PROPERTIES SELL FOR SMALL SUMS

Little interest was shown in the tax sale yesterday and as a result, sales were few and property which was purchased brought only the amount of the delinquent tax. There was no good property on sale.

Auditor Bowman accounted for the lack of interest in the fact that all those delinquent on property worth paying taxes for, had been notified several days before that their property would be sold for taxes, and had paid the amount of delinquency.

By notifying such persons, Treasurer Chamness collected more than \$4,000 in taxes, on property that would have been sold for delinquency.

Study of Bible in Schools Considered by State Board

President Robert L. Kelly, a member of the Indiana State Board of Education, left this morning for Indianapolis to attend a session of the board which probably will make a definite ruling on the question of introducing the study of the Bible in the public schools.

Dr. Kelly, as father of the proposed legislation regarding the introduction of the new study in the public school work, is present as a subject in behalf of the board. At the January meeting of the board President Kelly took charge of conducting the board's side of the question when it was being debated by representative men of the state.

At today's session of the board it is expected that more citizens will be asked to voice their opinions on the subject. There seems to be opposition to the introduction of Bible study on the grounds that it would tend to teach religious subjects rather than mere literature.
