On Monday, A. H. Wilson, a student at Earlham, took the animal to the college at Richmond to have it named.

Mexican Missionaries
Can't Get Provisions

Secretary of Friends Foreign Mission Board Here Says that Mission Workers Are Suffering from Lack of Food, Being Unable to Cash Checks.

"For a number of weeks the Friends missionaries at Victoria and Metawalla, Mex., have been hampered in their work owing to a lack of funds," declared Charles E. Tobolsky, secretary of the foreign missions board of the five years meeting.

"Recent communications from these places show that the Federal and the rebels are fighting hard, and the state of upheaval has made it impossible to cash checks and procure provisions for the people engaged in missionary work."

"In the town of Metawalla the people have been forced to take refuge in a hastily constructed fort. The city is still under Federal control, although it has been captured and recaptured two or three times by the rebels."

"The people are suffering more from the raids of bandit gangs than from the war between the Federals and the

Constitutionalists. The residents of Metawalla are constantly being surprised by the invasion of lawless gangs who steal anything they can find."

"The fighters have been treating the missionaries with kindness, consequently in many towns where the armies have encamped and a number of buildings were confiscated, the property of the church has remained untouched."

"At this time the stations at Victoria and Metawalla are in no particular danger as far as the slaughter of missionary workers is concerned, but the matter of getting food supplies is the important thing. The third state at Metamor, which is near the United States boundary line, is able to procure food from the United States, but the interior towns are experiencing much difficulty."

8 WEEKS--VACATION

School Boys' Dream of the Weeks to Come.

Eight weeks is all that separates the proverbial small boy from that time of fun and freedom—summer vacation. Schools will close officially June 3, according to J. T. Giles, superintendent of the city schools. High school graduating exercises will be held June 4.

The present school term is two weeks shorter than heretofore. A full term in the past has been nine months and two weeks, but owing to the fact that the Christmas vacation was shorter than usual this year, school will be dismissed two weeks earlier than in the past.

The graduating class at the high school will be the largest in the his-

NOSE CLOGGED UP FROM COLD
OR CATARRH OPENED AT ONCE

Instantly Clears Air Passages; You Breathe Freely; Dull Headache Goes; Nasty Catarrhal Discharge Stops.

Try "Ely's Cream Balm." Get a small bottle anyway, just to try it—Apply a little in the nostrils and instantly your clogged nose and stopped-up air passages of the head will open; you will breathe freely; dullness and headache disappear. By morning the catarrh, cold-in-head or catarrhal sore throat will be gone.

End such misery now! Get the small bottle of "Ely's Cream Balm" at any drug store. This sweet, fragrant

balm dissolves by the heat of the nostrils; penetrates and heals the inflamed, swollen membrane which lines the nose, head and throat; clears the air passages; stops nasty discharges and a feeling of cleansing, soothing relief comes immediately.

Don't lay awake tonight struggling for breath, with head stuffed; nostrils closed, hawking and blowing. Catarrh or a cold, with its running nose, foul mucus dropping into the throat, and raw dryness is distressing but truly needless.

Put your faith—just once—in "Ely's Cream Balm" and your cold or catarrh will surely disappear.

Ralston Favors Centennial
Building Costing \$2,000,000

INDIANAPOLIS, March 31.—A majority of the voters of Indiana at the next election desire themselves in favor of taxing every taxpayer of the state \$1.05 on each \$1,000 worth of his taxable property for the purpose of erecting a Centennial Memorial building and holding a centennial celebration in Indianapolis in 1916, the movement will materialize into a reality.

The proposition, which comes before the people on a referendum vote under authority of an act of the last legislature, calculates the expenditure of \$2,000,000 for the building and celebration, the cost of the latter not to exceed \$100,000 of the total sum.

The memorial building will be devoted permanently to historical and educational purposes and will provide a means of housing such cherished exhibits as the first gasoline vehicle (or automobile) ever constructed in the United States, which while made in Kokomo, now is sheltered at the Smithsonian Institution at Washington, D. C. Many other things of rare value representing the state's achievements in industry, art, science, education, law, literature, etc., also should be preserved therein.

Governor Ralston heartily approves the movement and State Librarian D. C. Brown has issued a bulletin which embraces a strong appeal for intelligent and patriotic consideration of the proposition before election day arrives. That the state capitol building is rapidly becoming so congested that some such institution as the Memorial building is an actual necessity is convincingly pointed out.

The plan of fittingly celebrating the 100th anniversary of Indiana as a state with a dramatic pageant representing scenes from Hoosier history—the early life of the Indian, trapper, missionaries and the various stages of the state's progress up to civilization in its more modern aspects—would prove at once magnificent and instructive.

Money Saved by Making Your Cough Syrup at Home

Takes But a Few Moments, and Stops a Hard Cough in a Hurry.

Cough medicines, as a rule, contain a large quantity of plain sugar. If you take one pint of granulated sugar, add ½ pint of warm water and stir about 2 minutes, you have as good syrup as money could buy.

If you will then put 2½ ounces of Pinex (fifty cents worth) in a pint bottle, and fill it up with the Sugar Syrup, you will have as much cough syrup as you could buy ready made for \$2.50. Take a teaspoonful every one, two or three hours. It keeps perfectly. You will find it one of the best cough syrups you ever used—even in whooping cough. You can feel it take hold usually conquers an ordinary cough in 24 hours. It is just laxative enough, has a good tonic effect, and the taste is pleasant.

It is a splendid remedy, too, for whooping cough, spasmodic croup, hoarseness and bronchial asthma.

Pinex is a most valuable concentrated compound of Norway white pine extract, rich in guaiacol and other healing pine elements. No other preparation will work in this formula.

This plan for making cough remedy with Pinex and Sugar Syrup is now used in more homes than any other cough remedy. The plan has often been imitated but never successfully.

A guaranty of absolute satisfaction, or money promptly refunded, goes with this preparation. Your druggist has Pinex, or will get it for you. If not, send to The Pinex Co., Ft. Wayne, Ind.
