## Health First

In buying food articles we must consider several things—economy, results, convenience, reliability; but the most important is Health.

Health means everything. If one gets cheated in buying dresses, shoes or bonnets it is provoking, but the harm is chiefly loss of money. In buying food articles, if imitations or poor stuffs are supplied, there is a loss of money and probably an injury to health also; and good health is beyond price.

Remember these facts when buying baking powder.

### Has the Stuff In It.

"There is a reason why your medicine has the confidence of the people, and is successful," remarked a prominent physician the other day.

"IT HAS THE STUFF IN IT."

No truer word could be uttered by any one regarding Dr. A. B. Simpson's Vegetable Compound, as it contains the best elements known to medical science for its purpose, and the proportion of each one has been the study of half a century.

To eliminate all poisonous and obstructive matter, to stimulate, invigorate and regulate the innermost organs of the human body—thus purifying or relieving the blood of its deadly accumulation.

Such is its purpose, and in so doing covers a wide range of disease and disorders.

Contagious Blood Poison, (Syphilis), Scrofula, Ulcers, Sores, Eruptions on Skin and all manifestations of impure blood, yield quickly to this treatment. Contains nothing harmful, and as a general regulator or that "fall run down" rheumatic condition, has no equal.
