Blow at Coal Trust

Under the law just passed governing the coal mines in Alaska, the parties who lease these mines of the government must pay an annual rental to the government. They must also pay a small royalty per ton of coal taken out, but the rental is the thing. Those who sought to hurt the measure and twist it so that corporations could take advantage of it, tried to have a heavy

royalty assessed against coal actually mined and the rental for the land made merely nominal.

This would have thwarted the two purposes of the measure: First, the speedy development of the Alaskan resources and second, the establishment of a supply of coal which is independent of the coal trust. Had the bill provided that the lessees should have the use of the land for 50 years for practically nothing, but would be assessed a heavy royalty upon coal actually mined, the lessees could have delayed developing this resource for another 30 years. At any time it suited them—acting in conjunction with the coal trust—they could stop working the mines.

As it now is, they must begin at once and keep digging right along in order to make the lease pay, for they must pay their rental, coal or no coal. It will not be very profitable for them to close down in order to help the coal trust in this country maintain a lockout or hold the country up on coal prices.

With the government as an indirect competitor there are prospects of the coal trust changing its ideas about the "divine rights" of an operator to do as he pleases, regardless of the miners and the public.—Sioux City Tribune.

How to Treat Croup Externally

Rub Vick's "Vap-O-Rub" Croup and Pneumonia Salve well over the throat and chest for a few minutes and then cover with a warm flannel cloth. Leave the covering loose around the neck so that the vapors inhaled may loosen the choking phlegm and open the air passages. Usually one treatment relieves in fifteen minutes. One application at bedtime will prevent a night attack. Vick's will be found better than internal medicines for all inflammation of the air passages from head colds and catarrh down to bronchitis and incipient pneumonia. Three sizes—25c, 50c and \$1.00.

SICK, SOUR STOMACH, INDIGESTION OR GAS

"Pape's Diapiesin" Makes Upset Stomachs Feel Fine in Five Minutes.

Wonder what upset your stomach—which portion of the food did the damage—do you? Well, don't bother. If your stomach is in a revolt; if sour, gassy and upset, and what you just ate has fermented into stubborn lumps—head dizzy and aches; belch gases and acids and eructate undigested food; breath foul, tongue coated—just take a little Pape's Diapiesin and in five minutes you wonder what became of the indigestion and distress.

Millions of men and women today know that it is needless to have a bad stomach. A little Diapiesin occasionally keeps this delicate organ regulated and they eat their favorite foods without fear.

If your stomach doesn't take care of your liberal limit without rebellion; if your food is a damage instead of a help, remember the quickest, surest, most harmless relief is Pape's Diapiesin, which costs only fifty cents for a large case at drug stores. It's truly wonderful—it digests food and sets things straight, so gently and easily that it is really astonishing. Please, for your sake, don't go on and on with a weak, disordered stomach; it's so unnecessary.—Adv.
