

## BISHOP HUGHES TO DEDICATE CHURCH

First M. E. Church of Cambridge City to Be Formally Opened Sunday.

(Palladium Special)

Cambridge City, May 11.—The First Methodist church of this place, which was recently completed will be dedicated on Sunday. Bishop Edwin Holt Hughes, of San Francisco, formerly president of De Pauw university, will deliver the dedicatory address and deliver the dedicatory sermon. Several other Methodist dignitaries will be here to assist in the exercises including the Rev. T. M. Guild of Richmond, superintendent of the Richmond district of the North Indiana M. E. conference and the Rev. C. F. Coffin, of Indianapolis.

It is expected there will be a large number of visitors, particularly from Richmond and other nearby points. The old church building was torn down and replaced by the new structure which is one of the finest in the county and the pride of the congregation. The program for the dedicatory exercises is as follows:

**SUNDAY MORNING, MAY 14TH.**  
Public Worship At 9:00 O'clock.  
Love Feast, led by Rev. Lacy Organ.  
Hymn—No. 770.  
Apostles Creed.  
Prayer—Rev. W. D. Parr, S. T. D.  
Concluded with Lord's Prayer repeated audibly by all.

Anthem.  
New Testament Lesson (I Cor. 3:1-23).  
Rev. T. M. Guild, District Supt.  
Offertory.  
Announcements by the Pastor.  
Duet—"Hark, Hark, My Soul!"  
Mrs. F. A. and Miss Louise Jones.  
Dedicatory Sermon—Bishop Edwin Holt Hughes, San Francisco, Cal.  
Dedicatory Offering.  
Dedication of the Church.

..... Bishop Hughes.  
Doxology.  
Benediction.  
Organ Postlude.

**DEDICATION DAY.**  
Sunday School Rally at 2:30 P. M.  
Organ Prelude.

Duet—Harry Diffenderfer and Herman Barnett.  
Hymn—"Come Thou Almighty King"—No. 6.  
Scripture Reading—Dr. T. M. Guild.  
Hymn—"I Love to Tell the Story"—No. 756.

Prayer—Dr. George Hill.  
Offertory—Organ.  
Solo—"Fearless I'll Follow."  
Miss Blanche Boyd.  
Address—"The Mission of the Sunday School"—C. F. Coffin, of Indianapolis.  
Hymn—"Stand Up, Stand Up For Jesus"—No. 567.  
Prayer and Benediction.  
..... Bishop Hughes.  
Organ Postlude.

**SUNDAY EVENING.**  
9:00 O'clock.

Organ Prelude.  
Hymn—"Come Thou Fount of Every Blessing."  
Prayer.  
Anthem.  
Lesson from the New Testament—Rev. Lacy Organ.  
Announcements by the Pastor.  
Offertory—Organ.  
Solo—"Song of Triumph."  
Mrs. Dr. Harris.  
Sermon—Bishop Hughes.  
Doxology.  
Benediction.  
Organ Postlude.

## R. H. S. CLUBS WILL PRESENT TWO PLAYS

On May 19, there will be two plays presented in the chapel, one by the girls' pedestrian club and the other by the college club, the proceeds of which will go to the fund started to help students through school and college. Cornelia Shaw, Meta Paffin, Bertha Waltermann, Wanda Johnson, Celma Gehr, and Emily Fletcher will present the "Pedestrian's Pal," which is a story of a girl's boarding school and the college club's play, "Wanted—A Confidential Clerk," will be presented by Wallace Gifford, Roland Nusbaum, Edwin Flook, Clark Meyers and Howard Messick.

## OBITUARY

Ina Florence Manning, daughter of Thomas R. and Letta Manning. She was born near Spartansburg, September 28, 1893, and died May 8, at 9:15 p. m., age 18 years, 7 months and 20 days. When a child of 10 she moved with her parents to Richmond, where she lived until the time of her death. She leaves to mourn her loss, father, mother, three brothers, Ira, Ross and Mort Manning, and wife and babe of Spartansburg, and aged grandmother, Mrs. Jane Manning, four aunts, three uncles and a number of cousins and friends, for she made friends wherever she went. To know her was to love her. Through all her suffering she always had a smile for every one. She has been a sufferer for four long years, but bore it with a Christian faith and longed and prayed for the time when the Blessed Master would say "Come home where there is no more suffering or pain." She joined the Christian church of Spartansburg, Ind., April 21, 1906, and was baptized by O. M. Farria, and has lived an obedient child of God.

Those who remain to mourn her loss wish to thank her many friends for the beautiful floral offerings and kind remembrance.

Attend the dance at Coliseum, Saturday evening. Programs, 9 o'clock. Music by Prof. Hicks' full orchestra.

## NEW GUINEA PYGMIES.

The Spear and Bow and Poisoned Arrows Their Chief Weapons.

Our knowledge of the pygmies of New Guinea shows that in habit they are nomadic, nowhere tilling the ground, but depending for their living entirely on their skill in hunting and fishing. Their chief weapon is the bow, their arrows being generally poisoned either with the famous upas or some other similar vegetable poison, in some cases a species of strychnine. They also make use of the spear and an ingenious form of spring gun which is common to numerous other forest tribes. This is formed by setting a flattened bamboo spear attached to a bent sapling, which is fastened to a trigger in such a way that it is released by the passerby stumbling against an invisible string stretched across a game track. These spears are really set for game, and to the initiated they are obvious enough, as their presence is always indicated by certain well known signs, such as a broken off twig placed in a cleft stick. In war these signs are removed, the removal being equivalent to the moving of buoys in a mined channel. The wounds inflicted by these hardened bamboo spears are necessarily serious. The mental qualities of the Negritos are extremely undeveloped, none of them being able to express a higher numerical idea than three, but all observers who have met them unite in saying that they are a merry little people, with great ideas of hospitality when their confidence has been gained and provided they have not been previously ill treated. They are not cannibals and are generally monogamous. —London Times.

## LIGHTNING FLASHES.

Many Things Concerning Them That Science Cannot Fathom.

A young girl in charge of two children, sheltering under a tree on Chisholm common, was struck by lightning and killed—one of those dreadful instances of the sort of personal touch with which lightning seems to select its victims, for though one child is reported to have been thrown down, neither apparently was injured. There are many instances, of course, of this strange selection, due in most cases probably to some accident of clothing. There is a well remembered case which happened some years ago at Cambridge, when three young men were walking across an open space of ground, and the middle one of the three was struck dead, while the others were untouched. The inquest showed that the young man who was killed had nails in his boots, whereas the others were wearing boating shoes. The phenomena of thunderstorms have been the subject of much study in America. But if thunderstorms can be classified, they are still not thoroughly understood. We do not yet know what are the exact conditions which lead to a discharge of electricity in the form of a lightning flash from cloud to cloud or from cloud to earth. We cannot reproduce thunder and lightning in a laboratory. We do not know what is the origin of the electrification manifested in a storm. —London Spectator.

**Acute Sense of Hearing.**  
Camille—Clarence isn't so diffident when he talks to you through the phone, is he? Estelle—Isn't he? Even through the phone I can hear his heart flutter.—Exchange.

Gray horses are the longest lived; cream colored ones the most easily affected by changes in temperature.

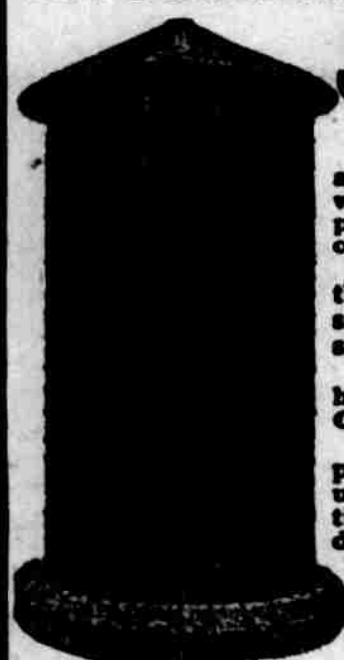

## SPECIAL AT 47c—AMERICAN CUT GLASS TUMBLERS

Don't miss this opportunity of getting a genuine bargain. The regular price on these tumblers is 75c, but will sell while they last at 47c. See west window.

## G-A-R DECORATIONS NICHOLSON & BRO.

## Before You Buy Any Silo Know the Facts About the Old Reliable Saginaw

The Saginaw will turn your rough fodder into a perfectly cured, rich, succulent ration, which will do more to build up your herd than the richest pastures. The Saginaw is a wonderful builder of fat bank accounts.

But be careful in making your selection. For there is the other kind—the wasteful, expensive silo, which ruins the silage and which does not stand the use of years.

It is hard to tell the poor from the good beforehand, for the same claims are made by all. Come in and let us show you the difference.

The old reliable Saginaw is the silo with the patented All-Steel Door Frame. No one else can use it. Positively cannot collapse or bulge. Airtight doors. Large door openings. Combined door fastener and ladder. Built to last a lifetime. This is the Silo with the Handy Inner Anchoring Hoop. The Silo that can never blow down, or have loosened staves fall inward. It's as solid as rock. We will also show you the ease and economy of the

## Whirlwind Silo Filler

This wonderful filler cannot be matched by any other machine for the purpose.

The drive is direct on the big, heavy fly wheel, which acts as cutter, blower and shredder. Combined fly wheel, cutter and blower are driven direct, not through gearing—easy running and well balanced, minimum vibration.

Mounted and "down" machines same height—no digging. Knives and shear plate adjustable without taking anything apart—no delays.

Have you read that splendid booklet, "The Modern Way of Saving Money on the Farm." We have a Free copy for you. Write for it—better, come in and talk to us about the Silo or Filler you want, and get the book.

## LOWER HOUSE AND SENATE IN FIGHT

Representatives in an Attempt to Force Senators Into Action.

(American News Service)

Washington, May 11.—An organized movement to embroil the senate into action on pending legislation is engaging the attention of political Washington today. House of Representative members are in the movement.

Nearly half of the delegations from Ohio, Indiana, and Wisconsin and other middle western states will get away from Washington for their homes today. They expect to remain there indefinitely, they say. "We expect to wait until the senate acts," said one of the departing members. "It will be pleasant at home than it is in Washington while the senate is debating the tariff question."

This movement is being watched with interest here. It is the first time the co-ordinate branch of congress ever attempted such drastic measures to compel the other branch to act. The senate is resentful and there is a question whether the plan may not react. The house leaders want to hasten legislation and get away early in July. Some of the senators even expressed an opinion today that congress would adjourn not later than July 15.

## PREBLE CO. GRAND JURY MAKES REPORT

(Palladium Special)

Eaton, O., May 11.—After having made examination into six cases, involving fifteen witnesses, the grand jury for the May term of the common pleas court returned three indictments against Lester Baker of Jefferson township, and one against Henry Brock, formerly of Lewisburg, who is now confined in the county jail. Two of the three counts against Baker allege horse stealing and the other charges assault. Brock was indicted on the charge of failure to provide for his children. Baker was arrested on affidavit by Edwin Bradshaw, with whom he had some difficulty in the sale of a couple of horses, it is said. When Brock's wife secured a divorce from him he was ordered to pay \$3 a week for the support of his children. For a time he is said to have done so but suddenly left and discontinued the payments. When he returned to Lewisburg about three weeks ago he was taken into custody by the authorities and placed in the county jail.

**Byron's Menagerie in Italy.**  
Lord Byron's establishment consists, besides servants, of ten horses, eight enormous dogs, three monkeys, five cats, an eagle, a crow and a falcon, and all these, except the horses, walk about the house, which now and then resounds with their unbridled quarrels, as if they were masters of it. After I have sealed my letter I find my enumeration of the animals in this circenial palace was defective, and that in a material point. I have just met on the grand staircase five peacocks, two guinea hens and an Egyptian crane. I wonder who all these animals were before they were changed into these shapes.—From a Letter by Shelley.

## A CYCLONE DAMAGES

Two Northwestern States Were in Its Path.

(American News Service)

St. Paul, May 11.—A cyclone swept North Dakota and Northern Minnesota during the night doing tremendous damage at Fargo, Felton, Moorehead, Marion and East Grand Forks. Andrew Peterson, a farmer near Felton was fatally injured. Wire communication was badly demolished.

**The Necessity of Life.**  
Married people should learn what to do for one another's little life, and for the life of the children that may come. They are sure sooner or later to have occasion to treat constipation or indigestion. When the opportunity comes remember that the quickest way to obtain relief, and finally a permanent cure, is with Dr. Caldwell's Syrup Pepsin, the great herb laxative compound. A bottle should always be in the house. It costs only 50 cents or \$1 at drug stores.

## CHICAGO NOW HAS REAL SUMMER DAY

(American News Service)

Chicago, May 11.—Chicago today is having its first touch of summer. The heat started yesterday morning and already has claimed one victim. An unidentified man who was picked up on the street, died early today at Alexian brothers hospital from heat prostration and several other persons were overcome. Today promises to outdo yesterday when the mercury on the street registered 87.4.

**Know the Outcome.**  
Sympathetic Father—Parted from Harry forever, have you? Well, perhaps it's just as well not to see each other for a day or two.—Life.

A sunny temper glids the edges of life's blackest cloud.—Guthrie.

## STICK WAS DRIVEN THROUGH CHICKEN

(Palladium Special)

Milton, Ind., May 11.—Mrs. J. L. Wike found one of her hens yesterday lying on its side with a stick driven into its thigh and through the body the point extending out above the

back. She is at a complete loss to explain how the stick penetrated so far, unless it was the inhuman act of some small boy. The stick was removed and the chicken probably will have to be killed.

The first steel rails ever rolled in Australia recently were turned out by a New South Wales iron works.
