

EUGENE DUFALL IS MODERN HUCK FINN

Self-confessed Youthful Burglar Had a Happy-Go-lucky Career.

Another Huck Finn is Eugene Dufall, 17 years old, arrested yesterday at Losantville, by Patrolman Vogel, and in jail charged with robbing the Quigley drug store at Fort Wayne avenue and Main streets. Dufall has confessed to Superintendent Gorman of the police department, and will be returned to the Plainfield reform school, from which institution he was paroled over a year ago.

Dufall, who is believed to have Indian blood in his veins, admitted he pulled open a shutter of the drug store, and after getting in, stole \$3 from the cash drawer. Then he went to Williamburg, and afterward to Losantville. Dufall said he did the job alone.

Three years ago the youngster was sent to the reform school because he would not go to school, and because his mother could not manage him. He slept out in the night, like Tom Sawyer's chum, buried dead black cats in the dark of the moon at cross roads, to cure warts and was the envy of his playfellows who had to brush their teeth and use handkerchiefs.

At reform school, however, he was a model youth. As a girl in a theatrical production given by the inmates of Plainfield school, he starred. The audience, it is said, refused to believe he was not a girl until his wig was taken off.

The boy says it does a fellow more harm than good to go through the Plainfield reform school. He claims the boys are beaten with straps until blue welts raise on their backs.

ADDITIONAL SOCIETY

TO GIVE RECITAL.
Mr. J. Louis Shenk will give a recital in this city Wednesday evening, April the nineteenth, assisted by Mrs. Ethel Martin Funkhouser, pianist. The affair will be held in the Pythian temple and is under the direction of Isaac C. Kennedy and management of Fred H. Crowe.

—Group I—
The program opens with Handel's famous Recit. and Aria, "I Feel the Ditty Within." "Arm, Arm Ye Brave," from Judas Maccabaeus. "Droop Not, Young Lover," by the same composer, follows and two songs by Robert Burns—"Scots, Wha Hae We!" Wallace Bled. "Ye Banks and Braes O' Bonnie Doon." The latter is probably unmatched for lyric beauty.

—Group II—
"Gerang Weyla's" and "Fussreise" (A Morning Journey) by Hugo Wolf. "Viel Traume" (Many Dreams) and "Totengraeberlied" (The Gravedigger's Song) by Christian Sinding. The poem of the latter by Heolty, depicts the busy gravedigger who thanks his spade for all his hardships, and remarks with elation, how all must come to him, regardless of rank or position in life.

This group will be sung in German. The English texts will be printed in full in the program.

—Group III—
"Day is Gone," a beautiful little evening song, by Margaret Ruthven Lang. Edward A. MacDowell's "A Maid Sings Light," and "The Sea," and "Annabel Lee," by Archie A. Mumma. Mr. Mumma has been exceedingly fortunate in his conception of a musical setting for this wonder-

ful ballad, by Edgar Allan Poe. The music is thoroughly graphic, maintaining the spirit and depth of the text throughout in a remarkable manner. "Annabel Lee" has been dedicated to the memory of Poe, by the composer.

—Group IV—
Two ballads, "Archibald Douglas" and "Erlkonig," by Carl Loewe. Archibald Douglas was exiled because of the Douglas Feud. After seven years of this life he meets the king, and after an ardent plea is permitted to return with the king as his (the king's) guard. The poem by Fontane, is self explanatory. The story of "Erlkonig" is familiar to every one.

—Group V—
Three love songs, "Now Sleeps the Crispin Petal," by Roger Quilter; "Were I a Prince Egyptian" by George W. Charwick, and "For Thee," by J. Rosamond Johnson.

The care with which this program has been conducted is at once obvious, embodying as it does practically every phase of human emotion.

Mr. Shenk is recognized as a mature artist by several of the world's most renowned musical masters with whom he has studied, and in recitals where Mr. Shenk has appeared he has been enthusiastically received.

Mr. Shenk possesses a voice of rich quality, wonderful temperament and gracious personality.

Mr. Alexander Heinemann, Germany's great teacher and baritone singer, recently heard in this city, personally acknowledges Mr. Shenk as one of his favorite pupils and heartily commends him as a very talented artist.

A GUEST HERE
Mrs. E. Howe Ball, of Indianapolis, is the guest of Mrs. Gertrude Horsemann at her home in North Ninth street.

GUEST DAY
Geist day was observed Wednesday afternoon by the members of the Friends Missionary society. The meeting was held with Mrs. Furnas of Earlham college. There are about one hundred members and as each person was permitted to invite a guest the meeting was quite a large one. Miss Lydia Pike a returned missionary was the principal speaker for the afternoon. Music was furnished by several persons from the college. After the program a social hour followed. Tea was served. The meeting was much enjoyed by the guests.

MEETS SATURDAY
The Daughters of the American Revolution will meet Saturday afternoon with Mrs. E. B. Grosvenor at her home on the National Road, west. The hostess will be assisted by Miss Edith Moore in extending hospitalities.

HOME FROM KENYON
Mr. Philip Starr is home from Kenyon college, Gambier, Ohio, and will spend the Easter vacation here the guest of his parents, Mr. and Mrs. W. F. Starr, of North Tenth street.

You can get ice cream novelties for Easter at Price's, such as hens, turkeys, rabbits, lilies, roses and Mums. 12-14

RUN DOWN BY AUTO ASKS BIG DAMAGES

The trial of the case of A. J. Neff against Perry Moss, a large landowner, and retired farmer, for \$10,000 damages for personal injuries sustained July 4, last year, will start in the Wayne circuit court on April 18. This is quite positive, although the date for trial has been changed frequently, heretofore. Neff is a cobbler. He was struck by the Moss machine at Eighth and Main streets as he was alighting from a street car.

GREAT FARM NEED IS CHOLERA SERUM

Problem Now Is to Meet the Great Demand for the Preventive Remedy.

Lafayette, Ind., April 13.—As shown in a report issued by Dr. R. A. Craig, chief veterinarian at Purdue university, of the work done in the last year by the Purdue experiment station in fighting hog cholera in Indiana, remarkable advancement has been made. The death rate figured from returns received from forty two herds of 2,116 hogs was reduced to 3.3 per cent, this including herds which were infected with hog cholera before they were vaccinated.

The work of the veterinary department for the year was confined largely to the production of hog cholera serum, and to the improvement of the methods now employed in its production. The problem now, infighting hog cholera in Indiana, is not what methods to pursue, but how to get enough cholera serum to meet the great demand for the preventive remedy.

Production of Serum.
Purdue university's veterinary laboratory produced in the year 400,000 c. c. of hog cholera serum. The average dose of serum used in the treatment of the sick, and the vaccination of the exposed hogs was forty c. c. The number of hogs treated in the year was about ten thousand. The average cost to the stockman was 60 cents a hog. Of the ten thousand hogs treated, returns have been received from the owners of forty-two herds that were vaccinated by the serum—simultaneous method. The following table is a summary of these reports:

No. herds.	No. hogs	No. died	
17	732	0	
6	419	7	
7	221	12	
5	342	15	
3	166	12	
4	236	24	
Total	42	1,116	70

To Cheapen Production of Serum

In order to cheapen the production of serum experimental work was carried on at Purdue. To increase the quantity of virulent material that may be obtained from a virulent blood hog, from 1,500 c. c. to 3,000 c. c. of a normal salt solution were injected into the abdominal cavity of the hogs used in the work. The injection was made in the work. The injections were made two hours before the cholera hogs were bled, and as soon as the animals died the virulent normal salt solution was removed. Eleven hyper-immune hogs were injected with the virulent normal salt solution, and all produced potent serum. The virulent blood hogs used in this work weighed about one hundred pounds, and on post-mortem examination showed marked cholera lesions. This line of experimental work is being continued to determine the largest quantity of normal salt solution that may be successfully used.

25,000 Hogs Have Been Treated

In connection with the progress of the hog cholera investigations and the production of the valuable serum at Purdue, much has been accomplished in other ways. On a five-acre tract, a small laboratory building has been erected to provide the necessary facilities for the production of the serum, and for the handling of the research work accompanying it.

The station has treated, in all, more than 25,000 hogs in Indiana. The success of the treatment has been remarkable. The discovery that a salt solution can be injected into the abdomen of a hog affected with cholera, and be substituted for virulent blood in the preparation of a hyper-immune hog, has cheapened the treatment fully one-third. This is regarded as the most important discovery since the present method of treating hog cholera was first proposed.

ALBERT IS HONORED

Former Local Man Dean of Capital Correspondents.

Charles S. Albert who has just been elected chairman of the committee of Washington newspaper correspondents in charge of the press galleries in the national capitol, is a former Richmond man who has risen rapidly in the ranks of the newspaper profession until he is one of the recognized leaders among the "big" writers in Washington. He is in charge of the New York World's bureau and has been for some time.

The Washington newspapers, including the Post, Star, Herald and Times, in commenting on the choice of the newspaper correspondents, speak in special praise of Mr. Albert. Richmond people remember Charley Albert best when he was connected with the Western Union telegraph office as an operator. He was a "star" in his profession of that day as he is in the newspaper field and his popularity in Richmond was pronounced. Strange to say he did not get even a glimpse into the newspaper business until he left Indiana for bigger fields, but for many years he has been regarded as one of the bright and shining lights on the World's formidable staff. That his popularity among the press men in Washington is very marked may be indicated by his choice as chairman of the press galleries committee. In a letter to Charles Blair, Mr. Albert says that the honor conferred on him by his associates in Washington is one he appreciates more than any past achievement.

THE LATE DR. JOSHUA EMMONS, OF THIS CITY.

Whose Lung and Throat Remedy and Tissue Builder, the great flesh and strength making Tonic will be sold all over the United States by a Fifty Thousand Dollar Indianapolis corporation, with Dispensaries at Indianapolis, Richmond and New York. The Dispensary in Richmond is located in the Comstock Block, east of the Westcott Hotel.

REBELS HOLD WOMEN

Americans Are Captives—Sec'y Knox Notified.

San Diego, Cal., April 13.—Mexican rebels are holding a number of American women and children captive in a stockade at Alamo, Lower California, it became known here yesterday. The prisoners are said to be at the mercy of their captors and to have suffered insults and indignities. A protest has been made to Secretary of State Knox and Senator Perkins, chairman of the Senate committee on naval affairs, has been advised of conditions.

Among those held captive are G. Raffi, his wife and five children, of San Diego. The names of the others have not been disclosed. The appeal to Secretary Knox was made by O. Henry Savage of this city, a relative of Mrs. Raffi.

News of the conditions of the prisoners at Alamo was brought to Ensenada last week, Savage said, and the matter was reported to George B. Schmucker, United States consul, as well as to Governor Celso Vega of Lower California. Savage charged that Vega did not send relief and that Schmucker ignored the complaint.

Fearing for the welfare of the prisoners in the hands of the rebels, who are said to be commanded by Simon Berthold, Savage wired Secretary Knox as follows:

"Members of my family and other American women and children held at Alamo, Mexico, by rebels. Unable to obtain food or relief. Wires to Ensenada are down. Reliably informed that Mexican governor of lower California declines relief. Will you order warship to Ensenada to rescue?"

The following telegram was received by Mr. Savage:

"The ambassador at Mexico City has been instructed by telegram to request the Mexican government to extend protection to the American citizens mentioned in your telegram and the American consul at Ensenada has been instructed by telegram to investigate and report and to ask the governor for needed protection for these people. Philander C. Knox."

IMPOSING LEGAL ARRAY FOR CASE

Cranor's Fight to Set Aside Guardianship Started Today.

With about a hundred witnesses from the northern part of the county in court, the trial of the petition of attorneys for Martin Cranor, an aged bachelor and large land owner of Perry and Green townships, to set aside the appointment of John M. Manning as guardian, began in the circuit court Thursday and likely will consume two or more days. The appointment of Mr. Manning as guardian was made about six weeks ago on petition of local relatives of the ward, John F. Robbins is representing the guardian and former appellate judge, D. W. Comstock and Paul Comstock, Henry U. Johnson and T. J. Study represent parties seeking to have the appointment annulled.

Shortly after assuming charge of the estate Manning filed suit as guardian to cancel a deed to about eighty acres of land in Perry township which Cranor had conveyed to John Franklin and wife. This property was conveyed over a year or so ago but did not become known as the deed was not recorded until last winter. This action is said to have been one of the reasons for placing Cranor under guardianship.

Those contesting the appointment of a guardian do so on the ground that

the proceedings of appointment was not according to law and that Cranor's mind is not impaired to the extent that his business sagacity is affected.

COURT SUSTAINED MOTION ENTERED

Motion to strike out portions of the complaint of Ellsworth Reichard against the Rev. Thomas M. Guild of this city, presiding elder of the Richmond district of the North M. E. conference, demand \$500 for breach of contract, was made by the council for the defendant on Thursday and sustained by Judge Fox of the circuit court. The Rev. Guild owns a farm near Huntington, Ind., and the complainant had charge of clearing up underbrush in the wood lot. He averred that his contract with the Rev. Guild had been violated by the latter in permitting some one else to also engage in cleaning up the wood lot.

We Have All the Watch Arguments

Because we have all the watches that you people have learned to depend upon, such as

The Waltham Watch
The Elgin Watch
The Howard Watch

No one need look beyond these makes for any watch virtue that is. In these makes you get long service, unflinching accuracy, neatness of design, and the largest possible sort of value for your money.

If you are going to put your money into a watch study well first. You will miss it if you do not let us show you our line and help you make the selection.

TUBERCULOSIS YIELDING TO SCIENCE

The New Discovery

For years people have tried to cure Consumption, Lung and Throat diseases through the stomach, and have failed. It fell to Dr. Joshua Emmons to discover a remedy for these dread diseases. He compounded a healing liniment and perfected a unique instrument for the application of same direct to the throat and lungs.

The process is simple. A sore anywhere may be healed with an anti-septic liniment, if the sore can be reached. Dr. Emmons found the way to apply it in the lungs and perfected an apparatus that would treat the lungs with a lung liniment that possesses the necessary curative powers. You breathe the soothing, medicated, oily vapors from the liniment into the lungs, starting a healing condition at once. It was not long before Dr. Emmons achieved a fame extending over several states for his remarkable cures of lung and throat diseases. Many of his patients who have tried climatic changes, open air living and other methods in vain, were promptly and completely cured. The relief is almost immediate.

The world is glad to know that Tuberculosis is now conceded to be a curable disease, if not overlooked or neglected till the last stages.

This wonderful remedy is now being sent to all parts of the country by a fifty thousand dollar corporation, and is sold with a positive money back guarantee at a price within the reach of all.

Don't hesitate or delay if you have any of the symptoms of consumption. If you have chronic catarrh, bronchitis, asthma, pains in your chest, a cold on your lungs, or any throat or lung trouble, cure yourself before it is too late.

If you are unable to call at our Dispensary, write at once, and we will send enough of the Lung Liniment to last two months, and the glass and rubbed instrument for using same for \$5.00, express paid; a positive money back guarantee enclosed in every package. The Dr. Emmons Throat and Lung Healer Co., Richmond, Indiana.

GARDEN SEEDS

In Packages and Bulk

The Celebrated Southern Seed Co.'s Brand. The Kind that Truck Gardeners Like. Highly Cultivated and Developed Vegetables. The Quick Growing Money Makers. Bringing the Highest Market Prices. The Best Seed are the Cheapest. Labor and Cost of Production the same. Why not have the Biggest Returns?
