S. S. I. A. RE-ELECTS SAME BOARD AGAIN

Civic Body Replaces Fred Miller With Henry Bode as Only Change.

Officers and directors with one exception were re-elected by stockholders of the South Side Improvement Association last night.

Adolph Billekvedel will continue to serve as president, Hans Koil as secretary and Anton Stolle as treasurer. The same committees probably will stand, this being subject to the desire of the president.

On the board of directors, J. Henry E. Bode replaces Fred Miller. The board consists of A. B. Kennepohl, Adolph Billekvedel, Anton Stolle, Hans Koil, J. Henry E. Bode, Conrad Zwissler, Fred Hackman, John Bayer, Will Bartel, Jr., Edward Temme, August Sturm and John Habing.

The contract was let for a new one story frame building, twenty by fifty feet in dimension to be erected adjoining the Beallview park pavilion. Blood Remedy Sustains World

Myriads Have Learned of Its Remarkable Curative Value.

From the very fact that S. S. S., the famous blood purifier is a natural medicine, it is open to those who can not give up mercury and other dangerous drugs. Habit is a strange master. Afflicted people use mercury with a blind force of habit. Not warned by the rheumatism they see all around them, unkindful of the locomotor ataxia, paralysis and other dread diseases, they persist in using it, clinging to the fast disappearing treatment so surely and positively being replaced by S. S. S., wherever the light strikes in. S. S. S. is fast becoming the world's panacea for all blood troubles because it is welcome to a weak woman, is taken naturally into the blood, is a wave of purifying influence known by its remarkable curative results, and is the standby of a host of people.

It goes into the blood and remains a strong medicinal influence to the end and this without any other effect than that of a purely cleansing property.

It is the most universally recommended blood remedy known, and has sustained its reputation for half a century. Its ingredients are Nature's delicate antidotes for getting rid of our worst afflictions. Get a bottle today of any druggist. Refuse all substitutes. Write the medical department, The Swift Specific Co., 62 Swift Bldg., Atlanta, Ga., for free advice on blood troubles, and how to overcome them. This department is one of the finest helps to men to be found anywhere, and it is entirely free.

SUIT FOR DAMAGES TAKES JURY'S TIME

Elizabeth Ashcraft Claims \$5,000 for Injuries From Traction Company.

The trial of Elizabeth Ashcraft's suit against the Terre Haute, Indianapolis and Eastern Traction company continued in circuit court today. The traction company made the claim that Mrs. Ashcraft's injuries were not serious enough to warrant the payment of as much as \$5,000 damages. The plaintiff, however, brought evidence to show that she was healthy until she was thrown from a street car at East haven junction on July 11.

The jury which is hearing the case is composed of William Stout, Wade M. Kennedy, Charles J. Wilson, William E. Meyers, Fred Beckofer, Veri Nicholson, Jacob B. Shaffer, William DeMoss, Charles Bula, Sherman Hale, David Adkinson and Nathan White.

SCHOOLS TO STUDY OLD MAP 2 YEARS

Contract Prevents Change When Close of War Alters Lines.

For the next three years, Wayne county school children will have to be satisfied with the map of Europe as it was before July 30.

County Superintendent Williams said today that the county entered into a five year contract for the geography supply, and this contract has two years to run.

"We do not place the stress on foreign geography we did a few years ago," Mr. Williams said. "Therefore I believe that we will not be seriously discommoded by the changes which may result from the European war. The countries may change rulers but they will be designated to some extent by their present lines, no matter what the outcome of the war is."

A few years ago, we would have felt it of vital importance to have the maps up to the minute. Of course we will make some arrangements when things are settled, to have extra text books or geography pamphlets for the teachers which will make the teaching of the new map very simple. We do not make the children learn boundaries as we did only a few years ago and foreign geography instruction is being made more general every year."
