

ASK CORN GROWERS TO JOIN ASSOCIATION

**Officers to Offer Silver
Trophy to County Having
Biggest Membership.**

LAFAYETTE, Ind., March 18.—The Indiana Corn Growers' association has done much to stimulate corn growing in the various counties. Through contests an attempt has been made to locate the best corn. The organization is now interested in locating the county having the largest number of active corn growers.

A handsome silver trophy is offered to the county having the largest membership in the Indiana Corn Growers' association by May 1, 1914. Great activity among corn growers has been stimulated.

The association has had a paid-up membership of more than twelve hundred. There is every evidence that this number will be far exceeded this year. It is held by Mr. Palin, of Newton, producer of the world's best ear of corn, and chairman of the membership committee, that every person joining the association places himself in touch with the most active influences in the state and is bound to be much benefited thereby.

The association is responsible for the Indiana state corn show, the Indiana corn score card, and has been most active in placing the state in the forefront of all corn growing states.

A state-wide alfalfa campaign is also being outlined.

**Carnations at 25c per dozen,
Friday and Saturday only
at Lemon's Flower Shop.**

MINTON MAY BE HERE, IT IS SAID

It is understood that Attorney R. Carl Minton, of Indianapolis, is preparing to lay out applications for naturalization papers among the foreign colony here. It is also understood that an investigation is being conducted by the lawyer of the rooming houses, especially in the business districts.

Organizer I. C. Diggins is making an effort to complete the poll of the city. Many precincts in the First, Second and Third wards are yet to be polled.

OFFERS SOLUTIONS ON LOCAL PROBLEM

(Continued from Page One.)

would be for its agricultural benefits.

The report and recommendations, in part, follow:

Some of the objections against converting our present high schools into agricultural high schools or correlating their course of study around this subject or establishing eleven individual agricultural high schools in connection with our present high schools are:

(1) Many persons prefer the present course, especially those whose children show literary or scientific tendencies, or an inclination toward the trades, the commercial or the professional life.

(2) Classes would be entirely too small.

(3) Instructors could not be secured for the subjects at a price a single school could pay.

(4) Such teachers could not be used for other subjects on account of field work, supervision of class rooms or their training.

(5) Few townships alone could levy a tax sufficient to maintain such a school.

The Object.

To educate our boys and girls in rural high schools surrounded by a rural atmosphere in such a manner that they will fall in love with country life and remain there as successful farmers and homemakers.

The Plan.

(1) Establish in this county two or more county agricultural high schools away from the city and the large towns.

(2) The buildings, class rooms and laboratories should be modern in every respect and fully equipped for thorough work in soils, crops, dairying, etc., and such other lines as should be taken up in a school of this character. A lecture room or auditorium should be provided to accommodate large country life gatherings.

(3) A farm should be included in the plan that could be used for demonstration purposes.

(4) The course of study for boys should be such as needed to make a Wayne county boy contented and a successful Wayne county farmer.

(5) A course of study for girls should be correlated with a rural domestic science course such as a country girl would need in her preparation for country life and homemaking on the farms of Wayne county.

(6) The course should include a two and a four year course, and should be open to all common school graduates of this county. All experimental work should be done at Purdue, this school doing only demonstration work as far as farm projects are concerned.

(7) The course should educate toward the farm and not away from it.

HYOMEI RELIEVES IN FIVE MINUTES

If your head is all stuffed up from a cold or catarrh, you suffer with dull headaches and seem lacking in vitality, or are constantly sniffling and coughing, you need a remedy that will give the quickest, most effective and lasting relief possible—something that will go right to the spot, clear the head and throat and end your misery.

Surely use Hyomei—all druggists sell it. It is just such a remedy, and is entirely harmless and pleasant to use—you breathe it—no stomach dosing.

The antiseptic oils of Hyomei mix with the air you breathe—its health giving medication immediately reaches the sore and inflamed mucous membrane—you feel better in five minutes. It is practically impossible to use Hyomei and not only be relieved but permanently benefited. Leo H. Fife will refund your money if you are not satisfied. Ask for complete outfit—\$1.00 size.

WILL BE RECALLED FOR FINANCE POST

HENRY MORGANTHAU.

Henry Morganthau, who was secretary of the national Democratic committee, and who, it is said, is to be recalled from his present post of United States ambassador to Turkey to accept a place on the federal reserve board or the appointment as chairman of the board of control of the reserve bank at New York. Either of these positions will be considered one of high honor.

The problems should be Wayne county farm problems.

(8) The school year should be twelve months, consisting of two terms of equal length. The winter term designed to aid a great number of persons who are unable to attend all year, but who are engaged or interested in farm life.

What is Needed Now.

The state board of education should define a vocational (agricultural) high school with a minimum requirement such that when compiled with would entitle the high school state aid under Sections 2, 4, 13 and 14 of the H. B. 101 Acts, 1913.

These suggestions are offered as to what we think Wayne county would need to solve the vocational question outside the city of Richmond, and in hopes that these suggestions may in some way aid your committee to formulate plans that would meet the need of an agricultural county in a vocational (agricultural) school.

SENATOR W. L. JONES ASSAILS TOLL REPEAL

**Maintains Wilson's Policy
Plays Into Hands of Great
Britain's Scheme.**

WASHINGTON, March 18.—Declaring that the repeal of the clause exempting United States coastwise shipping from payment of Panama canal tolls, following Great Britain's protest, would be part of the price this nation must pay to get the help of a foreign power in final adjustment in the Mexican situation, Senator Wesley L. Jones, of Washington, today called up a resolution asking President Wilson for full information as to all foreign protests against the enactment of the Democratic platform pledge of free tolls.

"Why is it necessary for us to repeal a law of great domestic concern in order that some unknown policy may be brought to a successful issue?" he asked. "Is non-interference in Mexico by foreign powers to be bought at this price? Have we become inert, so weak, so servile, that the Monroe doctrine must be sustained and invigorated by the very powers against which it was so invoked?"

Senator Jones declared that an argument for alliance with England has been reached, and that as part of it Great Britain is to seek reparation for its losses on Condis.

Should the exemption clause be repealed, the senator asserted, the burden of tolls must rest forever on our coastwise ships unless we see fit to relieve all vessels from tolls.

COURT NEWS

The garnishee case of Forest Nicholson, a railroad employe, against Walter Bullerick, a grocer, to recover \$70 which is alleged to have been collected illegally through a West Virginia justice court, will be tried in circuit court Monday.

Preliminary arguments in the case of Kettelford, against the Seane and Brown Hardware company were heard in circuit court by Judge Fox today. The case has not been set down for trial.

CITY STATISTICS

Deaths and Funerals.
SAVAGE—Mary Savage, aged 80, widow of Thomas Savage, died last night at the residence of her sister, Mrs. Julia Quigley, 128 North Seventh street. The only surviving member of her family is her sister, with whom she made her home for the past ten years. The funeral will take place Friday morning at 9:00 o'clock at St. Mary's church. Burial at St. Mary's cemetery. Friends may call at any time.

JUDGMENT RENDERED

Judgment for \$175 was rendered today in the suit of C. W. Bundy to foreclose a crops lien against Theodore Green. Bundy rented a farm which is his property, to Green who was to share crops with the landlord. This he failed to do, Bundy alleged. The demand was for \$225.

Southern Italy will have a \$13,000,000 hydroelectric plant, generating 150,000 horse-power.

DUBLIN, IND.

Howard McGeath was in Indianapolis on business Monday.
