RICHMOND, INDIANA "PANIC PROOF CITY"

Has a population of 23,000 and is growing. It is the county seat of Wayne County, and the trading center of a rich agricultural community.

Richmond is a city of homes and of industry. It is also the manufacturing center of Eastern Indiana and enjoys the retail trade of the populous community for miles around.

Richmond is proud of its splendid streets, well kept yards, its cement sidewalks and beautiful shade trees.

There are five railroad companies radiating in eight different directions from the city. Incoming freight is handled daily.

The city's area is 2,640 acres; has a court house costing \$500,000; 10 public schools and has the finest and most complete high school in the middle west.

Richmond has two interurban railroads. Three newspapers with combined circulation of 12,000.

Richmond is the greatest hardware jobbing center in the state and only second in general jobbing interests.

President Diaz's Message.

The message of President Diaz will seem to the average American a somewhat gingerly and spritless utterance not calculated to quench the flames of armed rebellion.

But Mexican official phraseology is not like ours, and it may be possible for the Mexicans to read into it more of reliable assurance than we can.

"The change of ministry just effected," says the message, "aims, for example, at satisfying in practice one general aspiration, which is that the political personnel be renovated from time to time."

A "firm purpose to give heed to reasonable complaints against some of the authorities" is announced. The fact that such an assurance is needed throws a bright light on conditions.

These are the chief points of the message. Whether it will be accepted by Mexican liberal opinion probably depends upon the ability of the new cabinet to impress the nation with its authority and its will to begin something in the nature of a genuine republican form of government.

Let's Co-operate!

"A quarrel over a mere matter of a newspaper's own subscription lists \* \* \* is utterly unworthy and should only be undertaken in self-defense."

The measures of self-defense adopted by the Palladium were to invite the management of the Item to make an investigation of this paper's circulation, promising to furnish all records and afford every opportunity to aid in the work.

To the present moment the Item, which seems to have developed a well defined yellow streak in the past year or two, has not seen fit to accept either proposition.

Right now, even though that paper has degenerated into a traducer of another paper's circulation the Palladium is willing to co-operate with the Item in a joint circulation investigation.

If the Item hesitates much longer in doing its share in furthering a joint circulation investigation for the benefit of our advertisers, it will become increasingly apparent that fear of an unworthy result is occasioning its timidity.

WHAT OTHERS SAY

JAPAN AND AMERICA. From the Chicago News. Mr. Taft put the lid on the Japanese war scare, but the morbid will continue to try to peep under.

The Japanese war scare in connection with the Texas maneuver has been pursued to its lair.

The flimsy rumors of Japanese war-like plottings and schemings are made of.

Japan has abundant warning from our experience not to attempt any maneuvers of this kind.

It will be mighty mean of Japan if she neglects to declare war against the United States until the opening of the baseball season.

Mr. Hobson is exercising more self-restraint than usual this spring, though he's still jingling some.

President Taft and the mikado say there is no danger of war between their two countries, and they ought to know what they are talking about.

Well, if Russia goes to war with China there will be plenty of room to fight it out, and plenty of targets as long as the powder hangs out.

In no other respect has China been so diligently getting into occidental training as in the matter of military organization.

So long as Russia confines itself to diplomacy the heathen China can continue, with a smile that is childlike and bland, to meet bluff with procrastination.

"Wars and rumors of wars" is the way the prophecy reads, and we are certainly getting our fill of the rumors.

Stricken with plague, famine and other ills, China's concession of the Russian demand is not surprising.

The reported yielding of China to the demands of Russia probably removes the not very serious menace of war which has existed in Mongolia and Manchuria.

In addition to the plague and the famine, China seems to be suffering also from Russian ultimatumitis.

"I haven't seen your cashier for several days past."

"No; he's gone out of town."

"Ah! Gone for a rest, eh?"

"We haven't found out yet whether he's gone for a rest or to escape it."

TAKE A REST. If women would take a few minutes' rest every once in a while during the day they could get lots more work done.

RIVERS OF ALASKA. The Waterway Wonders of This Immense Territory. Were the rivers not navigable there would be little done in the interior of Alaska today.

The Yukon is very shallow at its mouth, which is about seventy miles in width across its delta. There are places 400 miles from the mouth of the river where the biggest Atlantic liners could navigate with ease.

The Kuskokwim, a sister stream, has been navigated only on the lower reaches, but with its navigable branches is believed to have 1,000 miles of navigable water.

But with all its wealth of gold, its unhealed call to toilers of the soil, its mountains studded with gems of richness—the lodes of veins of copper and other materials—this empire starves for the one thing that would make it thrive.—Collier's.

ORATION ON PEACE

Delivered at Earlham by Hugh Jenkins Today.

This morning in the college chapel the Earlham student body listened to the oration of its representative in the state Peace Contest.

Last year there were nine Indiana colleges represented in the contest, and Prof. E. P. Trueblood reports that the full quota will be represented this year by capable men.

"Dr. Miles' Nervine Completely Cured Our Little Boy of Fits."

A family can suffer no greater affliction than to have a child subject to fits or epilepsy.

"I am heartily glad to tell you of our little boy who was completely cured of fits. He commenced having them at 10 years of age and had them for four years.

Dr. Miles' Nervine and Liver Pills made a complete cure. He is now hale, hearty and gay. It has been three years since he had the last spell.

I shall give Dr. Miles' medicines praise wherever I go. You are at liberty to use this letter as you see fit and anyone writing to me I will gladly answer if they enclose stamp for reply."

F. M. BOGUE, Windfall, Ind.

Dr. Miles' Nervine is just what it is represented to be, a medicine compounded especially for nervous diseases.

It is a Bible name, sir; you'll find it in the last chapter of the book of Numbers.
