Heat lightning, or sheet lightning, is the name given to broad flashes of light, unaccompanied by thunder and usually near the horizon, seen when there is a storm at a great distance. They are commonly due to the reflection by the clouds of the discharge proper. Sheet lightning has also been described as occurring when there is neither storm nor cloud. If such cases be authentic, the phenomenon is probably due to weak electrical discharges in the air at a considerable altitude.—New York Times.

MR. RENT PAYER:

Do you know that the \$10, \$15, \$25 that you are spending every month for RENT could just as well as not be paid on a HOME of your own? Don't let the LANDLORD make you believe there is nothing saved by owning your own home. If so why does he own houses to RENT?

No difference what your Political Faith may be, but be PROGRESSIVE in your business life, and commence TODAY to pay that RENT money on a HOME of your own. We have 100 houses that we can sell you with a small payment down, and the balance like rent. Let us start you on the road to Prosperity and Independence.

Remember the date of our next Excursion to Florida, next Wednesday, Nov. 6th. Only \$25.00 round trip, 25 days' time, and your Hotel Bill paid while there. GO WITH US.
