Residence Caught Afire—  
Couple Unable to Leave  
Their Home.

(National News Association)  
SEYMOUR, Feb. 10.—Chas. King and wife were burned to death when their residence caught fire on the outskirts of this city last night.

Mrs. King was bedfast with a fractured hip and was dragged out by neighbors. The flesh fell from her body in chunks. She died within a few minutes. King was found dead huddled in a corner of the kitchen, smothered to death by smoke. Both were elderly.

## ECZEMA ITCHED SO I COULDN'T STAND IT

Began by Little Pimples. Scratched Until Blood Came. Kept Getting Worse. Could Not Sleep Nights. Used Cuticura Soap and Ointment and the First Day They Relieved Itching. In 3 Weeks Eczema Cured.

"I suffered with eczema on my neck for about six months, beginning by little pimples breaking out. I kept scratching till the blood came. It kept getting worse. I couldn't sleep nights any more. It kept itching for about a month, then I went to a doctor and got some liquid to take. It seemed as if I was going to get better. The itching stopped for about three days, but when it started again, was even worse than before. The eczema itched so badly I couldn't stand it any more. I went to a doctor and he gave me some medicine, but didn't do any good. We have been having Cuticura Soap and Ointment for about a month, and I decided to try them. I had been using Cuticura Soap, so I got me some of Cuticura Ointment, and washed off the eczema part with Cuticura Soap three times a day, and then put the Cuticura Ointment on. The first day I put it on, it relieved me of itching so I could sleep all that night. It took about a week, then I could see the skin come off. I kept the treatment up for three weeks, and my eczema was cured."

"My brother got his face burned with gunpowder, and he used Cuticura Soap and Ointment. The people all thought he would have scars, but you can't see that he ever had his face burned. It was simply awful to look at before the Cuticura Remedies (Soap and Ointment) cured it." (Signed) Mrs. Elizabeth Gehrig, Vermont City, Ark., Oct. 16, 1910.

Although Cuticura Soap and Ointment are sold by druggists and dealers everywhere, a liberal sample of each, with 25-page booklet on the skin and hair, will be sent, post-free, on application to Foster Drug & Chem. Corp., Dept. 173, Boston.

## MINERS ARE RESCUED

After Being Entombed in a  
Mine 24 Hours.

(National News Association)  
DANVILLE, Ill., Feb. 10.—Fifty miners entombed in the Fairmount coal company's mine, were rescued this forenoon. After working nearly 24 hours the rescuers succeeded in clearing the air shaft of ice and debris, so that ropes could be lowered to the imprisoned men. One by one they tied the rope about their bodies and were hoisted to the surface. The men suffered greatly from the cold, but otherwise were in good condition. Anxious wives, mothers, sisters and children joined with the rescuers and cheered in wild cheers when the last man was brought to the surface.

## GHOSTLY BUTTERFLIES.

A Species in British Guiana Whose Wings Are Transparent.

In "Our Search for a Wilderness" Mr. William Beebe of the New York zoological park describes his first sight of the transparent butterfly—Hoetera piersa—of British Guiana, an insect through whose outstretched wings any substance on which it rests can be clearly seen.

As we crossed a swirling creek on the trunk of a mighty fallen tree something fluttered ahead. We could not see what it was. Closer we came, and still the object remained indistinct. We seemed to see a butterfly, and yet that appeared impossible. At last we marked it down on a fern frond and crept up until our eyes were within two feet of it. Nothing was visible but the graceful lacework of the frond until a slanting beam of sunlight struck it, and there, close before us, was the ghost of a butterfly.

It spread fully three inches, but was wholly transparent, save for three tiny spots of azure near the margin of each hind wing.

As we looked it drifted to a double headed flower of scarlet, and when it alighted the scarlet of the flower and the green of the leaf were as distinct as if seen through thin mica, and the faint gray haze of the insect's wings was marked only by the indistinct venation.

The appearance of this ghostly butterfly amid the silence and awe inspiring stillness of the reeking jungle was most impressive.

## INDIANA TEAM WINS

Defeated Earlham in a Fast,  
Exciting Game.

Fighting every minute of the game the fast Quaker quintet went down in defeat before the superior strength of the Indiana University team last night by a score of 25 to 13. Neither team was able, owing to the condition of the floor, to play its best game. The floor had been prepared for a dance a day previous and was so slick that neither the players nor officials were able to keep on their feet. Despite this fact the game was the fastest seen here this year.

Throughout the second half the Quakers were unable to get next to the visitors. Fast team work, superior strength and accurate shooting proved the death of the locals. Lineups:

Indiana	Forwards	Freeland, McCullough	Berry
	Center	Munkiet	Gilbert
	Guard	Graves	Brownell
	Guard	Davis, Capt.	Wolf
	Guard	Slayton	Furnas

In a preliminary game the Rushville high school went down in defeat before the local high school to the tune of 22 to 4. The locals scored 16 points to the visitors 2 in the second half. Schepman and Laning starred for the locals. One of the features of the game was Nicodemus throwing a goal from the middle of the field. This game puts Richmond in the lead in the district.

## BANK BUILDING IS DAMAGED BY FIRE

(National News Association)  
ST. PAUL, Feb. 10.—The Scandinavian American Bank building was gutted by fire early today. The loss is half a million dollars.

## "Pot Wallopers."

In certain districts of England formerly when an owner parted almost entirely with other rights to a house he would reserve the right of boiling his pot on the fire. This secured to him the right of voting and, what was of more importance, the position of being a freeholder. At Taunton, for example, the voters were called "pot wallopers" because they had the rights to "wallop," or boil, their pots at the fire in their freehold houses. Sometimes when a person parted with a long lease, but not with the freehold of a house, it was expressly stipulated that he should keep the right to boil his pot on the fire.

## The Way of a Blasphemer Was Hard.

The lot of the blasphemer was a hard one in the old days. There was the case of Taylor, for instance, who spoke his free thinking views in the market place at Guildford in the reign of Charles II. "The court," so runs the old report of the case, "fined him 1,000 marks. Imprisonment until Suerter for Good Behaviour for life, and Pillory at Guildford and at Westminster, Chapside and Exchange, with a Paper for Horrid Blasphemy." The paper, of course, was placed above his head in the pillory.—London Chronicle
