MANY ENTRIES FOR MOTORCYCLE RACES

F. A. M. to Assign Officials for the Fourth of July Event.

CONCERTS ARRANGED

Eight Events Will Be Held and \$130 Offered in Prizes.

Many entries for the races to be held at the driving park track, east of the city, on July 4, have already been received. The races will be held under the auspices of the Richmond Motorcycle club, with the sanction of the American Federation of Motorcyclists.

At the meeting of the Richmond club, to be held in its rooms in the Colonial building Friday evening, further arrangements for the races will be completed.

Eight events have been arranged. There will be four ten-mile events, one five-mile, one three-mile, one one-mile, and one twenty-five-mile race. The first race will be called at 2:30 o'clock. The prizes range from \$5 to \$15 for first places in the various events. In all, \$130 in prizes is offered.

Work on the grandstand will be started the latter part of this week or the first of next week.

The club has arranged to have a band of eighteen pieces to furnish a concert during the afternoon.

HOT LINERS OFF THE BAT

The Red Sox, Senators and White Sox are engaged in a mighty tussle for third-place honors in the American league. Each team has held the position for at least one day during the past week. Just now the Senators are third with .541, and the White Sox are fifth with .531.

Cravath, of the Phillies, fattened his batting average off the offerings of James, the Braves' twirler, yesterday, getting a single, two doubles and a home run in five times up.

With the score of 6 to 2 against them, the Reds began an uphill fight in the sixth inning of their game with the Pirates yesterday and won out by a 7-to-6 score.

Five doubles, three triples and a home run added to six singles gave the Phillies an 8-to-3 victory over the Braves yesterday.

Doc Johnson, the Naps' first sacker, may be out of the game for several days as the result of injuries received Sunday in a collision with Ty Cobb, who was so badly bumped he had to retire from the game at once.

The Dodgers won the first game from the Giants in the tenth inning on a home run by Zach Wheat, making their seventh straight victory, but lost the second, 5 to 1.

The Athletics hammered the offerings of the Red Sox pitchers to all parts of the field yesterday and won an easy 13-to-4 victory.

Included in the fifteen hits amassed by the Athletics were a single, double and triple by Baker, two home runs by Barry, a double and two singles by Walsh, a double and a single by Collins, two singles each by Oldring and Melnis, and a single by Eddie Murphy.

Manager Frank Chance of the Yankees vows that his team will not finish lower than sixth place. Right now such a vow does not seem to be hard of accomplishment, as the cellar champions are only 98 points behind the sixth place Tigers.

Chance, by the way, is already building for next year. He has just signed four recruits and has option on a number of other youngsters who will report during the summer. All these players will be given a thorough try-out during the regular playing season.

In Brooklyn there's a movement on foot to have the nickname of the Brooklyn club changed from the Dodgers to the Giant Killers or something equally bloodthirsty. Last year the Dodgers were the softest sort of picking for the New Yorkers. This year the Dodgers have taken five out of seven games from McGraw's aggregation, and one of the two Giant victories was a 13-inning affair.

Connie Mack has gone on the stage and is a vaudeville partner of Mike Donlin, the former slugging outfielder. However, the Connie here mentioned is not the gent who guides the destinies of the Athletics. Connie is a girl; a pretty one, too, and she energetically asserts that when she adopted her stage name she never intended infringing on Mr. McGillicuddy's patent.

The White Sox and the Browns battled in a double header yesterday, the St. Louis aggregation winning the first and the White Sox the second after 12 innings by a score of 4 to 3.

Few invitations. Blinks—Hello, old chap, how's the world treating you? Banks—Very seldom.—Canadian Courier.

NOTHING IS IMPOSSIBLE.

CINCINNATI, O., June 24.—Cincinnati made a game uphill fight and won from Pittsburgh yesterday 7 to 6. The visitors had the locals 6 to 2 up to the sixth inning when Tinker, the first man up, singled. He strained his leg running to first and Berghammer ran for him, later going to short. Dodge followed Tinker with another single and Groh duplicated the hit, scoring Berghammer. Dodge later scored on an out. In the seventh Cincinnati scored two more when Marsans and Berghammer reached first on errors by Pittsburgh and scored on Alameda's two-base hit. The winning run was scored by Harter, who singled and was brought home by Baker's single.

Pittsburgh 3 0 2 0 1 0 0 0 6
Cincinnati 2 0 0 0 2 2 1 *—7

Runs—Byrne, Carey 2, Viox, Wagner, Miller, Bescher, Berghammer 2, Dodge, Bates, Marsans, Harter. Two-base hits—Bates, Alameda. Three-base hit—Miller. Hits—Off Cooper, 3 in 1 inning; off Camnitz, 7 in 6 1/3 innings; off Robinson, 1 in 2 1/3 innings; off Benton 5 in 3 innings; off Johnson, 2 in 3 innings; off Harter, 1 in 3 innings. Sacrifice hit—Wagner. Sacrifice flies—Marsans, Wilson. Stolen bases—Byrne, Carey, Viox, Wagner, Berghammer. Double plays—Caminitz to Wagner to Miller; Wagner to Viox to Miller; Dodge to Marsans. Left on bases—Pittsburgh, 5; Cincinnati, 9. First base on balls—Off Camnitz, 3; off Robinson, 1; off Benton 2; by Camnitz—By Benton, Byrne; by Camnitz, Bescher. Struck out—By Johnson, 1; by Harter, 1; by Cooper, 1; by Camnitz, 5. Wild pitch—Benton. First base on errors—Cincinnati, 2; Pittsburgh, 1. Time—1:50. Umpires—Brennan and Eason.

SHAMROCKS SUNDAY

The Cincinnati Shamrocks with Red Cline and Duke Williamson on the hurling staff will make things interesting for the Richmond team on the home grounds next Sunday afternoon. Last year Cline and Williamson were considered the best pitchers in the K. I. League.

NEW AUTO LAW IN EFFECT ON JULY 1

Many Inquiries Being Made Relative to the 1913 Statute.

Many inquiries are being made at the various public offices in this city relative to what automobile owners should do to procure a license in accordance with the 1913 statutes of Indiana. The law goes into effect July 1. The license must be obtained from the secretary of the state, the cost depending upon the horse-power of the machine. The sum of \$5 must be paid for machines of twenty-five horse-power or less, for machines between twenty-five and forty horse-power \$15, for machines between forty and fifty horse-power and \$20 for all machines over fifty horse-power.

An easy way to figure horse-power is to square the bore of a cylinder, multiply the result by the number of cylinders and divide by two and one-half.

Tail Light Switch

Another feature of the new law that many automobile owners have overlooked refers to the tail light. After July 1, all tail lights must be so arranged that they can only be switched on from the rear of machines. There must be no inside switching arrangement. The tail light must also be fixed so as to shine on the rear number enough to make it readable a hundred feet off.

SPORTING NOTES

(National News Association)
NEW YORK, June 24.—Four new recruits have been signed for the New York American league team. They are Dan Costello, a first sacker from Mt. St. Mary's college, Emmettburg, Md.; A. Williams, catcher, from Galveston, in the Texas league; Tom Hanley, southpaw, from Manhattan college; and Jay Rogers, catcher, from Richmond, of the Virginia league.

PITTSBURGH, Pa., June 24.—Manager Fred Clarke has signed Fred Komers the star outfielder of the Springfield team of the Three I League. Last week Clarke left on a mysterious journey and the object of his quest was not known until today. Besides Komers, infielder Cybert of the University of Arkansas and outfielder Earl Topham, of Bucknell, will join the Pirates crew.

PHILADELPHIA, Pa., June 24.—That he probably will be unable to pitch again this season was admitted today by Jack Coombs, the star twirler of the Athletics. The pitcher, who is ill at his Atlantic City home, is taking on weight at the rate of a pound a day which is not considered favorable by his physicians. Connie Mack and John Shibe visited Coombs a few days ago and to them he admitted his condition.

NEW YORK, June 24.—"The Old Master" showed in the second game with Brooklyn yesterday, that like the well made violin, the work of the real artist, and one of the favorite products of Kentucky, he improves with age. Christopher Matthews pitched just seventy balls to show that the Dodgers were beatable. The art lay in Matt's making the Brooklyn hit to the fielders. The one run he permitted Brooklyn to make, never should have happened. He made a Dodger hit a fly. A fielder muffed the ball and a runner reached third base. No attempt to stop the tally was made on the next batter, the Giants, with a safe advantage have decided to put out the last three invaders as quickly as possible.

ARTHUR PELKY WAS FOUND NOT GUILTY

(National News Association)
CALGARY, Alberta, June 24.—Arthur Pelky, charged with the killing of Luther McCarty in the ring here May 24, today is a free man and can go about unmolested in quest of future ring battles. "Not guilty" was the verdict of the jury. The jury was out less than an hour. Pelky was jubilant when he learned of the verdict. A big demonstration followed the announcement of the verdict and as Pelky stepped from the prisoner's box he was warmly congratulated. Pelky probably will continue his career in the prize ring and an announcement of his next fight is expected in the near future.

SPRUDELS TAKE GAME

The West Baden Sprudels, with whom the local team has a game on July 3, handed Elwood a surprise yesterday afternoon when they trimmed that team 2 to 0, with Otto Merz of the Indianapolis American association team up for the losers.

With Muscle and Brain.

The boy who can master the science and art of the higher craftsman will hold just as responsible place in the world as the practitioner at the bar, the occupant of the pulpit or the physician. Indeed, the wholly competent artisan, the worker with muscle and brain who knows how, is the backbone of the nation. If it were not for him there would not long be need for the specialized professions. He is the weaver of the larger social fabric, the mason who sets the foundation stones of the country's industrial structures, and many a man who is now a doctor, lawyer or preacher would not only be happier and better off, but enjoy more real dignity, if he, too, were one of the "sincere artisans" of the day.—Philadelphia Bulletin.

THIS CITY WILL BE WELL REPRESENTED

Delegation of Twenty to Attend Municipal League Meeting.

BARTEL'S RESOLUTION

Increasing Amount of Bonds to Buy Utilities to Be Presented.

A delegation of twenty persons is expected to attend the twenty-third annual Municipal League meeting at Gary, July 8, 9 and 10. At a meeting last night all the councilmen signified their intentions of attending the sessions. The local delegation will have a few minor matters to bring before the meeting, one of which will be a recommendation that the Municipal League committee on legislation prepare a bill for an act to increase the amount for which a city may issue bonds to purchase public utilities plants.

The councilmen will attend the league meeting in a body leaving this city at 12:18 o'clock, Tuesday, July 8, for Hammond. From Hammond, special cars will be run every fifteen minutes to Gary for the accommodation of those attending the league sessions. They will arrive there in time for the Tuesday evening program.

Another Special Session.
In order that there will be no business at the regular meeting the night before the councilmen leave, a special meeting will be held next Monday night to take up all business. The councilmen will then assemble the following Monday at the council chamber on the regular meeting night and hold a discussion of the plans of the league. Before leaving the city they will meet in a body at the C. & O. depot at noon.

There will be several important addresses at the sessions. No local persons will speak formally. The purpose of the league is to exchange ideas in governing municipalities and to discuss the problems with which officials meet every day.

Duncan Will Talk.
Among the lectures which probably will prove of more interest than any other is the address by Thomas Duncan, chairman of the public utilities commission, on "What Benefits are Derived by Cities from the Public Utilities Commission." This address will be given Wednesday morning at 9 o'clock "One City's Water Plant," an address by Robert H. McGrath, president of the board of works of Lafayette, Thursday morning, will be of interest to the local delegation, as it will be in conjunction with recommendations which will be presented by Richmond men.

Advocates New Law.
Councilman Will Bartel will present a resolution recommending that a bill for an act increasing the amount of bonds a city may issue to purchase public utilities be drafted.

At present the state laws permit the issuance of bonds for such purchases amounting to only 2 per cent of the taxable property of the community. The local council believes that this limit should be increased to 6 or 8 per cent. This recommendation will be made in the hope that an act will be passed by which the city of Richmond can secure funds to purchase the water works plant. There are twenty men on the program for the two day's sessions. Besides these, representatives of all the cities will be called upon for some discussion. The delegates will be busy every minute they are in Gary, as there will be speeches, smokers, trips of inspection, automobile tours and many other diversions to occupy the visitors.

THE FIRST WINDOW.

What is Supposed to Have Happened After it Was Made.

A window is an aperture in an otherwise unbroken wall. It, the said aperture, was invented for at least two reasons—one to provide air and the other to enable the light to penetrate the cell, thus saving candles, coal oil, gas or electricity, as the case and community and time may be.

No hotel proprietor ever invented the window. No record exists of the age or origin of the window, but common sense teaches us that some cave man started the custom of windowing habitations by poking a hole through the clay wall of his residence and finding the resultant light and air good to see and to feel.

Whereupon Mrs. Careweller sniffed contemptuously and fastened the branch of a fig tree over the newly invented window in such a way as to keep out as much light as possible.

"What's that?" inquired the head of the cave.

"That's a curtain," was the not uncertain answer.—Pearson's Weekly.

He Wanted to Know.

Henry, aged five, had two younger brothers. Henry's father had just moved and was busy laying the kitchen linoleum. In order to facilitate the work he gave Henry the task of furnishing him with tacks. The little fellow worked faithfully for half an hour. Suddenly, however, he turned to his father and said: "Papa, you like me best, don't you?" "Oh, I like all my boys," said the father.

"But don't you like me a little bit better than the others?" queried Henry. "I like all my boys equally well," answered the father.

"Well, papa," said the lad, after a moment's reflection, "what's the use of my handing you these tacks then?"—Indianapolis News.

The United States has ten rivers more than one thousand miles long.

OUR TOUGHEST WOOD.

Ossage Orange is Stronger Than Hickory or Honey Locust.

The toughest American wood is that of the Ossage orange, which is not an orange at all, but belongs to the nettle family. This has been proved by a series of tests made by the United States forest service, but the Indians knew it before the coming of the white man, and it was known to them as the bow tree, because they used it for making their finest bows.

Some idea of its strength may be had from a report made by the forest service, which shows that a block 30 inches long and 2 by 2 inches in cross section when bent breaks under a stress of 13,000 pounds, its nearest rival being a variety of the hickory called mockernut. When bent by the impact of a hundred pound hammer it stands a stress of 15,500 pounds, certain sugar maples and the honey locust being its nearest rivals. It exceeds the hickories, and its only rival in hardness, tested by the force required to imbed a .444 inch ball to one-half its diameter, is the honey locust.—New York World.

HOBSON WILL JOIN

WIFE IN ENGLAND

Centerville Woman Doing Evangelistic Work in That Country.

(Palladium Special)
CENTERVILLE, Ind., June 24.—Orlando Hobson, of Greenfield, who has been visiting Linley Morgan and wife here for several days will sail from New York July 2 for London to join his wife who has been doing evangelistic work in England for several months. Mr. Hobson will remain abroad until Mrs. Hobson has completed a year's work in England when they will return to America. The Hobsons are well known in this community.
