(Continued from Page One.)

though the city would get 1/4 of the profits at first, on a minority holding of stock, that when the city controls the majority of stock it would still only receive 1/4 of the profits. This clause will have to be revised if acceptable to the city.

The first thing to be done by the meeting of the board of works considering the propositions of the R. C. W. W. and Campfield, will be to fix a bond, to be put up by the bidding companies. Each will be between \$10,000 and \$15,000. These bonds will guarantee that the bidding companies will contract.

City Attorney Gardner and President Hammond of the board of works, both express themselves as favoring a slow course of procedure on the part of the city.

VETOES LAW PUTTING BAN ON CRIME NEWS

Springfield, Ill., June 13.—Illinois newspapers appeared yesterday with just as much crime news in their columns as ever. This was permitted because just at midnight Governor Deneen vetoed the Church bill, which prohibited the publication of such news.

In vetoing the bill Governor Deneen said: "This bill prohibits the publication of any detailed account, statement or description of certain enumerated crimes, acts or conduct of any book, newspaper or magazine, or any other written or printed publication."

"This provision of the bill seems to be altogether too sweeping in its prohibition. The publication of such news is often an aid to the public authorities in the detection of crime, as well as a spur to the exercise of their best efforts in securing the apprehension and punishment of offenders."

"This provision of the bill is an unwarranted interference with the liberty of the press in a matter which is of great importance to the public and the administration of the criminal laws of the state."

COMMENCEMENT IS HELD AT PRINCETON

(National News Association)
Princeton, N. J., June 13.—Many distinguished visitors participated today in the one hundred and sixty-fourth annual commencement of Princeton University. The academic procession formed in front of Nassau Hall shortly after 10 o'clock and marched to Alexander Hall where the presentation of diplomas and the conferring of degrees took place. The program for the remainder of the day included the election of an alumni trustee, the alumni luncheon in the gymnasium, and a swimming exhibition in the Brook pool.

MY OPINION AS TO EARLHAM COLLEGE

BY LEE B. NUSBAUM.

The value that any enterprise or institution is to the community from a business man's standpoint is based mainly on:

First—Permanency.

Second—The ability to bring additional business.

Third—Will it bring about a saving in the cost of living?

Fourth—The advantages in education and culture.

This last advantage needs no comment, for the advantages of Earlham college to the community are so great they can never be estimated.

As to its permanency there is nothing this city has that will outlive Earlham college. Factories may close, manufacturing and business houses, crops may fail, but the education of our boys and girls will ever continue, and the number of Earlham's finished product will be on the increase from year to year.

The additional business that Earlham brings to the community can be measured by the income of the institution, which is practically all spent here. Add to this the student expenditure outside of the college and you have a grand total each year of more than the entire college debt.

The saving of the cost of living each year to the families of Richmond who take advantage of Earlham instead of sending their boys and girls to foreign colleges to be educated, makes an average saving of about \$250 each year, and based on the present local attendance of about 200 students from Richmond, makes a total actual saving of \$50,000 annually.

The commercial advantages of Earlham college to Richmond are so vast that no business man or citizen who has the welfare of the city at heart can consistently refuse to help Earlham college at this time, for the payment of her debt increases the efficiency of the institution and thereby makes it a still greater asset to the community.

"The Easiest Way."
Eugene Walters' play, "The Easiest Way," made a big hit, but Hewitt Brothers' "Easiest Way" to do house cleaning is the favorite among women who think. Their production, Hewitt's Easy Task Soap, cleans woodwork, floors, rugs, curtains, dishes, clothing, table linen in half the time required by inferior cheap soaps, because it is made of pure cleansing agents and does not have to depend on back-breaking, health destroying efforts. Five cents a cake.

Winter fishing in Manitoba is a strenuous occupation. The mercury often touches 60 degrees below zero, and nets must be fished several times each day.

CREDIT MEN HOLD THEIR CONVENTION

(National News Association)

Minneapolis, Minn., June 13.—The sixteenth annual convention of the National Association of Credit Men began in this city today and will continue four days. On the last day the sessions will be transferred to St. Paul. The attendance embraces more than one thousand delegates, representing the leading wholesale houses and manufacturing firms in all parts of the country.

The convention was called to order at 11 o'clock this morning by the president, F. H. McAdow of Chicago. Governor Eberhart and Mayor Haynes delivered addresses of welcome. Responses in behalf of the visitors were made by H. G. Moore of Kansas City, and H. E. Choate of Atlanta.

President McAdow delivered his annual address, in which he reviewed the history of credit men's associations and the salutary results achieved by them in placing business upon a sounder basis and in securing needed legislation. The address of the president was followed by the report of the secretary-treasurer, Charles E. Meek of New York City.

The afternoon session was devoted to the reports of the standing committees and to addresses by James J. Hill, president of the Great Northern railway, and H. K. Huntton of Stillwater, Minn. The session concluded with an address on "Reciprocity" by H. H. Pigott of Winnipeg.

DISAPPOINTED WIDOW BY NOT KISSING HER

Wilkesbarre, Pa., June 13.—Alder Donohue held Daniel Reardon under bail to keep the peace because he did not kiss Mrs. Mary Burke, a neighbor, after talking of doing so and being so timid that he finally had words with her about it, and Mrs. Burke had him arrested for disorderly conduct. "Reardon, all members of the female sex from their infancy up, like to be kissed. Osculation is one of the necessities of life. I do not consider you gallant in having asked this woman for a kiss and then not taking it. I have found through experience that old women as well as young like to be kissed. It rejuvenates the old and makes the young take an interest in life. For your lack of gallantry I will hold you under bail and order you to pay the costs of the prosecution or serve ten days in jail."

SAYS LAWYERS ARE SOCIAL OUTCASTS

Lack of Standing a Reflection on Bar—Relatives Poor Clients.

Chicago, June 13.—"It is the shame of the Chicago bar and bench that lawyers have no social standing."

These cheering words were hurled at the graduating class of the Chicago Law school at the Garrick theater by State's Attorney John E. Wayman, who asserted that the lawyer's lack of standing in the community could be felt whenever a lawyer was introduced to the elect.

"Instinctively," he said, "they will clasp their pockets and then say, 'I'm glad to meet you.'"

"In a few days," he continued, "you will enter your offices and sit down in the greatest solitude you ever experienced. Languidly and tensely you will wait for that dear sound, the footstep of an approaching client."

"But when you greet him don't let him know how glad you are to see him. Treat him cordially, but not effusively, and above all things, proceed to get some money out of him. Find out how much he has and how willing he is to part with it, and then compare this with your needs. Charge him accordingly."

Relatives Poor Clients.

"Another 'don't' for you is to not take law business from your relatives. All you will get out of it is abuse and here's no money in it. Above all things, don't quarrel with the judge. If you beat him at repartee he will send you to jail for contempt of court and more often he can beat you anyway. Besides, it's a good thing to have him on your side."

"I must not forget to add that it is never right to argue a legal proposition with a layman. When you state an opinion don't give him your reasons. Be right and then let him think there is nothing more to be said."

Returning to the lack of social standing of lawyers, Mr. Wayman said it was due to the "shysters" and that it was the duty of lawyers to stand together and exterminate the shyster, whom he described as a man who has no regard for the sanctity of the law.

This warning concerns YOU --- and your friends as well

You have become familiar with the front laced corset—the Gossard—through us. We have been selling it exclusively in this city. We are NOW. This is

THE ONLY STORE IN RICHMOND

at which you can buy the true and original front-laced corset—The Gossard!

We introduced the front-laced corset to you—we have shown you what it can do—we have spent time and money to see you correctly corseted in a scientifically constructed front-laced corset.

THE Gossard CORSETS
They're the Best

were the first front-laced corsets in America. They have improved with every new model and in every season, until it would seem that perfection could be no nearer attained.

BUT REMEMBER THIS:

There is only one front-laced corset! Other corsets may lace in front—but transposing the lacing from the back to the front of a corset does not make a front-laced corset. It is a much more subtle matter.

Front lacing is only one feature of the Gossard—an essential and consistent feature, but not cause and effect combined.

Others have tried and are trying to imitate the Gossard principles of construction—those secrets which make the Gossard keep its inimitable shape until it is worn out, which guarantee it against rust, which guarantee perfect health and comfort as well as beauty and style!

But you can secure these principles and features of exclusive front-laced corsetry only in a Gossard.

You can prove these statements to your own satisfaction by a trial, and you can secure the latest model in the Original Gossard exclusively at

SPEED MANIA IS A MENACE TO NATION

Minister Says Blood Thirst Is Insatiable—Proves the Ape Theory.

Chicago, June 13.—"Such spectacles as that witnessed at Hawthorne race track last week are an unanswerable argument proving the survival of the ape in man. The spectators at Hawthorne were as so many cannibals clamoring 'More, More!' when a driver had been killed, even as the men of ancient Rome turned thumbs down for the death of a gladiator overcome by his opponent."

With "Autophobia, the Disease that Threatens to Eat Away the Very Fibers of Our Nation" as a theme, the Rev. Percival H. Barker, in a vigorous lecture in the First Congregational church, Maywood, discussed the automobile race in Chicago and that in Indianapolis two weeks ago, in both of which a contestant met his death. The lecture also included denunciation of "joy riding" and of those who whirl through the street "regardless of the peril to themselves and others."

"The Hawthorne event and that at Indianapolis may indeed be compared with the gladiatorial contests of an-

cient Rome," continued the preacher. "We claim an advance, with respect to our amusements, over those of ancient days, and a great advance over England of two centuries ago, when cock fighting and dog fighting were the common amusements. But the boast is vain when such events occur as the one presented at Indianapolis and at Hawthorne, when men lost their lives. The flag of freedom cannot float long over a nation of 'joy riders' devoted to such brutal spectacles."

"Some things we protect most zealously against any possible reactionary influence. We guard our political liberties and our press; defend them and proclaim continually that only stern vigilance will maintain them. Our educational advantages are likewise guarded, for education is not only placed under wise direction, but we in Illinois make it compulsory for all. But we seem not to guard our amusements against reactionary tendencies, either through public sentiment or by legislation. If the law allowed, cock fighting, prize fighting and bull baiting would flourish right here in Chicago, while gladiators would be found contending to their death."

"Autophobia" is the disease that threatens now. It has a demoralizing influence upon our boys and girls. The automobile destroys both life and property and the lives and careers of many of our young people are ruined because of their over indulgence in 'joy riding' which they cannot afford.
