

SMUGGLED AIRSHIP OVER THE BORDER

Into Mexico Charge Made
Against R. M. Graeme,
An American.

(National News Association)
DOUGLAS, Ariz., June 19.—United States secret service agents all over the country have been notified to be on the lookout for R. M. Graeme, who is charged with complicity in the theft of an aeroplane from the custom authorities near Tucson, Ariz., recently, and in the subsequent smuggling of the machine across the line into Mexico.

Graeme was reported to be in the pay of the insurgent government in Sonora. He came here from Los Angeles and is believed to be enroute for New York.

Gen. Luis Torres, formerly military governor of Sonora, whose \$5,000,000 estate near Hermosillo was recently confiscated by the Mexican insurgents, has left for Los Angeles Cal. from which point he will conduct a "peaceful campaign" against rebellion in Mexico.

Rebels Concentrating.

Large bodies of insurrectos are concentrating south of Agua Prieta. The troops are undisciplined and are suffering from the ravages of smallpox and from the tropical heat which prevails over the desert stretches of Northern Mexico. Many federals are deserting and are becoming bandits. Big ranch owners in Northern Mexico have petitioned the government for permission to organize a body of police, after the style of the Texas rangers, to protect their property.

THIRTY ARE EXECUTED.

EL PASO, Tex., June 19.—Refugees reaching here on a handcar today told of the execution of thirty Mexican federal soldiers at Bustillos in the state of Chihuahua. The men were killed by insurgents under Gen. Francisco Villa, following the discovery of a plot for the federals, who were prisoners, to escape.

Making It Hard to Be Happy.

A Picture of Life.
A colored philosopher is reported to have said, "Life, my brethren, am most made up of prayin' for rain and then wishin' it would cl'r off."—Presbyterian.

President Wilson is much interested in making the 1915 fair a success and also has talked with the German ambassador on the subject.

France Has Accepted.

So far France is the only big European power that has formally accepted the invitation of the United States to participate in the Panama exposition. Russia has held aloof out of spite for the abrogation of 1832 treaty; England has stood back because of the Panama canal tolls controversy, and Germany has refused to take part for two reasons; first, the expense and secondly because German commercial interests fear they may suffer as a result of the new United States tariff.
