company were well aware that they could adopt such a method of retaliation. The mayor accepted Mr. Bond's advice.

Superintendent Johnson of the city light plant raised the point that all public utilities have to give service to anyone who applies for the same and, he said, the deposit plan was a guarantee of protection against "deadbeats."

To this the city attorney answered that here were risks in every kind of business, but that the public utilities in Indiana had the advantage of other business not under the control of the public service commission, for, by consulting a rating book, they could require protection from unreliable people by compelling them to post forfeits. But, he added, this privilege would be abused if obtained at the cost of requiring all non-property holding patrons to post forfeits.

MANY TO ATTEND Y. M. C. A. MEETING

Local delegates to the forty-fourth annual convention of the Indiana Young Men's Christian association at Fort Wayne, Dec. 5, 6 and 7, have not been named. The board of directors decided that each member of the board should attend if possible or send some one to take his place.

As usual, one of the big events of the three-day session will be the business men's dinner on the evening of December 5, at which A. H. Lichty, state secretary of the Ohio Y. M. C. A. and C. B. Kessinger of Vincennes, president of the Indiana association, will be the principal speakers. The program for the dinner also includes a panoramic view of association activities in Indiana, the United States and foreign lands as well as the substantial growth of the institution in this state.

The meeting for men, which is also a strong attraction in annual convention events, will be held Sunday afternoon. President E. A. Haley, of Franklin college will make the address. While the men's meeting is in progress sessions for women and boys will be held in a number of Ft. Wayne churches, the speakers being selected from those on the convention program. Local committees are arranging automobile trips about the city for delegates arriving Friday morning. The parks and playground system will be inspected and some of the industries visited. It is announced that lodging breakfast and Sunday dinner in the homes of Fort Wayne residents will be provided for student delegates and others on request. Special rates have been secured at the hotels.

and a lady attendant always at the D. C. office, 306 and 307 Colonial Bldg. You may understand what Chiropractic is, better by telling you what it is not.

It is not drugs or medicine. It is not surgery, not electric treatment, not faith cure in any form, not magnetic healing, not osteopathy, not homeopathy, not massage or rubbing, not Christian Science, not a patent medicine, or a preparation that guarantees to cure all the ills of man. It is simply this: Chiro—means the hand, meaning hand practice. Nature has given the hand, when properly trained by man, the power to palpate along the segments of the spine and see if they are as Nature placed them. Palpate on either side of the spine and know which trunk nerves are tender, then by restoring the normal spine, pain and sickness disappears from any organ or tissue.
