

SALOON LICENSES FIXED BY BOARD

53 Counties Fix Ratio as One
Saloon to Each Thousand
and Population.

Indianapolis, March 22.—Fifty-three of the ninety-two counties of Indiana have limited their saloons to one to each 1,000 of population under the new regulation law according to the reports gathered by the Association of Indiana Brewers.

Twenty-four counties will have a limit of one saloon to 500 inhabitants, some of them allowing the minimum limitation fixed by law to go into effect automatically.

The cities of the state also have taken advantage of the new law, forty-two of them having fixed their city license fee at \$500, the maximum under the statute.

Approve Minimum.
The counties which have limited their saloons to one to each 1,000 population are:

Adams	Lawrence
Bartholomew	Madison
Benton	Marshall
Boone	Miami
Brown	Montgomery
Clinton	Morgan
Crawford	Newton
Daviess	Orange
Decatur	Owen
Dekalb	Perry
Delaware	Pike
Elkhart	Porter
Fulton	Pulaski
Gibson	Putnam
Grant	Randolph
Hamilton	Rush
Hancock	St. Joseph
Hendricks	Scott
Henry	Switzerland
Howard	Tipton
Huntington	Union
Jasper	Wabash
Jay	Wells
Jefferson	White
Jennings	Whitley
Johnson	
Kosciusko	

Adopt 500 Basis.

The following counties will have the 500 limit:

Allen	Lake
Blackford	Laporte
Cass	Martin
Clark	Ohio
Clay	Parke
Dearborn	Posey
Dubois	Ripley
Fayette	Spencer
Fountain	Sullivan
Franklin	Vanderburg
Greene	Warrick
Jackson	Wayne

Shelby and Lagrange Counties have limited the saloon to one to 900; Knox and Noble, one to 800, and Starke County to one to 600.

Cities which have adopted the maximum license fee of \$500 are:

Decatur	Rensselaer
Lebanon	Madison
Brazil	Warsaw
Clinton	Mitchell
Frankfort	Anderson
Washington	Peru
Greensburg	Martinsville
Auburn	Valparaiso
Muncie	Winchester
Connersville	Rushville
Attica	Shelbyville
Covington	Rockport
Tinton	Vevay
Noblesville	Angola
Greenfield	Tripton
New Castle	Wabash
Kokomo	Bloomfield
Huntington	Monticello
Seymour	Logansport
Goshen	Columbia City
Princeton	

Fix Fee at \$300.

The maximum license fee of \$300 has been adopted by these incorporated towns:

New Haven	Lagrange
Fowler	Crownpoint
English	Paoli
Jasper	Petersburg
Bloomfield	Scottsburg
Danville	Knox
Pittsboro	Newport
Brownstown	Greenwood

Interest in the action of county commissioners and city councils in saloon limitation and licensing has been widespread and in all parts of the state their deliberations have been watched closely.

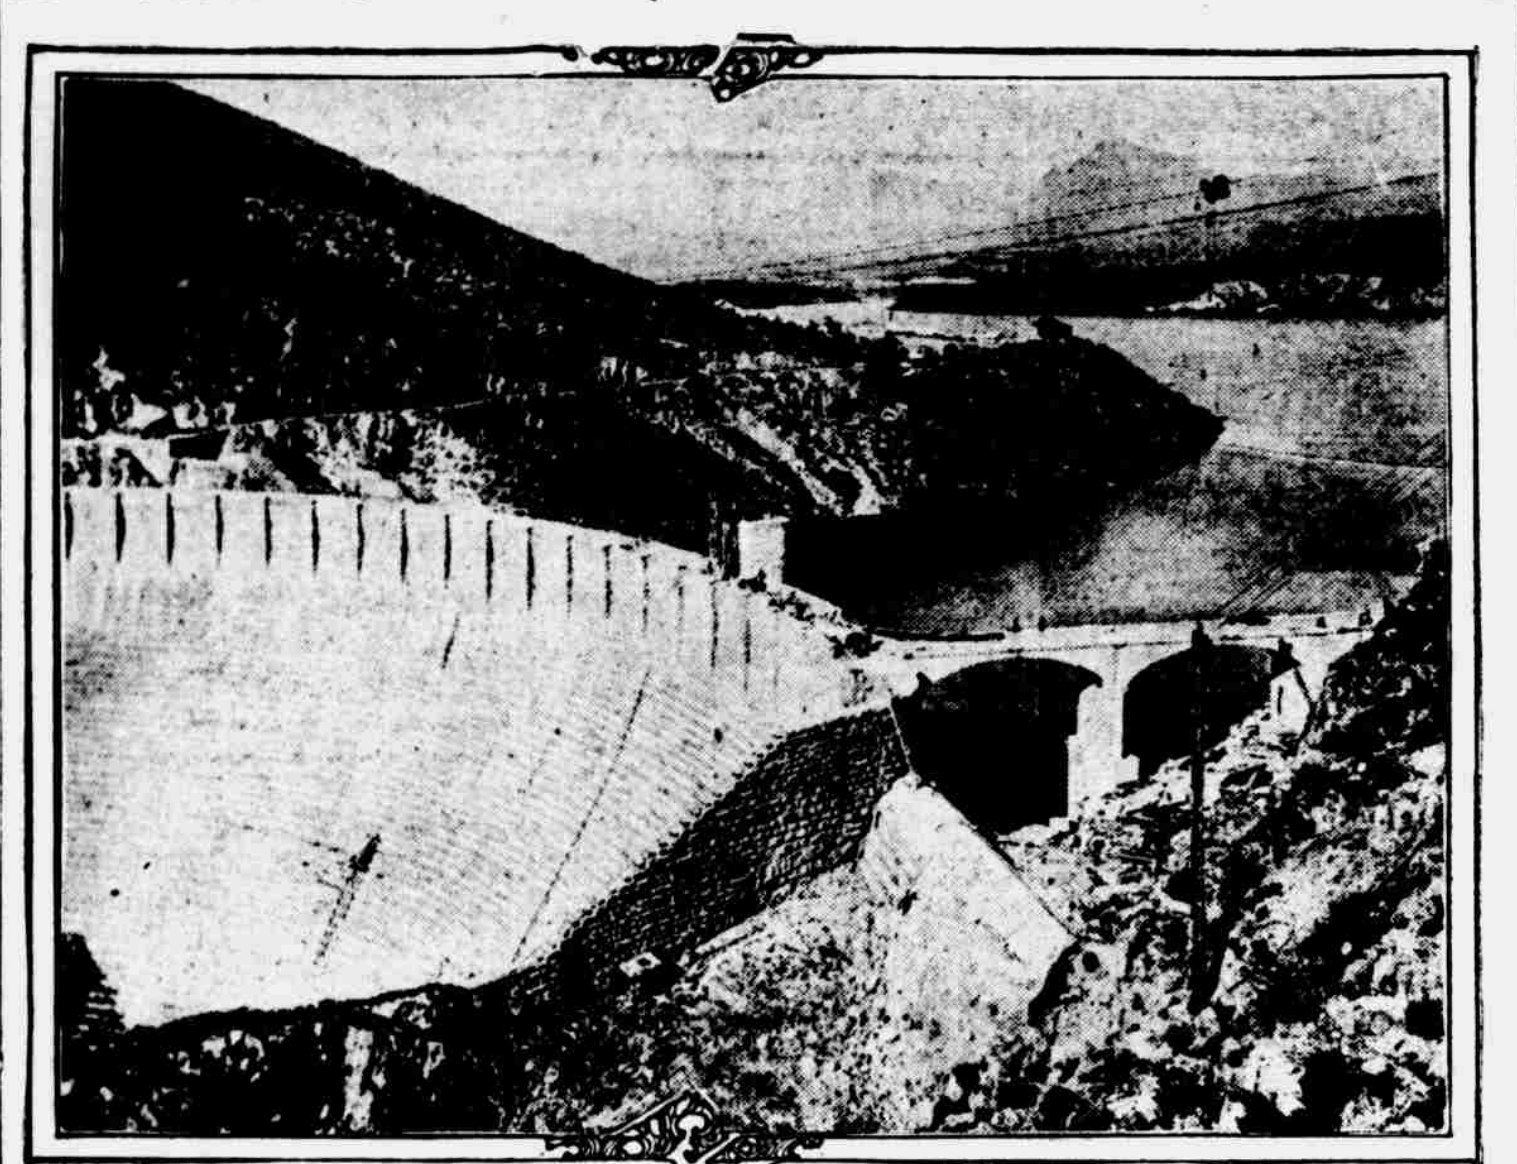

MUCKRIDGE BUYS PROFFITT'S CAFE

Charles E. Muckridge, a well known restaurant man of this city, announced today that he had purchased the Traction restaurant 14 South Eighth street, from Charles Proffitt, and that he would make arrangements at once to conduct a first class eating place. A number of improvements will be made in the building and equipment. White trade alone will be catered to, he said, and only white help employed. Mr. Muckridge was connected with the Twentieth Century restaurant in this city for more than a year and has been engaged in the business at various places for a period of about fifteen years.

RICHMOND SHOWING A BUILDING BOOM

Three times as many building permits have been taken out so far this year than last year. Sixty-five permits, representing investments of \$85,095 in property, have been secured by builders. One large permit, \$12,000 by the Dille and McGuire Lawn Mower works has been taken out, but the remainder of the permits are for residences and for repairs, from \$50 to \$4,000. Most persons taking out permits underrate their properties. The amount for which a building permit is taken has nothing to do with the tax assessed on the property according to McManis.

A View Of The Roosevelt Dam In Arizona

D. G. REID ENTERS FIRE ALARM FIELD

Is Behind International Electric Protection Company, New York.

(Palladium Special)

New York, March 22.—Behind the International Electric Protection company, which is the owner of the Electric Protection company of New York, that has recently entered the fire alarm field and has received a franchise to use the city ducts, is the financial backing of Daniel G. Reid, ("Rock Island") Reid. The offices of the International Electric Protection company are part of the Rock Island company's suite on the eleventh floor of 115 Broadway, and the concern has become more or less of a pet investment of Reid's from a banking point of view. It has entered a new field on the theory that the logical conductors of all signal operations are the telephone companies, and its basic patents cover this point. This is the background of the many special alarm devices in which the company deals.

Organized Last June.

The International company was organized last June with a capital of \$5,000,000—\$1,000,000 preferred and \$4,000,000 common. It is the substantial and holding company, while the Electric Protection company of New York is a subsidiary, incorporated under the transportation laws, in order to obtain franchises. The automatic alarm for which the franchise was obtained consists of improved and more delicate thermostats and a device by which the breakage or cutting of the wires will neither send in a false alarm nor put the apparatus out of commission. The test device in the offices of the company worked today in forty-five seconds from the heat of a newspaper burning in a brazier.

While the franchise granted to the Electric Protection company applies only to interior automatic alarms, it has raised the question, none the less, of the efficiency of the whole fire alarm system of New York, and, combined with the confusion resulting from the alarms turned in in New York for the recent dynamite explosion in Cunniff's, has set those interested in the safety of the city thinking about better protection.

MEN WITH BIG FEET HAVE NORMAL MINDS

Paris, March 22.—That the majority of normal minded men have big feet and most normal minded women small feet is the latest scientific discovery announced to the world by the Paris Academy of Sciences. It comes from Prof. Macauliffe and Marie, who, for several months, have measured the feet of the French people in all walks of life.

The found that eighteen out of every one hundred soldiers were small-footed and only twenty-four of every one hundred weak-minded men big-footed. On the other hand they found that only twenty-three of every one hundred normal women were large footed, while only eighteen of two hundred weak-witted women were small footed.

This is considered to confirm the ancient theory that woman is man's equal, for the reason that she is his exact opposite.

SEES BOTTLED STOMACH AT HOSPITAL

Philadelphia, March 22.—One of the recent callers at the American Stomach hospital here was J. B. Sykes of Cardston, Alberta, Canada, who wanted to take a look at his own stomach. "I hadn't seen it for a year," said Sykes. "It gave me an awful lot of trouble while I had it and I have got along well enough since. I once had a personal interest in my stomach, and I wanted to see it in a glass bottle. If I had kept it would have been dead long ago."

The doctors who removed the organ a year ago gave Sykes one month to live and told him he had about one chance in a hundred of surviving an operation. He took the chance. Now he enjoys three meals a day.

JOB FOR MASHMEYER

Ex-deputy Sheriff Becomes
Weigher of Mails.

Oscar Mashmeyer, former deputy sheriff and a well known resident of Richmond, has received an appointment as weigher of mails on the Richmond-Madison division of the Pennsylvania railroad. It is but a temporary position, to last probably about three months. He assumes his new duties tomorrow.

Every four years, which is the length of time contracts are made with the various railroad systems of the country for the transportation of the mail, the government institutes a system of weighing the amount carried on all lines for the purpose of determining the basis upon which the new contracts shall be made. This work is now in progress all over the country and has been carried on upon the Richmond division of the Pennsylvania railroad for about three weeks. The work usually consumes a period of about four months.

One of the weighers who started the work here was a substitute clerk in the railway mail service and a few days ago he received a permanent appointment in the service. This left a vacancy in the weighing force. As Richmond is the terminal for the Richmond-Madison line a request was made that a man be appointed from this city. J. J. Stanley, of Indianapolis, chief division clerk in the railway mail service in whose department the matter fell, came to Richmond Monday and consulted with Postmaster E. M. Haas with the result that Mr. Mashmeyer was selected for the position.

GIANTS AND PIRATES ARE WORKING HARD

(American News Service)
Marlin, Tex., March 22.—The New York Giants Tuesday started in to improve the last four days of their stay here, by hard practice. Yesterday's game at Austin showed that Mathewson still maintains his old-time speed and form, and is in fine shape for the opening of the season.

PIRATES WORK HARD

Hot Springs, Ark., March 22.—The Pittsburgh team, favored by good weather, is making rapid progress in its training. A game between the regulars and "Yanigans" was won by the latter, notwithstanding that Wagner, Adams and Gibson were in the regular line-up, with Hunter of Kansas City playing first base.

MRS. SCHENK LET OUT ON HEAVY BAIL

(American News Service)
Chicago, March 22.—Mrs. Jessie Schenk, accused of murdering her husband, Charles Schenk, was released on ten thousand dollar bail today.

WILL CONFER WITH EAGLES' COMMITTEE

Three Members of G. A. R.
Executive Committee
Are Selected.

A definite settlement of the Eagles' carnival and the G. A. R. encampment controversy is expected to be effected at a meeting of the Eagles' committee and Lawrence Handley, Will W. Reller, and Charles W. Jordan, representing the executive committee having in charge the encampment arrangements to be held at 7:30 o'clock this evening. Members of the executive committee met in the Commercial club rooms last evening to talk over the matter, but owing to the fact that no information regarding the intentions or plans of the Eagles was obtainable it was impossible to take any action in the matter. The invitation of the Eagles' committee to confer with them this evening was formally presented and the above named three men were chosen to inform the lodge committee why the promise made to the old soldiers should not be broken.

In view of the efforts of the Eagles to bring a representative of the carnival company to the city to determine whether the dates of the show could be changed, members of the G. A. R. executive committee feel that the prospects for an amicable settlement, eliminating any necessity for a change in the present arrangements, are very good.

A report of the result of the meeting with the Eagles' committee will be submitted to the G. A. R. executive committee, as a whole, at a meeting Friday afternoon. If it is found that the carnival dates cannot be changed steps will be taken at that time to present the matter before the officers of the various state organizations with the request that the encampments be held the week of May 7, instead of the following week as is now the plan.

Owing to the refusal of the officers of the Reid Memorial church to allow the meetings of the Women's Relief Corps to be held in the church edifice, the committee is now looking for a suitable place to hold the sessions of this organization. It is probable that the Gennett theater will be secured.

TO BE CLEARED OF LAND FRAUD CHARGE

Muncie, Ind., March 22.—George A. Ball, the millionaire fruit manufacturer, of Muncie, who was indicted last week by a federal grand jury, at Chicago, on the charge of complicity in a conspiracy to defraud the government out of \$10,000,000 worth of coal lands in Alaska, has returned from Chicago, where he appeared before Federal Judge Landis and gave bond in the sum of \$5,000. Mr. Ball insists that if there were frauds in connection with the operations of the syndicate with which he was connected in the exploitation of Alaskan lands, others are to blame, and that he will be able to clear himself without difficulty.

PROSECUTOR LADD MAY CHARGE RIOT

After arraignment Raymond Lamb, Wales Gaston and Virgil Appleton on a charge of assault and battery Prosecutor Ladd, asked to have the cases continued until Saturday. He wants to make a further investigation. The charges of riot may be filed against the men.

HARDWARE MAN SUED BY SINGER

(American News Service)
Vincennes, Ind., March 22.—Edward Beebe, a prominent hardware man, was sued today for ten thousand dollars for breach of promise by Laura Becker, a Chicago opera singer.

"If It's Filled at Conkey's, It's Right."

OLD TEXAS IS SUNK

But Navy Men Are Trying to
Raise Her.

On Board U. S. Torpedo Boat Stringham, Chesapeake Bay, March 22.—Navy wreckers labored throughout the night rehabilitating the battleship San Marcos, which was yesterday riddled like a sieve and today the battleship New Hampshire continued the experimentwork of testing the destructive force of new armor piercing shells.

Temporary repairs were effected to make the old battleship, which as the Texas gained fame for her name and glory for her crew in the battle of Santiago, able to furnish a fitting mark for the gunners of the New Hampshire. The San Marcos sits up on the bottom but is down only two feet as she was anchored on a shoal.

If the plans of Rear Admiral Schroeder, commander-in-chief of the Atlantic fleet, carry, the experimental firing will be concluded this afternoon. The fleet will immediately steam into Hampton Roads and make ready for the general target practice which begins on April 1 off the Virginia capes.

WENT FOR CHANGE; FAILED TO RETURN

Mrs. Anna D. Cain, 302 North Fifteenth street, handed Foster Webster, a negro boy, 13 years old, and two of his friends a dollar, for payment on some work they did for her. The boys were to return 75 cents change, which was to be secured at a nearby grocery. "You just bring me the change right away," said Mrs. Cain. "All right, we will, like—!" cried the little pickaninnies as they scooted out of the yard. The boys have not been seen since. The matter was reported to the police by Mrs. Cain.

New Discovery

Leo H. Fihe Secures the Agency for
Begy's Mustarine in Richmond.

People who know the value of the good old mustard plaster for pains in any part of the body, will be glad to know of the new discovery called Mustarine.

One 25 cent box of Begy's Mustarine will relieve more pain than forty dirty mustard plasters.

Just rub it on, that's all, you don't have to make a plaster; it's all so simple and so easy, that no one will again be bothered with the old disagreeable mustard plasters.

If you catch cold, have pains in the chest or back, just rub on Begy's Mustarine and the pain will vanish without abnormal heat and without blistering.

Drives away headache, toothache, earache in a few minutes, chases away the pains of bronchitis, pleurisy, incipient pneumonia and deep-seated coughs.

It's very clean and nice to use, and is always ready. Try a 25 cent box. Sold on money back plan by Leo H. Fihe. Mail orders filled by J. A. Begy Co., Rochester, N. Y.

BOY OF FOURTEEN KILLED BY AUTO

(American News Service)
Noblesville, Ind., March 22.—Raymond Hines, aged 14, member of a prominent family, is dead. He was run over by an automobile driven by Charles Sowerwine, a merchant.

VOTES OF WOMEN FELT IN ELECTION

(American News Service)
Tacoma, Wash., March 22.—The anti-treating ordinance was victorious in yesterday's election. Women cast one-third of the votes.

TAFT AND JAPAN'S AMBASSADOR CONFER

(American News Service)
Washington, March 22.—President Taft had a long conference this afternoon with Baron Uchida, Japanese Ambassador. The Mexican situation was explained.

ACCUSER OF NEGRO IS NOT MRS. ULRICH

(American News Service)
Orange, N. J., March 22.—Mrs. Ulrich, 124 Essex Ave., today declared that Albert Ulrich is her lawful husband. She will prosecute him for non-support. She says Booker T. Washington's accuser is really Laura Page.

A Spanish Custom.
It is customary throughout Spain for the waiters of cafes to fill a glass of wine or liquor so that it overflows upon the saucer. This custom, in which it is desired to show an appearance of liberality, is called "the foot bath."

GOOD BLOOD.

Given good, clean, healthy blood, Nature will do the rest with any case of catarrh, inflammatory rheumatism, scrofula, eczema, erysipelas, boils, pimples, scrofula, or skin disease of any kind. Good blood invariably means vigorous appetite, good digestion and strength.

Thus it stands to reason that an effective "alternative" or blood purifier, while it will not cure all diseases, will help in fighting any disease and will cure those mentioned above, all of which comes from bad blood.

Forty years ago Dr. A. B. Simpson, of Richmond, was known as one of the most successful physicians in three states. His success was founded almost exclusively on one prescription, the most powerful blood purifier ever known. After his death this prescription was regularly put up as Dr. A. B. Simpson's Vegetable Compound.

It has been used extensively all over the country and in forty years has never failed, even in that most dreadful of all blood diseases, syphilis, in its worst stage. And when an alternative will do that, it, of course cleans and rebuilds blood affected with other troubles. Simpson's Vegetable Compound is purely vegetable and as harmless as it is effective. It is sold at \$1 per bottle at all drug stores.
