

CLUB TO DISCUSS MANY SUBJECTS

Voting Machines and Tuberculosis Hospital to Be Talked on.

The October meeting of the Commercial Club members, this evening, promises to be one of the liveliest held this year. The question of whether or not the club shall endorse a recommendation that voting machines be purchased by Wayne county will furnish a bone of contention. Advocates of the plan of holding elections with voting machines will make a determined effort to secure an endorsement of the club's special committee report, favoring voting machines. This report was presented at the meeting last month but was tabled until the meeting this evening.

Sentiment against the purchase of voting machines is very strong among club members and a number of men are planning to speak forcibly in opposition to the report of the special committee.

The question of whether the club shall or shall not go on record as favoring the purchase of a tract of land by the county for the establishment of a tuberculosis colony will be taken up. The public health committee of the club has never reported in favor of or against such an institution, the committee being divided on the question. All the committee members, with the exception of Dr. Charles Marvel, are in favor of the plan.

Dr. Severance Burrage, of Indianapolis, president of the Indiana Association for the Study and Prevention of Tuberculosis, will give a talk on the need of county hospitals for the cure of those suffering from the disease. Walter D. Thayer, state organizer of the organization was in the city this afternoon calling upon the representative business men and urging upon them the necessity of such an institution.

Among other things he will point out that, according to the reports of the organization, tuberculosis annually costs Wayne county \$270,000. The records show that on an average of 55 persons die yearly in this county of the disease.

The question of the endorsement of an appropriation for a hospital was referred by the Commercial Club to its health committee some time ago, but this committee at the last meeting of the club sent in word that it was not ready to report.

The West Richmond Improvement association, South Side Improvement association, Wayne County Medical society and the local Anti-Tuberculosis society have gone on record as favoring the erection of a hospital for the treatment of tuberculosis, but have waited for the Commercial Club to make the first definite move in asking for an appropriation for such a purpose.

RICHMOND OBSERVES COLUMBUS DAY

Four hundred and twenty-one years ago Sunday, Christopher Columbus, the Italian maritime explorer touched the shores of San Salvador just a short distance from the coast of North America and to commemorate that occasion the 1911 session of the Indiana General Assembly by special measure included it as one of the Indiana holidays. Yesterday was the anniversary of Discovery Day, but owing to the fact that it fell on Sunday the observance of the day was continued until today.

Banks, saloons and some other business houses closed. The observance of Discovery Day is more general in the schools. The history students, as well as others, devoted the recitation hour to the reading of stories concerning the life of the early explorer.

Agent Cobb, before leaving for the convention, announced his intention of starting a movement for the publication of a monthly or quarterly bulletin to be a clearing house for the ideas and experiences of the county agents.

INDIANAPOLIS, Oct. 12.—August Taube, 39, a buyer at the Union Stock Yards here, is in a critical condition at the Methodist Hospital as a result of an automobile accident late last night at Broad Ripple. An operation may be necessary to save Taube's life. Motorist Sharp, of an interurban car said that Taube was driving west at a terrific speed in the car tracks. The motorist did not shut off his power, as he expected the auto to turn off the track. Taube apparently did not see the car and crashed into it with terrific force. A young woman, giving her name as Maude Harvey, but who refused to answer any questions, was with Taube. She was thrown from the machine, but suffered only minor injuries.

Taube has been connected with the Blair-Baker Horse Company at the stock yards. A member of the Baker family said Taube was married and has a family living in Richmond, Ind.

FAMILY AT HOSPITAL.

Wife and Sister Believe He is Not Seriously Hurt.

Mrs. August Taube, 117 South Thirtieth street, and Mr. Taube's sister, Miss Alvina, who works at the Palais Royal left this morning for Indianapolis. Other relatives of the family received word from the hospital at noon today, that Taube suffered only minor injuries and would be able to leave the institution tomorrow.

Relatives of the family in Richmond say they know nothing of the identity of Maude Harvey, who was in the accident with Taube. Taube has six children, all daughters, the oldest being thirteen years old. Taube purchased the car less than a month ago and his relatives believe he was not sufficiently familiar with it to prevent an accident.
