Friendly suit was entered in the circuit court, made necessary because White was a minor, and judgment given for the amount specified in the compromise settlement. Woman's World

A Possible Mistress
of the White House.

© J. C. Strauss.

MRS. JOSEPH W. FOLK.

Should Joseph W. Folk succeed William Howard Taft as president of the United States his wife will prove a gracious chaperone of the executive mansion.

Mrs. Folk is a delightfully cultured woman of southern birth, Tennessee being her native state. Although she is not strictly speaking a society woman, the gubernatorial mansion during her husband's administration as governor of Missouri was the scene of much charming hospitality.

Like Mrs. Taft, Mrs. Folk is an accomplished musician, and her tastes are decidedly literary.

Woman and the Home.

A house without a woman in it amounts to very little. It may be a sojourning place or a hermitage or a makeshift, but it cannot be a home. Woman is forever the center of home, and home is forever the center of things. Christianity looks back toward the home at Nazareth, and reverent painters portray the holy child in its mother's arms for countless shrines to enthroned. National glory rests upon the pillars of the home. Business gathers its millions only to adorn chosen homes in the end, and each toiler at the bottom strives for his dream, too, of a happiness between four walls with wife and child.

Woman at present, however, is tempted to decentralize herself. The kingdoms of the earth and the glory of them seem to her to be offered for her choice. She desires to work for hire, as men do, and to prove herself in industry outside the houses. All this is well enough if she realizes in time that home is better still. But the modern world is full of decentralized women who either cannot get back to the center of things or have lost the wish to do so. Even if they marry they do not want to be "tied down" to house and children. And it is perfectly possible in the first part of their lives to remain out from the center and still find life worth while.

But after thirty years or so the decentralized woman must lose by it. She is not the soul of anything. She is not vitally necessary anywhere. Her life is essentially shallow. The house without a woman in it, the woman who is not making a home for others—these mean life without a center, life gone awry. If it cannot be helped it is sad enough. If it can be helped it is not the worst and bitterest kind of mistake?—Harper's Bazar.

The Tibetans.

The Tibetans are not beautiful. How could they be when by their own confession the national ancestry runs back to the king of the monkeys and a hobgoblin? Bonvalot says of them, "The very bears are better looking." The type is midway between the Eskimo and the Chinese. Broad, flat noses, without visible bridge; no eye brows, wide mouths, full lips, oily skins, hair as coarse and straight as horsehair and short, square, ungainly figures—these are the elements of the unpleasing picture.

ANOTHER CRAP RAID A CONVENTION HERE

Made by the Police Nets Five Negroes.

From present indications it seems that "crap shooting" has become a fad among local negro youths. Following the arrest of four young negroes Saturday morning in the alley between Eighth and Ninth street, and Sailor and A streets, the police "raided" a game yesterday morning in a lot at Seventeenth and North H street. The five negroes participating in the game ran when they noticed Patrolmen Lawler and Vogelsohn approaching and did not stop until they reached Hawkins' pond which is more than a mile distant from the place where they were playing. The patrolmen followed them for a short distance and found two witnesses who were taken to headquarters. This morning three of the youths were in police court and they were released, being told to appear when notified.

An affidavit is made out against Bill Tracy, it being alleged that Bill won twenty cents from "Monk" Tracy, his brother, Forest Webster, George Baker and Bert Gee. Some of the boys admit their guilt but others stoutly deny it.

The four negroes arrested Saturday morning in the rear of the Bowling Alley were released by Mayor Zimmerman this morning after giving them a severe lecture and warning them not to repeat the offense. The youths were not being playing for money.

Y. M. B. C. MEETING FOR THIS EVENING

A meeting will be held this evening by the Young Men's Business Club in the Commercial Club rooms for the purpose of appropriating money and furthering the arrangements for the entertainment to be given the members of the Indianapolis Trade association who will be in this city, Wednesday. The Commercial club is also assisting in the plans for the entertainment and banquet to be tendered the association members.

The Y. M. B. C. will also make arrangements for the visit to Greensfork Thursday to attend the Fall Festival. It is believed that a large number of business men and others from this city will go to that place. If enough men signify their intentions of going, a special train will be secured.

DYSPEPSIA, GAS, SOURNESS, INDIGESTION AND ALL STOMACH MISERY WILL VANISH.

A little Diapepsin will make you feel fine in five minutes.

The question as to how long you are going to continue a sufferer from Indigestion, Dyspepsia or out-of-door Stomach is merely a matter of how soon you begin taking some Diapepsin. If your stomach is lacking in digestive power, why not help the stomach to do its work, not with drastic drugs but a re-enforcement of digestive agents, such as are naturally at work in the stomach.

People with weak Stomachs should take a little Diapepsin occasionally, and there will be no more indigestion, no feeling like a lump of lead in the stomach, heartburn, Sour risings, Gas

on Stomach or Belching of undigested food, Headaches, Dizziness or Sick Stomach, and, besides, what you eat will not ferment and poison your breath with nauseous odors. All these symptoms resulting from a sour, out-of-order stomach and dyspepsia are generally relieved in five minutes after taking a little Diapepsin.

Go to your druggist and get a 50-cent case of Pape's Diapepsin now, and you will always go to the table with a hearty appetite, and what you eat will taste good because your stomach and intestines will be clean and fresh, and you will know there are not going to be any more bad nights and miserable days for you. They freshen you and make you feel like life is worth living.

DEATH OF CANINES NOW INVESTIGATED

Dr. George Ferling, veterinarian, and Dr. Wagner, government cattle inspector, in connection with the health department of the city, are investigating the cause of the death of four dogs, suspected of having died of dumb rabies. One of the dogs, previous to its death, had bitten a child. A suspicion of hydrophobia exists. The head of the dog has been sent to the State laboratory of hygiene for examination, and if a test shows that the suspicions are well founded, measures will be taken to have the child subjected to the Pasteur treatment.

Owing to the usual prompt action of the health department, not much fear is felt here regarding the injuries inflicted by the dogs, but suspicious cases should be at once reported, for, once the symptoms are evidenced, no possible cure can be made.

GENN HAS HATCHET TO REDUCE WAGES

"What are you going to do with that hatchet," asked a policeman of "Doc" Genn, street commissioner, as the latter walked into police headquarters this morning and waved the weapon in a Carrie-Nation manner. Genn didn't answer for a short time, but proceeded immediately to sharpen the blade on the sole of his left shoe.

"I'm just fixin' to cut the wages of my men," he finally answered. The next thing heard was "Stand back boys, give him air, he'll be all right in a minute."

Snakeskin in a Bird's Nest.
The great crested flycatcher chooses for its nesting place a sheltered hollow bough or the abandoned excavation made by the golden winged woodpecker. His architecture is peculiar on account of the unusual materials he uses. In every nest you will find a bit of dry snakeskin and shreds of soft inner bark of trees. Among hundreds of nests examined not one has lacked these peculiar substances. Naturalists have tried in vain to discover why the bit of dry snakeskin is chosen. It does not seem to be of any use in the structure of the nest, and quite often it lies loosely on the outer rim or carelessly set into the extreme bottom. Possibly the flycatcher regards it as a choice bit of ornamentation.
