting features of Heinemann's remarkable art and personality is the manner in which he has conquered every non-German speaking country he has visited in his brilliant career. Budapest went wild over him at his first appearance; in London he received a royal welcome, and at his first song recital in Copenhagen he created a furore. Heinemann's appearances in his native city, Berlin, are always looked upon as among the most important of the many brilliant musical events of the German capital, and his interpretation of lieder and ballads never fail to call forth unstinted praise.

His appearances in London, Berlin, Copenhagen, Hamburg, Vienna, Prague, Dessau, etc., marked him as a favorite of the people, his wealth of temperament and warmth of feeling making a strong appeal to their ready sympathies. Accustomed to swaying his audiences by the irresistible magnetism of his voice and delivery, even among more reserved and less spontaneous peoples, his success everywhere was instantaneous and pronounced, and his recurring visits to the different towns have never failed to arouse glowing enthusiasm. Unlike many concertizing artists he has not had to win his way into public favor by slow degrees; his successes everywhere (as already stated above) have been instantaneous.

How easy it is for the great baritone to fulfill the expectations of his audiences is shown by the press notices. The recital will be given here on the evening of February fifteenth.

"COMPLICATION OF DISEASES."

How often one hears this expression. It means a condition in which no one disease fully develops, but symptoms of various disorders are present. Poisoned, impure blood would explain the cause in nine out of ten such cases. It matters not if the blood be poisoned by inoculation, or by the failure of one or more of the important glands of the body to perform their duties, a powerful alternative or blood purifier, is necessary to cleanse it, and in so doing removes the cause. Dr. A. B. Simpson's Vegetable Compound is the most thorough and powerful alternative or blood purifier ever known, a fact which is firmly established, and supported by testimony of hundreds of grateful people. It is harmless as it is effective, and sold at one dollar a bottle at all drug stores.

WILL DISCONTINUE A JAIL PRACTICE

The practice of prisoners at the county jail sentenced for misdemeanors being released on the strength of promises of friends to stand good for

finances has been discontinued by Sheriff Albert Steen. Only in case where the proper authorities issue release papers will this be done. The innovation is not only a stricter compliance with the law but will protect the sheriff from any liability.

Here are the Five Great Coffee Blends —the Right Blend to Suit Each Taste

Choose Yours!

HOW could these different people with widely different tastes like the same blend of coffee? Impossible!

No one blend of coffee can satisfy more than one person in five—a fact established by a careful analysis of the demands of the coffee lovers in America.

Having the largest coffee business in the country, we long ago shouldered the responsibility of

classifying the varying tastes for coffee. After a generation of study, research and experiment our experts are ready for you—you and the four others—each with a personal palate for coffee.

Here are the Five Blends—under the one family name of *Golden Sun Coffee*, each with a distinctive character in flavor and aroma. Pick yours.

Your best cup of coffee is in one of these packages. *Perhaps our low priced Blend will make your ideal cup of coffee.* Price, strength, or method of making is not first in importance. The Blend

is the thing; a certain proportion of this, that and the other coffee berry for *strength, flavor and aroma.*

The point is that we start to make your cup of coffee nearer to nature than any other coffee house ever has. Our control of plantation outputs guarantees *uniformity.*

The expertness of our blenders and roasters, with us for over twenty years, guarantees *flavor to your taste* and our air-tight, hygienic package guarantees *cleanliness, purity and full strength.* We pack all Golden Sun Coffee at the critical moment between too little and too much roasting—it is packed warm and sealed before a bit of the rich, luscious natural oil escapes.

Beware of the stale, dusty coffee kept in open bins and the job-lot, hit-and-miss stuff sold by irresponsible peddlars. These no more compare to Golden Sun Coffee than the pulp of an orange compares to the juice.

Your grocer, if he is experienced and anxious to give you the best service will tell you how true these coffee facts are. He will show you the five different packages and the Golden Sun Table of Tastes so you can select your particular blend and have at last your own kind of coffee dependable every week. Tear out your description and package as a reminder for your coffee order.
