

JEERING HOODLUMS DISGRACED NATION

More Votes Made For Women Suffrage By Treatment of Marchers.

BY CLYDE H. TAVENNER, M. C.
WASHINGTON, March 21.—More votes were made for women suffrage in the city of Washington on the afternoon of March 21, than will perhaps ever be made again in the same length of time so long as the government stands.

Reports of the treatment accorded respectable women—respectable mothers, respectable wives, respectable daughters—while they were conducting themselves in an unoffensive and dignified and entirely respectable manner, have not been exaggerated.

The scenes were a positive disgrace to that beautiful avenue in which they occurred—Pennsylvania avenue—made historic by Abraham Lincoln and a host of other great Americans; a disgrace to Washington and to the Nation.

What American is not made ashamed by the thought that in the very heart of the capital of our country, boasted of as our "model American city," aged women, as old as 82 years, in whose gray hair and wrinkled faces there was certainly nothing to jeer at—that these old ladies should be deserted by the police in the midst of a crowd of jeering hoodlums.

This is no exaggeration. Such scenes, more's the pity, actually took place. It was a thing to make the blood boil in every man that has respect for his mother, his wife and his sister. It is not a matter of whether woman suffrage is right or wrong; it is a matter of whether respectable women shall have the same kind of protection as men in the public thoroughfare, and whether all respect for womanhood has been abandoned.

The writer, with his wife, occupied two seats in the market grandstand on Pennsylvania avenue. Although there were tens of thousands in the street, we never saw more than six policemen at one time during the period that the parade was passing. There were periods of ten and fifteen minutes when not a single policeman was in sight, in which intervals the crowd completely blocked the women marchers, taunting and jeering them, crowding against them, catching the brides of the horses, and making motions as if to grab the marchers by their arms. There were no police to protect the women, but when it was

STOMACH MISERY JUST VANISHES.

Time It! No Indigestion, Gas or Sourness five minutes after taking "Pape's Diapiesin."

If what you just ate is souring on your stomach or lies like a lump of lead, refusing to digest, or you belch gas and eructate sour, undigested food, or have a feeling of dizziness, heartburn, fullness, nausea, bad taste in mouth and stomach headache—this is indigestion.

A full case of Pape's Diapiesin costs only fifty cents and will thoroughly cure your out-of-order stomach, and leave sufficient about the house in case some one else in the family may suffer from stomach trouble or indigestion.

Ask your pharmacist to show you the formula plainly printed on these fifty-cent cases, then you will understand why dyspeptic trouble of all kinds must go, and why they usually relieve sour, out-of-order stomachs or indigestion in five minutes. Diapiesin is harmless and tastes like candy, though each dose contains power sufficient to digest and prepare for assimilation into the blood all the food you eat; besides, it makes you go to the table with a healthy appetite; but, what will please you most, is that you will feel that your stomach and intestines are clean and fresh, and you will not need to resort to laxatives or liver pills for biliousness or constipation.

Sage Tea Beautifully Darkens The Hair when Faded and Gray

Mixed With Sulphur Makes Hair Soft, Lustrous and Cures Dandruff.

The use of Sage and Sulphur for restoring faded, gray hair to its natural color dates back to grandmother's time. She kept her hair beautifully darkened, glossy and abundant with a brew of Sage Tea and Sulphur. Whenever her hair fell out or took on that dull, faded or streaked appearance this simple mixture was applied with wonderful effect.

But brewing at home is messy and out-of-date. Nowadays skilled chemists do this better than ourselves. By asking at any drug store for the ready-to-use product—called "Wyeth's Sage and Sulphur Hair Remedy"—you will

desired to run a street car through the throng, a cordon of no less than 30 policemen appeared to escort it. And it went through!

The Cotton Tariff Robbery.
The American people are paying annually about \$80,000,000 more for their cotton goods than they ought to pay, because of the iniquitous Payne-Aldrich tariff law. The 63d Congress is preparing to interfere with this robbery. There will be a big downward revision on all kinds of cotton goods. The cotton schedule of the Payne-Aldrich law carries an average duty of about 53 per cent. This means that every article of cotton cloth, every piece of cotton yarn that comes through the custom house, has 53 per cent added to its foreign price. And on cotton goods that do not come through the custom house, but are manufactured in this country, the 53 per cent is added just the same by the home manufacturer.

When the tariff on cotton goods is reduced one-third or one-half of the present rates, this article so much used by women and children, may be had at a price more nearly representing the actual value of the goods.

Murray.
If you have not visited the Murray this week, don't fail to do so today or tomorrow as that will be the only opportunity to see Minnie Palmer's "Golden Gate Girls" in that musical farce comedy, "The Duke of Durham," two matinees will be given tomorrow. This attraction has proven to be one of the best entertainments furnished at the Murray this season.

"The Light Eternal."
Easter week and the passing of the Lenten season will be fittingly observed at the Gennett Theater afternoon and evening of Wednesday, March 26th, when "The Light Eternal," that excellent drama of the early Christian period which was seen here Christmas will play a return engagement. This extraordinary play was pronounced by all who saw it to be the most appealing and devout drama offered on the local stage, and at the same time to be an intensely interesting and stirring drama aside from its religious interest.

"The Light Eternal" follows much the same trend as "The Sign of the Cross," and kindred plays, though it lacks some of the objectionable features and contains some added strength. It is neither doleful nor censure—but rather takes up a brisk clean dramatic action at the very start and maintains it to the final curtain.

"The Rose Maid."
Werba & Luescher, producers of New York's latest big comic opera success, "The Rose Maid," are said to have ignored old fashioned comic opera convention in this—their latest work—the same as they did with "The Spring Maid," their first big musical success. "The Rose Maid" is invested with an atmosphere of joyousness that starts at the rise of the first curtain and continues through the entire action. The action opens with a gay house party in Liberty hall, the young Duke of Barchester's London house, and ends with a brilliant cavalry tournament in Ostend. In the latter scene the stage is filled with horsemen and horsewomen of all the principal nations of the world—each wearing the gorgeous uniforms of their respective army. "The Rose Maid" was the best liked of all the operas in New York since "The Spring Maid" and will be presented here with the same elaborate production and extravagant detail that made it the vogue on Broadway during the past summer. "The Rose Maid" will be the attraction at the Gennett Theater, Saturday, March 29th.

RAILROAD PLANS TO PAY SEMI-MONTHLY

Pennsylvania Company to Comply With Statutory Requirements.

Complying with statutory requirement by a number of states, the Pennsylvania, will, shortly, institute a semi-monthly pay scheme and everybody on the rolls of the system will welcome the innovation unless it be, perhaps, the officials and attaches of the treasury department and the paymaster and their assistants. At present, monthly payments are made for services as has been the practice from the beginning. In some states, including Indiana, however, the semi-monthly payments of employees by corporations are required by law and bills have been introduced in the Pennsylvania legislature at one time or another looking to such an innovation there, none of which has been enacted into law as yet although it is only a question of time until one of the will be. Hence the action of the Pennsylvania system, the policy of the management of which is to anticipate a public demand, if possible.

In this connection, a certain degree of certitude that the increase of pay for all classes of unorganized labor has been determined upon definitely, although the new scale will not become operative until the disputes between the system and its firemen and, possibly, its trainmen, since the latter are demanding advances, also, shall have been adjudicated which will not be for some time to come.
