

"NOTHING DOING" IS ANSWER SENT

Appeal of Club For Assistance For Ohio Cities Disregarded.

NO FUNDS FROM U. S.

Senator Kern Wires Swayne That Red Cross Has Much Money.

The announcement that the flooded districts of Ohio and Indiana would not receive one cent from the United States Government was received with great surprise in this city. The announcement to this effect was made by Representative Fitzgerald, chairman of the appropriation committee, who holds the purse strings of the U. S. treasury.

Monday night President Swayne wired Senators Kern and Shively and Representative Flinly Gray asking that an appropriation be made to help the homeless people of the flooded districts. The directors of the Commercial club, who unanimously indorsed the motion to send the telegram, believed the national government would at least make provision for persons who are destitute and without funds. If nothing more could be done it was believed the U. S. congress would restore their homes.

Fitzgerald's Opinion.
Fitzgerald said he did not understand why the states of Indiana and Ohio should ask the federal government to make provisions for the inhabitants of these states. "The states are rich and capable of caring for their people, he said. He further stated that the floods were over and in the future provisions would be made to prevent a repetition of what has already happened. He believes the work is being carefully handled by competent relief committees.

Vice-president Marshall yesterday stated he would make provisions to have an army engineer sent to Brookville, Ind., to draw up plans or make recommendations for guarding against future floods. Secretary of War Garrison has been swamped with appeals from all parts of the flooded districts asking that engineers be sent to give advice relative to making repairs to insure against future floods.

Senator Kern Wires.

Word has been received by President Swayne from Senator Kern that the Red Cross society has a large unexpended balance which could be partially devoted to the relief of the sufferers. Members of the Richmond Commercial Club are not disheartened at the statements of Fitzgerald and it is believed he can be influenced to change his stand. "If he could only see conditions as we have seen them he would not take the attitude he has," said a member of the local relief committee.

CHILDREN IN OHIO TOWNS TO RECEIVE TOYS FROM PUPILS

The children of Vaile school on South Fourteenth street deserve great credit for their generous response to the suggestions made to them that they bring toys to the school to give to the children of Dayton and Hamilton, whose toys were lost in the floods.

The school children have gathered dolls and all kinds of toys which will gladden the hearts of the children of the stricken cities who receive them. It is probable that other schools of the city will follow the example of the children of the Vaile school, many of whom sacrificed little treasures which they had received from Santa Claus, or which had other fond memories connected with them making them especially precious to their owners.

ENUMERATION TO BE STARTED TOMORROW

Housewives in the City and County Requested to Answer Questions.

NAMES OF CHILDREN

In Addition to This Enumerators Must Get Veterans' Names.

The members of the school board wish to assure the mothers of Richmond that the man who bothers them with personal questions such as, "how many children have you" is an employee of the county, temporarily, at least, and is not asking the questions out of mere curiosity. Many times the men are forced to contend with such embarrassing questions as that of having the doors slammed in their faces. Housewives are liable to the extent of a fine of \$5 for refusing to give the desired information. For every child in Wayne county which is unrecorded by the census takers the county loses \$5 from the state treasury. As the money turns into the treasury from Wayne county is far greater than the amount received, an effort will be made to get the name of every person between the ages of 6 and 21 years.

The men who were appointed by the school board to work out the enumeration in this city are Richard Moore, Richard Study, George Bishop and two others to be appointed late this afternoon.

Those appointed to do the work in the township are Thomas F. Swain and Charles Crawford. The work will start tomorrow and must be completed by April 30.

In addition to obtaining the names and ages of children between the ages of from 6 to 21, a census of the Civil and Spanish American War veterans will be made.

INDIANAPOLIS MAY SECURE FACTORIES

American Creosoting Company Acquires Site in That City.

(National News Association)

INDIANAPOLIS, April 9.—The American Creosoting Company, a \$2,000,000 corporation, has purchased approximately fifty acres of land at a point near Sherman drive and the storage yards of the New York Central system, in the southeastern part of the city, and it is reported that operations will be begun within a very short time on the erection of a mammoth plant, the cost of which may reach \$500,000 or more.

The company has been working quietly in acquiring the property to be utilized for its plant and full details concerning the corporation's plans have not been disclosed. The first public intimation of the deal came yesterday with the filing of a deed in the county recorder's office by which Mrs. Lucinda A. VanDeman conveys to the corporation title to thirty-six acres of ground at Sherman drive and the New York Central tracks for \$28,605.

Junior Auxiliary of St. Paul's Episcopal church will give a Food Sale Saturday, April 12—2 o'clock, Parish House.

GOVERNMENT WILL SELL TIMBER LAND

Department of Agriculture Has 70 Million Feet of Tract.

(National News Association)

WASHINGTON, April 9.—The Department of Agriculture has begun advertising two large tracts of timber which aggregate 750 million feet on the Payette River within the Boise and Payette National Forests, Idaho. The district forester at Ogden, Utah, will receive bids up to and including June 1, 1913, and for an additional month if intending purchasers wish more time to examine the timber before deciding on their bids.

While the bids received through competition will determine the rate at which the timber will be sold, the Department, as the result of a careful study, has placed a minimum price which will be considered on the timber, according to species and situation. These prices range from \$2.50 a thousand feet for western yellow pine in the most accessible places, down to \$1.00 for the least valuable and least accessible timber. The initial rates will be subject to readjustment in 1918 and in 1922. By such readjustment the stumpage price may be modified twice at four-year intervals during the twelve years which will be allowed for the removal of the timber.

The department officials point out

that, in sales of such a large quantity of timber, it is necessary to allow a long term contract because of the magnitude of operation and investment. The fact that many large sales have been made with readjustment clauses indicates, it is held, that timber operators find the method businesslike and practicable.

The timber to be cut lies on the watersheds of the South and Middle Forks of the Payette, and bids will be received for any or all of the timber on either fork. It is accessible to southern Idaho, which is developing rapidly and in which the demand for timber will increase.
