She is Roumania's New Queen

New photograph of the consort of King Ferdinand of Roumania, who was crowned in the presence of the members of the diplomatic corps and other notables a few days ago. King Ferdinand succeeds King Charles whose death last week is declared to have been caused by worry over the war. Berlin declares that the succession of King Ferdinand will cause no change in the favor with which the former king regarded the German cause. Opposite opinions are expressed in the capitals of the other warring nations.

GLASS OF SALTS IF YOUR KIDNEYS HURT

Eat Less Meat if You Feel Backache or Have Bladder Trouble.

Meat forms uric acid which excites and overworks the kidneys in their efforts to filter it from the system. Regular eaters of meat must flush the kidneys occasionally. You must relieve them like you relieve the bowels; removing all the acids, waste and poison, else you feel a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sour, tongue is coated and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment; the channels often get irritated, obliging you to get up two or three times during the night.

To neutralize these irritating acids and flush off the body's urinous waste get about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine and bladder disorders disappear. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys and stop bladder irritation. Jad Salts is inexpensive, harmless and makes a delightful effervescent lithia water drink which millions of men and women take now and then, thus avoiding serious kidney and bladder diseases.

CLUB INVESTIGATES BOOSTER COMPANY

Delays Action on Jordan's Plan to Boom City With \$250,000.

No active work is being done by the Commercial club involving financial operations pending the decision of the new industries committee on the organization of an Industrial Association to carry out Charles W. Jordan's \$250,000 industries boosting plan.

The new industries committee has continued its study of the plan from a practical standpoint and every day new information is turned into the hands of the committee which indicates that the plan could be operated successfully.

The committee will meet next week when some action is expected then. If the plan is adopted then, every detail will have been worked out and the committee will be in a position to either reject the plan or else start it in its operation immediately.

Until such action is taken no decision will be made to the request of the Uniform Rank Knights of Pythias for a \$5,000 entertainment fund for the bi-state encampment next year.

JUST BITTER STUFF ON SUGAR AT CLUB

The Country club mystery has at last been solved.

The stuff placed in the sugar bin at the club house by a revengeful and spiteful chef following his dismissal was not poison. Just what it was the state chemist did not specify but all the club members agree it was decidedly bitter.

Dairy Inspector Clem reported to Chief Goodwin today that the state chemist had reported to him that there was absolutely no poison in the sample of sugar sent to him for analysis.

Amusements

"The Girl From Out Yonder," the opening attraction of the Frank Hawkins players at the Gennett theatre, is a story of the simple folk of the Maine coast.

The action of the play centers around Flotsam, the daughter of Captain Amos Barton. Flotsam is a care-free child, and her many fishing trips with her father have made her an expert in the handling of a boat. As a young woman of culture she has much to learn. When attired in trousers, boots, a fisherman's coat and hat she is in the height of happiness. When a

mere baby her mother died, and her training was left to her father.

As Flotsam grows older and prettier she has many suitors for her hand and this causes Captain Barton no end of trouble.

Joey Clarke, three years Flotsam's senior, and who has loved her from childhood, is a spurned suitor for her hand. When Edward Elmer, a civil engineer from the city, who is spending a vacation at Terry's Harbor, announces his love for Flotsam, Joey

tells Elmer of a crime which Captain Barton believes he committed twenty years before. It develops that the man he thinks he killed was Elmer's father, and Elmer, though he says he loves Flotsam still, says that he must give her up. How the girl is won is told in the last act.
