Fund.

With today's session the annual meeting of the various boards and committees of the Friends Five Year's meeting which has been in session throughout the week, ends and the visiting church dignitaries will depart for their homes.

This afternoon's session was devoted to the choosing of a general secretary and his assistant. Although fifteen names were under consideration only three names will go up for a vote late this afternoon. The question of enlarging the general headquarters will also be discussed and should anything final be made it will be put to a vote.

Reports on Year's Work.

The chairmen of the boards and committees were present at the morning's session and presented brief reports of the year's work. Some of the reports considered by the executive board which did not come before other boards were, the peace report, Sunday school and church extension work.

The peace sentiment in the Friends church has thoroughly been sounded by thousands of copies of letters sent broadcast among Quakers of the world by the Peace committee of which Prof. Allen D. Hole is chairman. The committee report showed that very few letters protesting peace and the Friends doctrine have been returned to the committee as the majority of the Quakers are in favor of peace legislation.

Place Paper in Homes.

During the ensuing year an effort will be made to have a copy of "The Peace Messenger" the official organ of the peace committee in every Quaker home. The Sunday schools of the denomination will be the center of this year's activities. It is expected that a bureau of speakers will be arranged and lectures pertaining to peace will be made by the churchmen.

The committee in charge of the church extension work reports that it has assisted in the establishing of churches in Tennessee, Nebraska and South Carolina. Work of assisting the churches in other parts of the United States was recorded but no additional churches were erected except in the above mentioned fields. The Sunday school committee filed its report which recorded the installation of many additional schools in the west.

Advocate Vocational Training.

A gift of \$2,500 from the New York Yearly meeting to be used in the fund for the negro schools was accepted by the board in charge of negro af-

RHEUMATISM AND BRIGHT'S DISEASE

Prof. Budlong Was Quickly Relieved of
Both Afflictions by Using Rheuma.

If you suffer from any form of Rheumatism, remember that Rheuma goes to work quickly to remove the cause, not simply to relieve the distress. Many years' use has demonstrated that it goes to the seat of the disease and expels the poisonous matter through the natural channels—the kidneys, bowels, liver and skin.

"For many years I was troubled with Rheumatism, also with Bright's Disease of the Kidneys. I suffered awfully. Tried many advertised remedies. After using your truly remarkable preparation, RHEUMA, I was fully cured."—Prof. C. J. Budlong, Sound View, Conn.

RHEUMA is guaranteed by Leo H. Fihe who sells it for 50 cents a bottle.

fairs. The Five Year's Board controls three schools: Southland College, Arkansas, Christiansburg Institute, Virginia and Five Point Normal Institute, in North Carolina. It is possible that vocational training will be adopted more widely in the three schools as that is the recommendation of the committee.

The negro affairs board is composed of Albert S. Hall, Fairmount, Ind., secretary, Miss Caroline Woods, New York, Albert S. Rogers, Toronto, Can., Isaac Johnson, Ohio, and Mrs. Allen Hole, of Richmond.

URGES STUDENTS TO CARE FOR BODY

Dr. S. E. Bond Speaks to Pupils
At Regular Chapel
Exercises.

The importance of taking care of the body was the theme of Dr. S. E. Bond's talk at the high school chapel this morning. Life is a miracle, he said, and no one had been able to create it as the chemist creates things by combining elements. Only God alone had the power, he said, and for this reason he said each person was under moral obligation to his Maker to take care of his body.

November 2 was announced as the date for the reception of the students and faculty to the parents and patrons of the school. A program of musical numbers by the orchestra will be arranged and the entire building thrown open for inspection. The high school orchestra played at the chapel this morning.

Relief From Constipation

It's Me for Dr. Edwards' Olive Tablets.

That is the joyful cry of thousands since Dr. Edwards' produced Olive Tablets, the substitute for calomel.

Dr. Edwards, a practicing physician for 17 years and calomel's old-time enemy, discovered the formula for Olive Tablets while treating patients for chronic constipation and torpid livers.

Dr. Edwards' Olive Tablets do not contain calomel, but a healing, soothing vegetable laxative. No gripping is the "keynote" of these little sugar-coated, olive-colored tablets. They cause the bowels and liver to act normally. They never force them to unnatural action.

If you have a "dark brown mouth" now and then—a bad breath—a dull tired feeling—sick headache—torpid liver and are constipated, you'll find quick, sure and only pleasant results from one or two little Dr. Edwards' Olive Tablets.

Thousands take one or two every night just to keep right. Try them. 10c and 25c per box. The Olive Tablet Co., Columbus, O.

Y. M. C. A. CAMPAIGN AGAIN POSTPONED

The Y. M. C. A. membership campaign has been postponed indefinitely, because of the adverse weather conditions. The continued rain for the last three days has made it almost impossible, said Harry Doan, chairman of the membership committee, for the teams of workers to make the canvass of the city.

The committee will meet with the directors soon to make arrangements for the campaign during the early part of November.

LITTLE DANGER OF SPREAD OF DISEASE

Medical Inspector Has Examined Students in the
No. 14 School.

There is little danger of a spread of scarlet fever among the pupils of the No. 14 school on the New Paris pike, according to Dr. George B. Hunt, special school medical examiner, and Dr. J. H. Kinsey, who is attending the three cases which developed in the school. Clifford, 9; Marie, 4, and Dorothy, 18 months, the three Beech children, who had the disease, will be released from quarantine Monday.

The school has not been closed, but Dr. Hunt has made an examination every morning since the outbreak of the disease in the Beech family. No other members of the family have contracted scarlet fever from the three younger children.
