1,863,146 ANIMALS
KILLED IN 1 YEARIs Record in Slaughtering
Houses Under Federal
Inspection.

WASHINGTON, July 5.—Animals to the number of 1,863,146 were slaughtered in the federally inspected establishments of Indiana under government inspection in 1912. They consisted of 200,356 cattle, 43,704 calves, 76,815 sheep, 27 goats and 1,542,247 hogs.

The total number of animals inspected in the 790 slaughtering and processing establishments under federal inspection in 226 cities and towns in 1912 was 57,628,491. This is an increase of nearly 5,000,000 over the figures for the fiscal year 1911. Since 1911 the number of inspected establishments, including meat food factories has increased from 919 to 940. Of the animals inspected in 1912, cattle numbered 7,245,585, calves 2,277,984, sheep 14,979,354, goats 12,871 and hogs 33,052,727.

The total condemnations at the time of slaughter for diseases or other causes numbered 232,687 whole carcasses and 494,328 parts or other carcasses, or a total of 727,015 condemnations. In addition, nearly 18,000,000 pounds of prepared meat products were condemned on re-inspection because they had become unwholesome subsequent to the first inspection.

Chicago, with 12,910,506 animals slaughtered under federal inspection by the department of agriculture, leads in numbers. The other principal points of federally inspected slaughter are in the following order: Kansas City, 5,646,161; South Omaha, 4,409,656; New York, 3,034,655; National Stockyards (East St. Louis), 2,966,292; South St. Joseph, 2,671,443; Boston, 1,826,044; Indianapolis, 1,598,503; Sioux City, 1,520,607; Buffalo, 1,381,271.
