

## CROWD SYMPATHIZES WITH DONALD NESTOR

Former Police Chief Relates Story of Stabbing of Richard Cook.

Sympathy of spectators at the trial in circuit court of Donald Nestor, charged with stabbing fatally Richard Cook four months ago in a fit of anger, seems to be with the defendant.

The indictment against Nestor, returned by the January term grand jury, charges him with first degree murder. No witnesses were placed on the stand yesterday after the selection of the jury. The first important witness of today was former police chief, I. A. Gorman, who captured Nestor.

Mr. Gorman related the story of his experience in the case. On October 6, the night of the stabbing, Cook came into police headquarters, partially under the influence of liquor and with blood streaming down the side of his face. He talked incoherently saying that he had been hit with something. He said he knew his assailant, but could not remember his name and could not describe him.

Obituary Confession.

The witness told of his investigations after the scissor blades were found in Cook's head. Mr. Gorman found the handles of the scissor and traced back the ownership until he found who had last had them. Through this, he made the arrest of Nestor and through "third degree" methods, secured a confession of the stabbing from him October 23, while Cook was lying at the point of death.

Dr. S. C. Markley, who first treated the wound in Cook's head, testified that he saw no evidence of anything having punctured the victim's brain but that had the brain been entered at the scissor points, at any of the centers on that side of the head, controlling the face, hands and legs, Cook would have shown it physically, whereas he spoke haltingly but coherently and was able to use his arms and legs.

Dr. John C. Teeter, a physician at the home town of Cook's parents, Pleasant Hill, O., treated the wound two days after the stabbing, he told the jury when placed on the stand. It was during the testimony of Dr. Teeter that a skull, the property of Court Stenographer J. F. Holiday, was introduced, Dr. Teeter pointing out the exact position of the wound and the direction taken by the scissors.

## CITY MUST REMEDY SEWER CONDITIONS

"Talk about open garbage cans and manure boxes being breeding places for flies, all you will, but the city has been tolerating the worst fly breeding in the city," declared President Davis of the board of works today. He referred to the very unsanitary conditions existing on North Twelfth and Thirteenth streets, north of the railroad, in which neighborhood there is no sanitary sewer.

Most unsatisfactory conditions were discovered in that locality yesterday when Mr. Davis and Mr. McMinn of the board, made a survey of the proposed section for the Morton park sewer system.

"Because there are no sewers on North Twelfth and Thirteenth streets it has been a common practice of the residents to dump dirty water and other slops into alleys and onto their premises, making that section most unsanitary and a favorite breeding place for flies," Mr. Davis said.

This locality will be tapped when the Morton park sewer system is constructed.

## FAVORS RELIGIOUS SERVICE AT FARM

Board of Commissioners to Appropriate for Expenses of Ministers.

County commissioners went on record today as favoring regular church services every two weeks at the Poor Farm and announced that they will appropriate enough money for the coming year to pay the expense of having a Richmond minister and two singers there bi-weekly.

This action was taken after severe criticism from the members of the Richmond Ministerial association when the commissioners, on the advance of the 1913 county attorney refused to re-emburse Superintendent Brumfiel for the expense of holding the services.

"We cannot legally refund the money which Mr. Brumfiel paid out for the transportation of a minister and two singers every two weeks," Albert Anderson, commissioner from the eastern district said. "We will not allow the bi-weekly services to be discontinued because of an expense of ninety cents every two weeks. We have consulted Attorney Hoolscher as to appropriating enough for the year to pay the future expenses which are incurred in holding the services."

Following a short meeting the commissioners went to the poor farm to arrange with Mr. Brumfiel some way of repaying him.

The question of reimbursing the superintendent arose several months ago when he presented a claim for the money and showed receipts from the commissioners whose expenses he had paid. He was told at the time that he should present the receipts at least every month and that the money he expended for religious services would be returned to him.

The ministerial association then took action censuring the commissioners for not refunding the money expended for religious services. It was done with the belief that the commissioners were opposed to holding services or opposed to paying for the transportation of the ministers, while in reality the action was taken in accordance with the law and with the county attorney's opinion.

The only expenses each service are thirty cents round trip tickets for three persons. This amounts to less than \$25 a year.

## ASKS DOCTORS TO PRESCRIBE RHEUMA

Agent Greenburg Shows Faith in One Rheumatic Remedy After Six Years' Suffering.

"3839 Cottage Grove Ave., Chicago, Ill., March 17, 1913.—For six years, on and off, as the weather would change, I have suffered agony from Rheumatism, the pains in my big toe, left foot knees, hips and groins being almost unbearable. At such times I hardly dared take a step for fear of another attack. I spent many dollars and became thoroughly disgusted with so-called Rheumatic remedies, until I tried RHEUMA. I was buying some liniment when your Peoria, Ill. agents recommended your remedy. I have since asked physicians to prescribe RHEUMA for Rheumatism. The train crews on the Rock Island Railroad, who saw me limping along using a cane, will verify my statements. Yours most sincerely," J. K. Greenburg, News Agent, Rock Island Railroad.

Anybody can afford to pay 50 cents to get rid of terrible Rheumatism, Sciatica, Gout, Lumbago, and that all RHEUMA costs at Leo H. Fine's, and he says if it does not do all that is claimed for it, money back.

RHEUMA costs very little, but it is one of the best remedies you can find to drive Rheumatic poisons from the system and bring back perfect health.
