That Memorial "Grab"

County Clerk George Matthews has called attention to a question to be voted upon by the people of Indiana this year and which if passed will permit the opening of the largest political "pork barrel" in the history of the state.

This question which has been put up to the voters is whether \$2,000,000 shall be appropriated out of the general fund of the state "for a centennial memorial." The "memorial" contemplated is a new state house. In a speech made in Richmond the other night, Earl Crawford, a former member of the legislature, wittily remarked that he did not know why there should be a new state house for the present one is only used for signing a few measures, all the laws being made at the Dennison hotel, Indianapolis.

Selfish Indianapolis interests and the Taggart machine are actively working for the popular indorsement of this two million dollar grab, for it will be rich picking for them, but the Indiana taxpayers, with an anxious eye on the steadily increasing tax rate can see no reason why they should give their approval to such an extravagant and unnecessary expenditure at this time. They are all in favor of a modest and appropriate observance of the Hoosier state's one hundredth birthday, but two million dollars is greatly in excess of the popular idea of an "appropriate observance."

That the Democratic legislature of 1913 which is responsible for this proposal realized such an expenditure would be a drain on the re-

sources of the state is set forth in the wording of the act. It provides that if the voters authorize such an appropriation the governor, auditor and treasurer shall have the authority to issue and sell non-taxable bonds of the state, not to exceed two million dollars, bearing interest at the rate of three and a half per cent, "any year during the progress of said work if there should be a deficit in the finances of the state."

And the voters may rest assured that such deficits will occur in the event the Democratic machine continues in power, for under the Ralston administration, without any such extraordinary expenses, deficits have been one of its specialties, to meet which the taxpayers are permitted to dig a little deeper in their jeans.

That the effort of this gang to have the "memorial" appropriation authorized has been prompted solely by an insatiable appetite for "pork" for the "faithful" is a fair construction to place on their enthusiastic advocacy of the project. Did not Governor Ralston give the proposed constitutional convention plan, also to be voted on at this coming election, a back-handed slap recently when he gravely questioned the advisability of such action because of the "expense involved?" If there is anything in the world Indiana stands in need of it is a new constitution. But we have the amusing spectacle of hypocrisy and insincerity of our chief executive wagging his head in doubt over the advisability of calling such a convention, because it might cost a quarter of a million dollars, and at the same time maintaining an eloquent and discreet silence on the question of squandering \$2,000,000 on a public building which the state stands in need of about as much as a pig does a palace.

One of the six ballots that will be presented to each voter in this county on November 3 will be shaded blue and will measure four inches by four inches. On it will be printed the words yes and no. If you are opposed to a reckless and unnecessary increase in the tax rate and are against "pork barrel" government, vote NO. By doing so you will place yourself on record as opposed to any "memorial" to gang misrule and brazen affrontery and at the same time will be signing a "memorial" to your own good sense and intelligent interest in the cause of honest government.

Milton's Social News

The occasion was his birthday anniversary, and as usual upon such occasions Mr. Manlove was loyal to his home and would not go out. But his wife arranged it, and before he was aware of it the following friends had entered his home and taken possession: Messrs. and Mesdames Oscar Kirilin, Wilbur Elwell, W. H. Brown, H. D. Huddleston, Charles Davis, Ed Wilson and Albert Newman. The evening was pleasantly spent at rook, and a luncheon was served. Thirty thousand voices—What a grand chorus! And that's the number of American men and women, who are publicly praising Doan's Kidney Pills for relief from backache, kidney and bladder ills. They say it to friends. They tell it to the home papers. Richmond people are in the chorus.

For several years I was subject to rheumatic pains in my back and shoulders. I also had headaches and nothing helped me until I took Doan's Kidney Pills. They made me feel like a different person. I am just as willing to endorse this remedy now as I was some years ago when I first used it."

Editor, Palladium—I notice with a great deal of pleasure the lively interest that is being displayed all over town in regard to the location of the south side bridge. The more interest that is shown the sooner we shall have a bridge, and no doubt no matter where the bridge will be located it will do unlimited good and be a 100 per cent improvement over present conditions.

It is quite natural also that there should be a division of opinion as to which would be the best location. Each river has two banks, and what may be to the interest of the residents on one side is not necessarily also to the interest of the other. Furthermore, it is nothing more nor less than purely human, that each property owner and lover of his home, should like to see his own home most benefited and increased in value.

I own property both in West Richmond as well as south of Richmond, and should, therefore, be fairly unbiased in my opinion, nor do I hesitate to say that a nice, well-constructed cement bridge would enhance the natural beauty of our fine Whitewater valley, of which many a large city would be proud of if it was properly taken care of, no matter whether such bridge would be built on E or L street, or anywhere in between.

However, the Southwest Side Improvement association that is just now making such strong agitation for the E street location, and was organized for that purpose, should remember that all the pioneer work for this bridge during the last nine years, the originating of the idea, the circulation of the original petition and the long and tedious work incidental to having it first favorably acted upon and then afterward kept continually in the minds of the county commissioners, was done by the South Side Improvement association. If now, the Southwest Side Improvement association wants to appropriate all that preliminary work by gaining the good will of the county commissioners through a monster petition, it acts very much like the cuckoo bird that lays its egg in the nest of some other bird! It would not be fair play, and we Americans like fair play better than anything else, and commence to feel very uncomfortable if we do not get it! For that reason, more than any other reason, am I strongly in favor of a location as originally provided for, viz: south of South E street.

Asthma-Catarrh and Bronchitis

Can be Greatly Relieved by the New External Vapor Treatment.

Melt in a spoon a little Vick's "Vapor-Rub" Croup and Pneumonia Salve and inhale the vapors. Put a little up each nostril and at night apply well over throat and chest, covering with a warm flannel cloth. Leave covering loose around the neck so that the vapors of Menthol, Thymol, Eucalyptol, Camphor and Pine Tar, that are released by the body heat, may be inhaled all night long. In Asthma and Hay Fever rub Vick's over the spinal column to relax nervous tension. This treatment is not a "cure," but it has at least the merit of containing no harmful drugs, and it is sold by all druggists in 25c, 50c and \$1.00 jars, on thirty days' trial. Vick's is also excellent for all croup and cold troubles.

A Hint for Coming Maternity

In a little book designed for expectant mothers more complete instruction is given in the use of "Mother's Friend."

This is an external embrocation applied to the abdominal muscles for the purpose of reducing the strain on ligaments, cords and tendons.

It serves to ease the mind, indirectly the nervous system and thousands of women have delighted to tell how they were freed of nausea, had no morning sickness and went through the ordeal with most remarkable success. "Mother's Friend" has been growing in popular favor for more than forty years. In almost every community are grandmothers who used it themselves, their daughters have used it and they certainly must know what a blessing it is when they recommend it so warmly. It is used very successfully to prevent caking of breasts.

CADILLAC

Standard of the World

THE EIGHT CYLINDER CADILLAC--Type 51

"The sweetest running car in the World!"

This is the verdict of those who have experienced the super-luxury of the Cadillac Eight.

The old Cadillac saying, "Just get in and ride," applies with greater significance now than ever before.

In the High-Speed High-efficiency Eight-cylinder V type engine, there are eight power impulses during each complete cycle—one power impulse every quarter turn of the fly-wheel.

There is no intermission between impulses but rather an overlapping so complete that one melts or merges into another. The torque therefore is constant and the flow of power is continuous.

As the Cadillac softly speeds along under the almost magic influence of this new power-principle, the sensation is as unique as though you had never motored before.

It is useless to try to depict in words, thrills which you have never felt or to portray a degree of ease which you have never experienced.

Nothing but your first memorable ride in the new Cadillac Eight can reveal the wealth of motoring luxury which this car affords.

Our representative, Mr. McGee, will be at the Auto Inn, October 20 and 25, and thereafter the first week in each month.
