

PROGRAM OUT FOR MEDICAL MEETING

Physicians of This Section to Meet At Oxford Oct. 2.

PATTERSON TO TALK

Dr. Garritt Pigman to Read Tribute of Late President.

The program and announcement of the ninetieth semi-annual meeting of the Union District Medical Association which will be held in Oxford, O., Thursday, October 23, has been made by Dr. David M. Stevenson, of this city. Dr. Stevenson is secretary of the organization.

The meeting will be a day of valuable instruction to the medical men of this section of the state. The main topic of the program is a discussion of "The Value of X Ray in the Diagnosis of Diseases of Digestion" which will be lead by Frank L. Ratterman, one of the prominent medical experts in Cincinnati, O. Dr. Ratterman is recognized as one of the leading spir-

IS YOUR SKIN ON FIRE?

Here is a Reliable Healing Application for Eczema.

Try this Remedy at Our Risk. "If I could only get relief from this terrible itching, I would give anything," said an eczema sufferer the other day.

It was very easy for us to advise in such matters now, for our new remedy (Saxo Salve) for skin diseases of all sorts, stops the itching right away.

But better than that it makes the skin healthy again. It is made so as to penetrate right into the skin and saturate every portion with its healing, germ-destroying power.

Even in a few days you can see that Saxo Salve is soon going to clear away the eruption.

No other skin remedy can do so much for you as Saxo Salve. It is guaranteed. If it does not satisfy you when used for any skin disorder we give back your money. Leo H. Fibre, Richmond, Indiana.

P. S. If you have eczema try Vinol to build up the blood. We guarantee it.

its in the experiments concerning the operation of the X Ray.

A Stereoscopic Lecture. Another feature of the day's work is the stereoscopic lecture of Dr. H. R. Alburger, of Indianapolis. The Captain of physical culture will speak on the subject "Personal Pathology and Uniform Findings." Dr. Merrill Ricketts, of Cincinnati, will read a paper.

In memory of the late Dr. J. E. Morris, of Liberty, Ind., president of the association, who died less than a month ago, Dr. Garritt Pigman, will read a paper as a tribute to the veteran physician. Dr. Morris died in Potoskey, Mich., at the age of 80 years. He was one of the charter members of the society and was an active worker. Dr. H. D. Hinckley, of Oxford, O., will also read a tribute to the pioneer physician.

The program for the meeting is arranged as follows:

The Value of X Ray in the Diagnosis of Diseases of Digestion—Frank L. Ratterman, Cincinnati, O.
"A Tribute to Dr. J. E. Morris"—Garritt Pigman, Liberty, Ind.
Our Deceased President—H. D. Hinckley, Oxford, O.
"Renal Pathology and Urinary Findings, Stereoscopic Views"—H. R. Alburger, Indianapolis, Ind.

Local Men To Attend.

RICHMOND PERSONS GRANTED PATENTS

William N. Parrish Gets Protection on Wire Weaving Device.

NEW BALING DEVICE

The Machine Automatically Places Wire Around Bales of Hay.

Patents on machines for the weaving of wire fencing have been issued to William N. Parrish by the patent office at Washington. Three other Richmonders were given the protection of the law for devices which they had invented or in which they had an interest. They were James E. Jones, pipe and shaft hanger; J. B. Dougan, automatic baling machine; Joseph H. Mills, structural material.

The machines perfected by Mr. Parrish are the culmination of a series of about twenty inventions and experiments, which have led to the development of wire looms, weaving a complete fence. The wire is fed into one end of the machines from large spools and comes out the other as fencing.

Machine Regulations.

The mesh may be regulated at any width. Instead of jerking and bucking when the intersections between the horizontal and vertical strands are made, the machines run smoothly all the time. One loom twists all intersections one direction while the other makes them in both ways, forming a knot.

One set of castings for holders of any length is the feature of the pipe and shaft hanger invented by Mr. Jones. The hanger is shaped like a

triangle, two feet being attached to the support. From these arms extend downward to the castings which holds the pipe or shaft. To raise or lower the shaft all that is necessary is to change the length of the arms.

Baling Device.

Wire is automatically placed round the bales of hay and clinched by the baling machine in which J. B. Dougan has an interest with Thomas S. Pearson and Theodore McConnel of Kokomo.

By means of threaded needles, the wire is passed through the bale as it is compressed. When the bale is full, the needles pass out from below clinching with the wire ends at the top of the bale. The wire is then cut, and the bale pushed from the compression chamber. This leaves the wire ready to receive the next bale. The hay and wire does not have to be touched by hand, the entire process being automatic.

Mr. Mills' patent was for material and designs for the decoration of castets.

A Gentle and Effective Laxative.

A mild, gentle and effective laxative is what people demand when suffering from constipation. Thousands have fully recovered their health by taking Dr. King's New Life Pills. Hugh Tallman, of San Antonio, Tex. writes: "They are beyond question, the best pills my wife and I have ever taken." They never cause pain. Price 25c. Recommended by A. G. Lukens.

High School Dramatic Society Elects Leaders.

The Dramatic society of the high school has elected the following:

President, Lawrence Jessup; vice-president, Mary Canby; secretary-treasurer, Helen Kenworthy; sergeant-at-arms, Russel Stout.

This club is the most popular one of the high school and has a membership of about sixty students. Several short, popular plays are selected each year and the parts are given out to members of the club who learn to read them with expression.

The plays are never memorized. The members divided into two groups this year, one for the purpose of giving the play and the other to criticize

The groups take turns about in this. The society meets every two weeks under the direction of Miss Flinck and Mr. Kelly of the faculty, and several times during the term spreads are given for the members. Once each year a short play is given for the entertainment of the whole school in chapel.
