

DEVELOP POWER BY TASMANIA FALLS

Greatest Power Site In the
World to be Tapped by
Investment Company.

LONDON, Nov. 1.—A great engineering feat is about to be begun in Tasmania, as a result of which the colony will possess the largest waterfall in the world. The waters of the Great lake, which is situated three thousand feet above the sea level, are to be tapped in such a way as to produce a fall of 1,050 feet as compared with a fall of 160 feet at Niagara.

This great waterfall will be harnessed so as to operate huge turbines, the capacity of which for producing electrical energy will be limited only by the amount of water released from the lake.

The cheap power thus provided will be used on a large scale to operate the iron mines in northern Tasmania, and the lead, copper, tin and silver deposits of the west, with the result that the colony will soon become one of the leading manufacturing centers in the commonwealth.

The new scheme was explained by Sir John McCall, the agent general for Tasmania. "We have a large number of lakes situated on a high elevation," he said, "and the largest, called the Great lake, is about ninety miles in circumference. It is proposed to put a wall across the outlet and to raise by several feet the surface of the lake.

"The water will then run down the Shannon river, which has its rise in the Great lake, and from the Shannon river a channel will be cut to the Ouse river. The water will drop into the Ouse, a distance of 1,050 feet. This will be an enormous fall, the largest in the world. A lagoon will also be constructed for regulating the supply of water.

The first proposal is to put down an installation of turbines which will give 20,000-horse power at that point. Nearly half this power will be utilized at Northwest bay, near Hobart, where it is proposed to erect a metallurgical works on a site of two thousand acres. These works, by a special process, will deal with the refractory ores from the north coast of Tasmania and it is also expected to treat the same class of ore from Broken hill, in New South Wales, which have now to be sent to Germany.

"This idea of harnessing the water power of Tasmania should make the state the manufacturing center of the commonwealth, as the power will be so much cheaper than coal power, and will not be dependent upon labor. It is proposed also to erect electrical furnaces for the treatment of iron ores in the same way as in Norway and Sweden.

"Everything, of course, points to an increased demand for iron—the active railway policies of the different states in Australia, together with the fact that the commonwealth has undertaken to construct certainly one transcontinental line, and has also realized the necessity of a second one to serve the northern territory, which has just been taken over.

"In addition," added Sir John, "there is a keen desire on the part of the Australian people to construct their own men-of-war, and therefore it becomes a necessity for a country that wants to be secure in its own defense that it should be able to produce iron within its own boundaries."

A Crop Bulletin.
Five-year-old Ella had been enthusiastically engaged in garden work all the spring. She was especially interested in planting seed and watched anxiously for sprouts to appear above the ground.

One day while visiting a neighbor who possessed a six-months-old baby Ella was delighted to see two tiny front teeth displayed when the baby smiled.

"Oh, Mrs. May," the little girl cried excitedly, "the baby's teeth have come up!"—Youth's Companion.

Packey M'farland's Secret For Strength

Even as great a pugilist as Packey M'Farland becomes exhausted at times, and his method of restoring his strength and nervous energy is by using the very same method which thousands of men and women are using today.

Packey's secret is really no secret at all. Here it is in his own words: "While training I at times become fatigued and find splendid use for Make-Man Tablets, as I found them from personal use the best tonic I have ever used." Make-Man Tablets are the greatest remedy known as a strength and flesh builder. They replenish the blood with rich red corpuscles and thereby build up muscles and solid, healthy flesh. Try a box today. They are sold at 50c a box on a positive guarantee or money refunded, by your druggist.

DON'T EXPERIMENT

You Will Make No Mistake If You
Follow This Richmond Citi-
zen's Advice.

Never neglect your kidneys. If you have pain in the back, urinary disorders, dizziness and nervousness, it's time to act and no time to experiment. These are all symptoms of kidney trouble, and you should seek a remedy which is known to act on the kidneys.

Doan's Kidney Pills is the remedy to use. No need to experiment. It has cured many stubborn cases in Richmond. Follow the example of a Richmond citizen and be cured yourself.

David Hershey, 316 S. Thirteenth St., Richmond, Ind., says: "I was troubled for some time by kidney complaint and the remedies I tried did not help me. Often I was hardly able to straighten on account of sharp, cutting pains across the small of my back and the least exertion or any cold I contracted caused the kidney secretions to pass too frequently. Doan's Kidney Pills, obtained at A. G. Luken & Co's Drug Store, cured me and at that time, I publicly recommended them. I now gladly confirm all I then said, as I still firmly believe that Doan's Kidney Pills are a splendid remedy for kidney disorders."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

ACCIDENTAL SHOT KILLED A FARMER

(Palladium Special)

EATON, O., Nov. 1.—The remains of Joseph Switzer, 54, who died last Monday night in St. Elizabeth hospital, Dayton, where he had been taken after he had been accidentally shot by Kenneth Miller, 13-year-old son of John Miller, living southeast of Eaton, was returned to Eaton, Tuesday and taken to the undertaking establishment of Harry D. Silver, but later removed to his home, about one and a half mile east of Eaton. Funeral arrangements had not been announced last Wednesday, but the services will probably be held Friday.

While trying to extricate a cartridge from a 22-caliber rifle, the weapon was accidentally discharged and the bullet entered Switzer's right hip. Local physicians probed for the bullet, but were unable to locate it, and he was taken to the hospital where it was disclosed that the missile had taken an upward course and entered his stomach, inflicting wounds in seven places in his intestines. Switzer is survived by his wife.

CALIFORNIA CLUB WOMEN IN SESSION

(National News Association)

PLACERVILLE, Cal. Nov. 1.—Placerville is entertaining during the remainder of this week the annual convention of the northern district of the California Federation of Women's clubs. It is the tenth annual meeting and from present indications it will be the most successful as well as the best attended ever held in this part of the state. The social program begins tonight with a reception in honor of the state president, Mrs. Russell Judson Waters of Los Angeles.

Amusements

THEATRICAL CALENDAR.
At the Gennett.
November 4.—"Dear Old Billy."
November 7.—"Baby Mine."
At the Murray.
All Week.—Vaudeville.

"Dear Old Billy."
Seats for the engagement of the eminent English character actor, Wm. Hawtrey and his company of London Players will go on sale tomorrow morning. Mr. Hawtrey and his distinguished company will be seen at the Gennett on Saturday, matinee and night in a clever three act farce comedy called "Dear Old Billy." It is the product of the pen of V. H. Risque, a noted English writer and is spoken of by the critics of Chicago, where the piece played an engagement, running well into four months, as being the best company and farce seen in years, and, for fun and speed excelling even such distinct English successes as "Charley's Aunt," "Jane" and "The Private Secretary."

"Baby Mine."
It is many, many months since such continuous roars of laughter filled the Gennett as made the roof beams shake on the first night of "Baby Mine," when it was presented here. The comedy made such an instantaneous hit that the manager immediately secured for a return visit on Tuesday, Nov. 7th, when one evening performance only will be given. The title gives no hint of the rollicking absurdity of the play itself. "Baby Mine" serves a good purpose, for it makes free laughter. It is one of the funniest plays ever seen on any stage. It is not often that a Richmond audience "lets itself go" but this is just what happened to the first lot of people to whom "Baby Mine" was introduced here. The development of the plot proceeds step by step with the inevitability of logic. If you see it, we can promise an entertainment from which you are not likely to escape with ribs un-wrung.

At the Murray.
Manager Murray is well pleased with the show opening at the Murray this week. One of the headliner attractions is W. J. McGraw's Bama Bama Girls, ten in number and Harry Watson the singing comedian, with a car load of special scenery, producing a one-act musical comedy entitled "Toy Shop Pastimes," which is truly one big

round of pleasure for the music lovers of Richmond.

The scene represents a toy shop filled to the roof with juvenile pleasure utensils, the stage being fairly lined with hobby horses, drums, dolls and joy ride machines. The girls of the act are pretty, especially the co-star, Miss Josephine Fields, who does some clever solo work, aided by good voices of the pretty chorus, Miss Dot Mantell and Anna Belle Nelson, who an excellent soft pedal dance, while Harry Watson, the comedian, although suffering greatly with a severe cold at the opening performance, did well in comedy and singing.

The musical numbers, all from the pen of Gus Sohke, author of many of the Whitney plays are: "The Chanticleer Rag," "I Love My Steady," "China Doll," "Oh, What A Lovely Dream," "The Daffodil Man," and "Good Bye People," the latter a whispering song that brought the company back before the footlights many times at the climax. It is the crowning event of the season in big acts.

BUSINESS WOMEN ARE DISSIPATED

Chicago Pastor Admonishes
Against Envy and Dis-
play—Home First.

NEW YORK, Oct. 31.—"If women wish to keep their standing in the business world, they must stop aping men's dissipations. They must stop working on the artificial stimulation of alcohol and tobacco."

Dr. Clarence K. Villet, who has been making a study of the neurotic conditions of women for years, declares that in ten years the number of women suffering from nervous troubles, caused by artificial stimulation, has increased 75 per cent.

"Women," said Dr. Villet, "have always been fascinated by the freedom men have enjoyed, and to a certain extent have copied their pleasures and pastimes, but never have they participated in their dissipations as they are doing today."

"The danger in this does not lie so much with the woman at home as with the woman who goes to business and is continually out in the world. The home woman influences a certain restricted set, the one in the business world influences, by her example, one might say, hundreds of others."

"By the business woman I do not mean the stenographer and the small salaried person. These can not afford the dissipations that undermine not only the physique, but the mind. I refer to the highly paid secretary, to the woman who holds an executive position, to the women in many professions who have gained their positions by ability and a good fight."

"These women are of independent means. They no longer defer to the wishes of men as to their conduct, and having taken a drink now or then, for stimulation when tired, have fallen into the habit of drinking with luncheon."

"This means that the women who do this also drink with their dinners, and it is not an infrequent thing for women to resort to the morning 'bracers' before breakfast."

"Smoking is another habit that women are getting into that is bad for them, if not from the moral, at least from the physical standpoint. The combination of smoking and drinking among women is bound to result seriously. I believe absolutely that if such habits continue, women will lose the high place they have attained."

Monkeys Are Fighters.
"Most persons will guess lions or tigers are the most dangerous animals to train," said an animal trainer, "but they're wrong. Give a lion one good licking and he'll remember it. He hits back only when his man is down or has his back turned, but a monkey will fight against any odds, and you never can tell when he'll hit back. Even a medium small monkey can strike a blow that will reach through a coat, vest and two shirts, and he leaves a nasty wound. The most daring thing I ever did was to go into a monkey cage and take a baby from its mother. The ordinary house cat is the most stubborn animal under training, but the monkey is the most dangerous if you work the larger kinds."—New York Sun.

A BAD STOMACH NOT NECESSARY

ENGLISH MARHUE cures in-
digestion in a few days—Gives
instant relief.

Don't suffer from sour stomach, belching gas and other stomach misery.

It's rather a foolish proceeding when Leo H. Fihe is selling a remedy called "ENGLISH MARHUE" for only 25 cents that will put any upset stomach in splendid condition in the shortest possible time.

ENGLISH MARHUE is the prescription of a famous British Surgeon, and it certainly does banish indigestion and makes the stomach strong and healthy. All sufferers should try it. Mail orders filled, charges prepaid, by Rheuma Co., Buffalo, N. Y.

Rheumatism is quickly cured with RHEUMA or money back. 50 cents at Leo H. Fihe's. Mailed by Rheuma Co., Buffalo, N. Y.

JAMESTOWN RACING CLUB HAS PROGRAM

NORFOLK, Va., Nov. 1.—The Jamestown Jockey club will begin its fall season of racing tomorrow, when the gates at the track will be opened for a thirty-day meeting. Many thoroughbreds seen recently at Pimlico, Laurel, and elsewhere are now quartered at the Jamestown course, and applications for additional stable room are being received daily.

A number of valuable stakes are to be decided during the meet, the most notable among them being the Monticello Handicap at one mile for all ages, the Exchange Handicap, at a mile and a sixteenth for three-year-olds and over; the Lynn Haven handicap, a three-quarters of a mile dash for two-year-olds; a Thanksgiving selling race of one mile and a furlong for three-year-olds and over, and the Merchant's selling race, a six and a half-furlong affair for all ages.

Vicious Candy.

A group of children were playing in a gutter. A passerby walked slowly, watching the active preparations of a "little mother," aged about seven, who was marshaling her charges into order, apparently in preparation for some urban excursion. Something had gone wrong, and one small kid was howling.

"Shut your noise, Tommy Higgins, and be good this minute!" admonished the mother, with a promissory smack. "If you don't stop like I tell you I'll leave you right here in the mud gutter. You can't go wild us till yez closes yer noise and be's a good boy. Do you know where we're goin'?" Well, we're goin' in the next block to the candy factory to smell the candles cookin'! And do you yer know what they're makin' today? Well, it's chocolate creams and peppermint."—New York Press.

GOLDSBORO HEARD FROM

A Lady Who Lives in Goldsboro
Joins in the Chorus of Praise
for Cardui, The Woman's
Tonic.

Goldsboro, N. C.—"A physician treated me for many distressing symptoms," writes Mrs. Etta A. Smith, "but gave me no relief."

"I suffered with neuralgia around the heart and was troubled at times with my head. I had pain in my left side, bowels, left thigh, shoulders and arms."

"After taking Cardui, I am now well and can recommend it to other suffering women."

Just such doubtful symptoms, as those from which Mrs. Smith suffered, are the ones for which it will pay you to take Cardui, the woman's tonic.

It is at such times, when there is nothing to show, for certain, the real cause of the trouble, that you need a tonic, to give the body strength to throw off the illness that evidently threatens.

Take Cardui, when you are ill, with the ailments of your sex. Take Cardui as a tonic, to prevent illness, when you feel it coming.

Your druggist keeps it.

N. B.—Write to: Ladies' Advisory Dept., Chattanooga Medicine Co., Chattanooga, Tenn., for Special Instructions, and 64-page book, "Home Treatment for Women," sent in plain wrapper on request.

A LIVELY FIGHT ON

For Preble County Constitu-
tional Delegate.

(Palladium Special)

EATON, O., Nov. 1.—Henry E. Eby, Progressive Democrat, one of the five aspirants in the race to represent Preble county in the coming constitutional convention, has been unanimously endorsed by the Wayne Farmers' club, composed of about one dozen of the county's most progressive agriculturalists. Ex-County Representative William K. Swan, defeated a year ago by Hon. Earl H. Irvin, is a prominent member of the club.

Attorney Roscoe Griffin, Hon. Frank Blackford, Professor W. W. Aker and Professor Herman H. Beneke, other candidates for the delegateship, are scrapping lively for preference with the voters, and the selection of the successful one in the list is well conjectured. Current gossip relative to the matter, however, narrows the race down to three, it being claimed that it lies between Griffin, Beneke and Eby. Others, figuring that the dry vote will be given Blackford, say he will slip in ahead of Eby. Blackford, a prominent farmer and member of the County Tobacco Growers' Union, is making a strong fight for the vote. He is strong in his denunciation of John W. Horine, a member of a committee who, he asserts, was unauthorized in his endeavor to centralize the dry votes on Eby. Blackford says he was the first dry man in the race, and the vote of the Anti-Saloon League is due him. Griffin is hopeful that the league vote will be divided between Eby and Blackford. In this event the wet vote given him will be large to land for him the position. Beneke is making a hot campaign and is delivering speeches, showing his position, in various parts of the county.

PHONE MEN TO MEET

ALEX. GRAHAM BELL

(National News Association)

BOSTON, Mass., Nov. 1.—Professor Alexander Graham Bell the inventor, Theodore H. Vail, president of the American Telephone and Telegraph company, and a number of other men conspicuously identified with the history of the telephone and the development of the telephone business in America are coming to Boston tomorrow for the first reunion of the Telephone Pioneers of America. This city, where Professor Bell lived when he perfected the telephone and where the first practical exchange was established, was appropriately chosen as the first meeting-place of the association. The reunion will last three days.

Camels are the only animals that can not swim.
