

## TREAT GREAHOUSE WITH TYPHOID

State Superintendent First Person in State to Be Inoculated.

INDIANAPOLIS, Oct. 12.—Charles A. Greathouse, state superintendent of public instruction, is the first person to receive from the state board of health treatment with typhoid fever serum as a safeguard against the disease. The second inoculation was administered to Dr. Louis Burckhardt, of this city, who accompanied Mr. Greathouse to the pathological laboratory.

The fact that the state board has been preparing to vaccinate against typhoid fever has been carefully guarded, the authorities wishing to be certain they were prepared to do the proposed work before the announcement was made. Dr. J. P. Simonds, superintendent of the laboratory, invited Dr. Burckhardt and Mr. Greathouse to be vaccinated when he learned they traveled about the state a great deal and were subjected to conditions which might cause typhoid.

Following the inoculation, Dr. Simonds announced that after November 1, the laboratory would be prepared to supply the serum for vaccination purposes to physicians who may desire to use it. The serum is manufactured in the laboratory from typhoid germs, and when injected renders the patient immune from typhoid, acting as does vaccine virus in the case of vaccination against smallpox. Three doses are administered, about ten days apart. The only unpleasant results are a slight irritation of the arm where the injection is made, and a feeling of lassitude which lasts a few hours, a symptom common to persons taking typhoid. The unpleasant effects soon pass away. Experiments made in the British army show the vaccine will withstand typhoid for at least three years.

The use of typhoid serum has passed the experimental stage, and is now accepted by the practitioners as a positive preventative for typhoid. It was used in the United States army in the recent maneuver camp in Texas with satisfactory results.

Dr. Simonds expects to provide enough serum to vaccinate persons who are traveling about, such as traveling salesmen, and nurses and physicians, who attend typhoid fever patients.

### THE AGE OF DEVELOPMENT.

We don't have to be gray-haired to remember the time when mother made soft soap with the fat savings, combined with potash, which were mixed with the same accuracy as when she put a pinch of salt into the stew. We call this "soap" by courtesy, but it wasn't a good soap to use.

Hewitt's Easy Task soap is a scientific product—no guesswork, no excess of fat or alkali, which are both injurious, but real soap, which is absolutely effective. It is pure and white, made exactly the same for a quarter of a century—there are many imitations—insist on getting Easy Task.

## Amusements

### AT THE MURRAY.

A second cousin to the Sultan of Morocco is doing ground and lofty tumbling to the delight of the Murray theater patrons this week. His name is Muly Ali, and although claiming to be a person of royal blood, he adds materially to the excitement when the Eight Boudouin Arabs give their correct imitation of "The whirlwinds of the desert" each performance evening and afternoon.

Muly Ali says he is a second cousin whose name sounds like Abdallah Azza, and he is supported in this statement by Simon Bonomor. They are hardy specimens. They look as if it would be exceedingly easy for either of them to don his tribal costume, mount a wild Arabian steed and safely out into the desert to shoot holes in the invaders.

"Many young men indulge in acrobatics just for pastime, and Muly Ali learned to tumble for his pleasure and for the pleasure of his friends, especially when they were assembled at weddings or other festive occasions," explains Manager Bonomer. "He came to this country on a pleasure trip in 1898, and Hasson Ben Ali, a professional importer of Arabian acts got him to stay over, showing him that

## CASCARETS FOR A SICK, SOUR STOMACH

Gently But Thoroughly Cleanse and Regulate Your Stomach, Liver and Bowels While You Sleep.

That awful sourness, belching of acid and foul gases; that pain in the pit of the stomach, the heartburn, nervousness, nausea, bloating after eating, feeling of fullness, dizziness and sick headache, means indigestion; a disordered stomach, which cannot be regulated until you remove the cause. It isn't your stomach's fault. Your stomach is as good as any.

Try Cascarets; they cure indigestion, because they immediately cleanse and regulate the stomach, remove the sour, undigested and fermenting food and foul gases; take the excess bile from the liver and carry off the decomposed waste matter and poison from the intestines and bowels. Then your stomach trouble is ended forever. A Cascaret tonight will straighten you out by morning—10 cent box from any drug store will keep your entire family feeling good for months. Don't forget the children—their little insides need a good, gentle cleansing, too.

## Hair Hints

### Worthy the Attention of People Who Wish to Preserve the Hair.

Have your own brush and comb at home and at hair dressers.

Never use a brush or comb in public places; they are usually covered with dandruff germs.

Wash your hair brush once a week with soap and warm water to which is added a disinfectant.

Shampoo the hair once a week with pure soap and water.

Use PARISIAN SAGE every day, rubbing thoroughly into scalp.

PARISIAN SAGE is guaranteed by L. H. Flue to destroy dandruff germs and abolish dandruff, or money back.

To stop hair from falling and scalp from itching, or money back.

To put life and beauty into dull, faded hair, or money back. Price 50 cents.

he could see all this country and go back with much money, just by doing tricks he used to do for pleasure. He has been here ever since.

That is the history of the development of the Arabian acrobat. For many generations the young men have learned ground tumbling just for sport as much as you play baseball. Then some who went into foreign lands learned that they could receive large sums of money for doing their stunts. Since then the apprentice system has developed so that the boy is bound to the master for five years, during which the master may beat him as he liked and the boy must kiss his hand in thankfulness. This makes good and hearty athletes.

### "THY NEIGHBOR'S WIFE."

The wives in the lively comedy of domestic life entitled "Thy Neighbor's Wife," which Daniel Frohman will present at the Gennett, Thursday, Oct. 19 are the heroines and the husbands the villains, all of which is told in a spirit of gallantry that is said to completely overlook the poor housekeeping of the one woman and the scrub brush atmosphere with which the other woman chooses to surround herself. The wives reform themselves as a part of their plan to reform their husbands. It is not on record that men ever did that. The plot concerns these four and all the fun is extracted from the circumstance that the husbands want to exchange wives and a trial affair is arranged and put into effect for a short period of one week, when each husband finds he wouldn't have the other fellow's wife at any price. This is said to be a funny play and thoroughly clean in plot.

## GIVEN RARE CANE

Taft Has Walking Stick Cut From Ancient Tree.

(National News Association)

SPOKANE, Wash., Oct. 12.—President Taft has among the souvenirs of his western trip a cane cut from a stump, which scientists declare was a tree before the glacial period. The wood was found in the valley of the south fork of the Old Man river in the northern part of the province of Alberta by Professor W. S. Foster, a geologist and explorer, living in Spokane. The cane, which is valued at \$5,000, was presented by Edwin T. Corman, president of the chamber of commerce, on behalf of the people of Spokane.

"The stump, which stood in a peat bed, was found beneath 60 feet of glacial wash," said Professor Foster, giving history of the discovery, "and is preserved to the present day by one of the wonderful freaks of nature. The peat, from which the stump was taken, is on a sandstone formation and is about three feet in thickness. Seaweeds and flag-stocks found nearby also were well preserved.

"This peat bed was uncovered by the wearing away of the glacial wash by floods and the flow of the Old Man river. There is not the least question in my mind that the tree grew before the glacial period, more than 250,000 years ago, but so far I have not been able to ascertain the kind of wood it is.

"The discovery was made not long ago in the Grand district, which is 250 miles north of Spokane and 400 miles east of the Pacific ocean. The presence of well-preserved seaweed and flag-stock in abundance, buried under 60 feet of glacial deposit, appears to be sufficient proof of its antiquity, though I have much other evidence of scientific character to bear out all of my assertions.

"More than that, I am prepared to satisfy anyone posted on such things by showing them the stump from which the wood was cut, also the formation in which the discovery was made."

## PROMINENT LABOR LEADER IS DEAD

(National News Association)

LONDON, Oct. 12.—Henry Broadhurst, former member of the parliament under secretary state in the home department and prominent labor leader, died yesterday aged 71. Mr. Broadhurst was essentially a "self-made" man, rising to fame from the humble position of blacksmith. After leaving the forge Broadhurst became a stone mason, studying diligently at night. He became active in the labor movement in Great Britain and his foresightedness and eloquence did much to promote labor's cause. During his activity in public life he held many responsible offices and wrote extensively on industrial topics. He was foremost in many movements to better the conditions of the laboring classes.

## DENIES OFFER TO VOTE FOR LORIMER

Illinois State Senator McCormick Says Money Did Not Change Vote.

(National News Association)

CHICAGO, Oct. 12.—State Senator Geo. B. McCormick denied the statement that he had been offered \$2,500 to switch his vote from Albert J. Hopkins, who was seeking re-election, and cast it for Wm. Lorimer. McCormick was the first witness called by the committee of U. S. Senators, which is investigating the election of Lorimer.

McCormick had denied already under oath the bribe offer, but the senators decided to again question, following a repetition of the story by John W. Pfeffer, formerly private secretary and now law partner of former Senator Hopkins. Pfeffer insisted that McCormick told him he had been offered \$2,500 to vote for Lorimer and that when he refused, he had been told he could name his own figure.

McCormick cast the 108th vote for Lorimer, thus insuring the senator's election.

As the result of Pfeffer's testimony four more members of the legislature, whom the witness declared he believed had been corruptly influenced, will be summoned as witnesses. They had not previously been named.

Senator B. F. Downing, (Republican) of Dixon.

Representative Chas. L. Fieldstack, (Republican), Chicago.

Representative Carl S. Burgett, (Republican) of Newman.

Representative Johnson Lawrence, (Republican) of Polo.

## WHAT OLD FOLKS NEED

Some Are Younger at 65 Than Others

At 40 Years  
So many people begin saying "Well, I'm getting old now," about the time they reach 60, and then let themselves act old—and the fact is they could stay young for a long time, in all but years.

We have seen men and women of 65 who were really younger than some are at 40 years: were more active and more up to date in everything.

When your energy begins to fail, build yourself up with our delicious cod liver and iron remedy, Vinol, which is a wonderful tonic and strengthener for all weak persons.

A gentleman of Allentown, Pa. says: "I am 76 years of age and find Vinol a great medicine. It is wonderfully strengthening and comforting to me." (Name on request.)

Thousands of feeble old people have found Vinol to be just what they need to revive their flagging strength. We guarantee it to please you—money back if it does not. Leo H. Fine, Druggist, Richmond, Ind.

CHINESE REBELS CAPTURE WU-CHANG

(National News Association)

HANKOW, China, Oct. 12.—Chinese rebels and mutineers have captured the city of Wu-Chang, capital of the province of Hu-Ueh and the lives of foreign missionaries are menaced. Unofficial reports state that 50 men were killed in fighting in the streets of the city.

Among those killed was the military commander of the city. He lost his life in a bomb explosion. The viceroy has fled.

Part of the city has been burned and other sections destroyed by bombs. The barracks and garrison have been wiped out by fire. The imperial government is sending troops to re-take the city.
