Has a population of 22,324 and
is growing. It is the county
seat of Wayne County, and the

FRANCISCO LEON DE LA BARRA.
Francisco Leon de la Barra, the pro-
visional President of Mexico, was born
June 16, 1863, and received his educa-
tion at the college of the City of
Mexico. After leaving college he stud-
ied law and was admitted to the bar.
He made a specialty of international
law, and entered the Foreign Affairs
office. He gained a seat in the Fed-
eral congress in 1891, and remained
there until 1896. He represented his
government at the Ibero-American
congress at Madrid in 1892 and at the
Pan-American congress at Rio de Ja-
neiro in 1906. A year later he was
sent to the peace conference at The
Hague. As the diplomatic representa-
tive of Mexico he resided at various
times in the principal countries of
South America. Later he was as-
signed to Belgium and The Nether-
lands. He was sent to Washington in
1909 as Mexican ambassador to the
United States. He remained there un-
til last March, when he was called
home to become Minister of Foreign
Affairs in President Diaz's cabinet.

"At Sea"

They will be calling Congressman Finly Gray, "the man-better-than-his party" pretty soon, and history is full of the records of that class of political failures.

True, if Mr. Gray would rise in his place in the house and give the country his reasons for balking, he would, if they were consistent and reasonable, arouse some sympathy. But to run away or dodge voting or to ask to be excused when a question of great importance is under consideration is not the way to impress the public that he is courageous or sincere.

—The Connersville News.

The Connersville News remarks "Even the Richmond Palladium, which worships the Shrine of Gray, is all at sea," in regard to the action of Gray's refusal to vote with the Democratic caucus.

The Palladium holds no brief for Finly Gray—the Connersville News to the contrary, but it is not at all "at sea" about Mr. Gray's actions in twice refusing to enter into the Democratic caucus.

Were we as partisan as the Connersville News appears to be our intellectual perceptions might be rubber stamped enough not to take in the significance of it.

The significance of it is that Finly Gray is the only Democrat in the House of Representatives, who so far has had enough common honesty to keep his own pledges or the pledges of his party.

Is the Connersville News willing to jump at the crack of a whip to any position that a party caucus manipulated by a few leaders may decide? Is it disturbed that anyone should be so revolutionary as to keep a promise or to keep free from tangling alliances?

The Republican party in the Sixth Congressional district is Demo-
cratic for the first time in its history because the representatives have
betrayed their pledges and come home announcing that they could not
keep them because they were bound by the caucus.

This country has been bedeviled by partisanship. Party platforms
have been as so much waste paper—because of the caucus.

Representative Barnard's excuse for his actions in congress were
that he thought himself under more obligations to the caucus than to his
own pledges in his own district.

Not all that the Connersville News could do nor every other "regu-
lar" paper in the district could do—could fool the people of the district
into that sort of doctrine.

Those who wish for Republican success at any time in the future will
have to fight for it on the ground that the Republican platforms mean
something. They will have to fight the Democrats on the ground that they
have betrayed the people.

How is the Connersville News or any other Republican paper going
to fight the Democratic party on its repudiation of its platform on the
free woolen schedules (adopted for the last twenty years) if it condemns
Finly Gray for standing for free wool?

The Connersville News has shown tendencies at times of being inde-
pendent and progressive. Its partisanship has not been so hide bound
that it could not get out in Connersville and help throw off the local boss
set up by Jim Watson. But how can it operate consistently against the
bossism of its own party and defend the same thing in the Democratic
party?

We confess to being more at sea on this problem than as to the
meaning of Mr. Gray's insolvency.

FORETOLD DEATH; ADJUDGED INSANE

Howard Brumley has been adjudged
insane at an inquest hearing in Jus-
tice Abbott's court. In his testimony
the young man's father declared that
Monday evening Brumley shook hands
with members of the family and told
them good-bye, because, he said, he
was going to die that evening. His
habit of divesting himself of all his
clothing and going about naked was
offered as evidence of his insanity.

New mileage of railroads built in
the four years ended in 1909 in the
old world was 28,074, and in the new,
34,726.

WHAT OTHERS SAY

KILL THE CATERPILLAR.

From the Philadelphia Press.
The eggs of the tussock moth which
were deposited last fall in the cracks
and hollows of the bark on the trunks
and limbs of trees have been hatching
out during the last week and the
young caterpillars have already be-
gun their work of devastation. They
are very little and it is not easy to
see them, but the effect of their depre-
dations may be observed in the holes
made in healthy leaves already on
their way to be skeletonized and de-
stroyed by these greedy larvae. They
eat voraciously and grow rapidly, in-
creasing their capacity for destruction
with their steady growth in size. The
time to destroy them is now. A month
later the lush foliage of our trees in
the streets and public squares will be
robbed of its abundance and beauty
and many trees will be left unsightly
and almost naked because the hairy
caterpillars by the thousands and even
hundreds thousands were allowed to
feed upon them at will and rob the
trees of their life-giving leafage.

WOMAN SUFFRAGE IN WISCONSIN

From the Philadelphia Inquirer.
Wisconsin's legislature has passed a
bill providing for equal suffrage of the
sexes, save in presidential elections,
and it is expected that the governor
will sign it, but the law will not go in-
to effect unless indorsed at a referen-
dum of the people at the fall elections.

The Question is

Could you use \$50 or \$75? If
you are not familiar with our
good plans, and fair rates,
then you haven't any idea
how readily you can borrow
that amount. We loan on

every inquiry held strictly

ney Roses, Beautiful Carnations in all

er Shop, 1015 Main St.

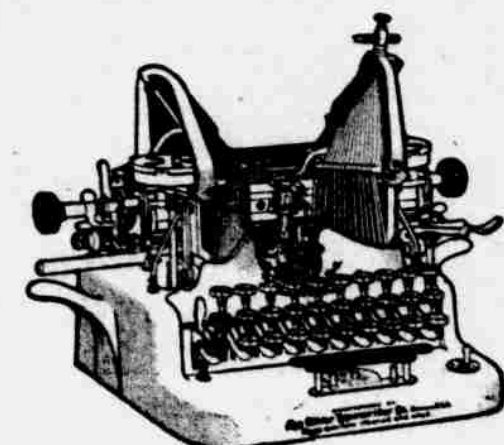

Just why presidential elections are
eliminated does not appear, but the
experiment will be worth watching, if
it is tried, because of unusual condi-
tions existing in Wisconsin. The states
in the west where equal suffrage pre-

vails are small in population and have
largely a native-born population. In
Wisconsin there is a very large for-
eign-born element and a much larger
portion which if of foreign parentage.
Most of these are Germans and Scan-

danavians, and it will be interesting
to see how these will vote on the pro-
posal. Scandinavians in Europe are
generally liberal in granting rights to
women, but Germans are vastly more
conservative.

The No. 5 Oliver Typewriter for Seventeen-Cents-a-Day!

What! Actually buy outright the \$100 Oliver Typewriter for 17 cents a Day? Yes, sir—that's the proposition on the new model Oliver No. 5, the Standard Visible Writer. We not only invite you—we urge you—to take advantage of this remarkable typewriter opportunity.

This plan was devised for the benefit of the many thousands who are renting machines or doing without them for lack of ready cash.

In selling you an Oliver Typewriter we meet you more than half way. A small cash payment brings the machine. We willingly wait while you pay at the rate of Seventeen Cents a Day.

We don't want a cent of security. Just your promise-to-pay is enough.

Swiftest, Strongest, Simplest of All \$100 Typewriters

The speed of the Oliver sets a pace that has never yet been excelled. Its strength and endurance are such that it serves you efficiently for a lifetime. No other machine in the \$100 class compares with it in simplicity, for we do away with hundreds of parts used on other standard typewriters.

The first crude model of the Oliver Typewriter was built from an old washbowl and the type of a country print shop. It was a curious looking affair, but the principles embodied in its design were destined to revolutionize the typewriter world.

The OLIVER Typewriter

The Standard Visible Writer

Model No. 5 has captivated the public by its wealth of exclusive features which save time and effort, add scores of new uses and give tremendous gains in efficiency. The new "coat of mail" protects important working parts from dust, gives added strength and stability. The Disappearing Indicator shows exact printing point and ducks when type strikes paper.

The Vertical and Horizontal Ruling Device is a wonderful convenience. The Automatic Tabulator and the Line Ruler are TWIN DEVICES. Each supplements and completes the other, in tabulating, invoicing and all kinds of statistical work. The Balance Shifting Mechanism, the Automatic Paper Fingers, the Paper Register, the Back Spacer and other innovations put the finishing touch of perfection to this incomparable writing machine.
