

CHARITY MEETING AT CLEVELAND, O.

Big Conference Will Be in Session at Lake City for Entire Week.

CLEVELAND, O., June 12.—The most notable gathering of its kind ever held in America is the designation applied to the annual meeting of the National Conference of Charities and Correction, which assembled in Cleveland today for a week's session. In addition to the conference proper meetings are to be held simultaneously by the American National Red Cross Society, the Federated Boys' Clubs of America, the National Federation of Remedial Loan Associations, the National Association of Public Relief Officials and the National Association for the Advancement of Colored People.

The several gatherings have attracted to this city a mighty host of prison reformers, settlement workers, practical philanthropists, charitable visitors, officials of public institutions, heads of juvenile republics and other men and women who have made their life's work the scientific study of the best means of caring for or reforming the defective and incorrigibles, feeding the hungry, clothing the naked, educating the ignorant and reforming the transgressor.

The national conference will devote most attention this year to problems relating to the improvement of the condition of the working classes. Under this general head many men and women who are well qualified to deal with the subject will discuss the problems of congestion of population, the economical and physical effects of the eight-hour day, the hazard of labor in coal mining and other dangerous occupations, the high cost of living as affected by industry and as affecting poverty, the relations of employers and employees and numerous kindred subjects.
