

MONEY TRUST HAS NOW BEEN FORMED

That Is Really What the "National City Company" Is Said to Be.

(National News Association)
New York, July 6.—The "Money Trust" has been organized, according to Wall Street financiers, who declared today that the recently formed "National City Company," with a starting capital of \$10,000,000 regarding which considerable mystery existed, is an institution formed by financiers interested in the National City bank, which is known as the Standard Oil financial Gibraltar. Controlling trustees of the National City company are James Stillman, Frank A. Vanderbilt, and Stephen Palmer, all high officers in the National City bank. The object of the National City company, according to reports, is to finance certain enterprises, furnish funds to railroads and industrial enterprises and dominate the same without interference from the national banking laws, which at present handicap certain activities. The new concern is expected to control most of the desirable classes of finance business of the country.

PRISONERS AT JAIL GO OUT ON STRIKE

When three prisoners at the county jail were taken suddenly ill on Wednesday afternoon, while working on the stone pile in the jail yard, their compatriots at stone crushing refused to work longer. They were apprehensive that they too would be made ill. The three were affected with the heat, but were not prostrated.

The other prisoners enjoyed the remainder of the day in the cooler spots in the jail yard and corridors of the building. It is impossible to make the prisoners work, as the laws of the state give neither the sheriff nor the turnkey such authority. All the officials can do is to request them to do the work. Of course they can make the jail rules so strict and the life of the prisoners so unbearable that their requests are ordinarily complied with.

GREENSFORK GANG TO BE BROKEN UP

Good Citizens Subscribe to a Fund for Employment of Town Marshal.

(Palladium Special)
Greensfork, Ind., July 6.—About forty of the leading citizens of this place last evening organized a law and order society and subscribed sufficient money to employ a town marshal and a deputy sheriff for three months so that order may be preserved.

For several weeks the residents have been disturbed almost nightly by a few toughs, ranging in age from 21 to 50 years, who when drunk have committed numerous misdemeanors and growing bolder with each offense have made themselves general nuisances. Arrests likely will be made right away in order to break up the gang.

If possible the organization will obtain information by which it will prosecute the operator of a blind tiger. Although there is plenty of circumstantial evidence, the members of the organization have no direct information against any one for selling whisky here. The town is "dry." The offenses of the gang which the citizens wish broken up before something serious happens, are usually committed while its members are intoxicated. On July 4 Simpson Oxendine, a former Richmond policeman, was deputized as a deputy sheriff and was at Greensfork during the entire day to be on hand in case of trouble. Charles Heath, a well known man here, will be appointed deputy sheriff and town marshal.

The total number of days lost by sickness was 10,352; number of minutes lost by tardiness 2,153, and number of tardy pupils 1616. The number of visitors during the term was 1,075.

In the Vote Chart.
A member of a certain city council had invested in a ready made suit of clothes and forgot to remove the price tag. A colleague called his attention to it, and he displayed signs of much mental disquietude.

"Were you afraid people would know what you paid?" inquired the colleague.

"No," was the reply. "I was afraid some of these lobbyists would think it is what I charge."—Washington Star.
