

EXPLAIN PLAN OF NEW GUEST HOUSE

(Continued from Page 1.)

that these had been built to answer a need not met by the Y. W. C. A. "I went to the Bertha Ballard Home in Indianapolis. It now shelters one hundred women and girls. They pay from \$3.50 to \$6.00 a week for their accommodations and all enjoy the social intercourse and the pleasant atmosphere which is so seldom found in the boarding house."

"Knockerbocker Hall, another such home, has a matron who takes the place of mother to the girls."

Wilfred Jessup was called upon by the president. "Richmond is not facing the question of fallen woman as yet," he said, "but there is a real need for just such an institution as this. Our changed industrial conditions make it imperative that we have a comfortable and attractive home in which these women may support the selves with the comforts and advantages of the family circle."

"You deserve much credit for investing in the property you have bought. It was a fine business stroke and a splendid deal for you. Some say that you ought to wait until after the wet and dry fight is over. I can only reply that if Richmond can't raise \$30,000 in five days for a guest house, there is not enough interest in the other fellow here for anybody to care whether the town goes wet or dry. And I want to assure you that the shop men are heartily in sympathy with you and will give you a lot of support."

Miss Starr explained that the soliciting teams will meet at the Commercial club rooms March 1. Each captain will be given lists of one hundred names. The solicitors will go two by two, and they will have five days in which to call upon all these persons. The Commercial club rooms will be headquarters of the campaign. A meeting will be held next Wednesday evening in the Commercial club rooms, at which several addresses will be given by prominent men and women. The leaders hope to have a large attendance at this meeting.

FOUR DAYS' DELUGE DID GREAT DAMAGE

LOS ANGELES, Feb. 21.—The rain that has been falling heavily in Southern California for four days ceased today, but the storm left the entire lower half of the state in a badly crippled condition. No railroad trains were moving in the vicinity of Los Angeles and no street cars had turned a wheel since last night. Business was practically at a standstill. There was no wire communication with the outside world after 11 last night until this message was started on its way by a devous route to the east.

The loss of life so far as known, including the death of three persons reported yesterday, had increased to five by the drowning of rural mail carrier Rockwell and Reuben Hamlin, son of a millionaire, at Santa Barbara.

Property damage of an enormous amount was inflicted throughout the southern half of the state. Even an estimate is impossible.

TO OBSERVE DAY

Post office employees will observe Washington's birthday Monday by order of the post office department at Washington. City carrier will make one delivery while rural carriers will not work out of the office. The windows will be open until 10 o'clock in the morning and rural mail will be distributed there. The entire office will close at noon.

ARREST SOLICITOR ON THEFT CHARGE

Frank Saunders of St. Louis, a solicitor, was arrested yesterday on a charge of perjury. He is charged with stealing two fountain pens from Richmond home. He would ask for a glass of water, and when the woman of the house went to the kitchen to get the water he would snatch anything which happened to be in sight. He is being held without bond and will appear before Mayor Robbins Monday morning.

FAVOR PROPOSED CHARITY BUREAU

Expression in favor of the proposed city charities bureau under organization was made a matter of record at the meeting of the County Council of Charities yesterday afternoon in the Associated Charities rooms. It was decided that if a city federation is formed the county council will cease

its organizations affiliated with it.

TERRIBLE STRAIN RESULTED NOT AMISS

A Lenoir Lady, After Two Weeks
Grinding Labor, Feels
Better Than Ever.

Lenoir, N. C.—"I am not tired at all, and am stouter than I have ever been," writes Mrs. Kate Waters of Lenoir, N. C., "although I have just finished a two weeks' wash. I lay my strength to Cardui, the woman's tonic. I have taken a lot of it and I can never praise it enough for what it has done for me. I can never thank you enough for the advice you gave me, to take Cardui, for since taking it I look so well and am stout as a mule."

You are urged to take Cardui, that gentle, vegetable tonic, for weak women. Its use will strengthen and build up your system, relieve or prevent headache, backache and the ailments of weak women.

It will surely help you, as it has helped thousands of others, in the past 50 years.

FAVORS INSTALLING BATHS AT SCHOOL

Medical Inspector Makes a Recommendation for the Whitewater School.

Installation of shower baths in the Whitewater schools was recommended to Principal Ramsey by Dr. A. L. Bramkamp, school medical examiner, who advised them both from a standpoint of cleanliness and good health. Dr. Bramkamp said a big per cent. of the pupils of the school need medical attention and at least eighty per cent dental work. Poor tonsils and adenoids are prevalent.

Dr. Bramkamp has kept a close record of the health conditions in the school and stated today that much improvement could be made if a summer course for girls, in which the principles of good housekeeping were taught, would go far to correct the conditions there now.

"I know that many of the children go to school now without enough to eat. I don't know the per cent that are not fed enough, but I do know that a large per cent of the pupils are suffering from malnutrition due to ignorance of the mothers in preparing food," was Dr. Bramkamp's statement.

Dr. Bramkamp said many of the pupils were too proud or did not want to take the trouble to get medical aid free as it could be secured by application to the township trustee at the court house.

Shower baths were suggested because of the poor bathing facilities in the homes in that district. Tubs were tabooed in the recommendation of the medical examiner as being unsanitary for general use.

ASKS DIVORCE

Julia Kortright, 730 North Fifteenth street, has entered suit against Harry Kortright, of Hamilton, asking divorce and naming Nell Long, of Celia, O. She asks maintenance and custody of her four children, Udalus 15, Deloris 7, Malcolm 5 and Regina 3. Cruel and inhuman treatment and infidelity are the grounds.

MINISTER ARRIVES

The Rev. E. E. Davis, of Alexis, Ill., arrived in Richmond today. He was chosen a few weeks ago to fill the vacancy at the Second Presbyterian church. The new minister has been pastor of the Illinois church six years. The Rev. Mr. Davis will conduct services tomorrow morning and evening.

DRAPER WILL SPEAK ON THE "HEREAFTER"

Frank Draper of New York will speak on what we are to expect "Beyond the Grave." The doors will be opened free to all, and since the work of the I. B. S. A. under whose auspices the lecture will be given, is purely of an evangelistic nature, no collections will be taken.

The lecturer is a deep student of the Bible, and accepts it as his only creed or doctrine. He was for many years greatly confused by the many different theories as to what lies beyond the grave. After many years of careful searching, he succeeded in harmonizing every verse in the Bible pertaining to the Hereafter, and he now travels throughout the United States and Canada, presenting to the public what is often considered to be the most beautiful plan of salvation ever heard.

LAWYER "BUTTS IN" AND AVERTS STRIKE

W. O. THOMPSON.

It is not an easy task to prevent a strike of 60,000 who are bent on striking, especially workers of the Russian revolutionary type. Yet if the right man arrives, with a definite plan and the determination and ability to put it through, the task is not impossible. W. O. Thompson of Chicago, had such a plan, and after nine weeks of tireless working he has put it through. He has set in place the last cog in the new machinery of the "Protocol of Peace," in the cloak trade, by the introduction of J. E. Williamson of Illinois, as independent chairman on the committee of immediate action, which is to bring quick adjustment of grievances in the trade. A month ago even the most optimistic friends of the protocol (which has prevented garment trade strikes for the last three years) had about given up hope that it could be saved. But Mr. Thompson came to the rescue. When asked why he bothered, Mr. Thompson said: "Oh, I just butted in. It affects our Chicago protocol—it affects the entire national clothing industry."

BAPTIST QUARTET TO ATTEND MEETING
