Medical Inspection of Immigrants.

The mere statement that all immigrants entering the United States are given a medical examination by officers of the Federal Public Health Service prior to entry means very little until one stops to consider the number of immigrants that enter this country every year, and the number of places through which they enter. Aliens enter the United States through 80 different places, which places include 25 different seaports, and said aliens can embark from any one of 25 different foreign ports to come to the United States.

Exclusive of the number of railway lines continuously bringing immigrants over our borders, over 100 steamship companies are occupied in the immigrant-carrying trade, and on account of the fact that certain steamship companies have vessels arriving at from two to five different ports, it has been found by actual calculation

that there are 173 lines of immigrant travel to this country.

The transportation lines above referred to, both railway and steamship, brought into the United States during the last fiscal year, 1,485,957 immigrants. The number of immigrants examined at the different ports and places varied, for instance, from one examined at Wilmington, N. C., to 1,009,854 at the port of New York during the last fiscal year. In addition to this 80,322 immigrants arrived at Boston, 40,248 at Baltimore and 60,483 at Philadelphia during the last fiscal year, the total being as stated above.

As a result of the examination of the above mentioned 1,485,957 immigrants, 41,236 were certified as having diseases either deportable or reportable under the immigration laws. In order to give the medical examination to such a large number of immigrants it is necessary that the officers of the Public Health Service detailed for this duty be specialists in the various lines of diseases. These officers, when they examine large number of immigrants, at once seek first to eliminate the perfectly sound persons, which they are able to do with remarkable accuracy on account of their long practice. The remaining immigrants are then disposed of in the order of the importance of their diseases. For example, if an immigrant has a slight deformity which will not bar him from entering the country he is detained only long enough for a record to be made of this deformity. This soon leaves only those immigrants who are to be subjected to a careful examination to determine whether they are likely to become public charges if admitted to the country.

COURAGE IN WAR

What war teaches—as well as business life.

Courage in war or business is born of good pure blood. Pure blood is the greatest blessing mankind can have.

Millions of people need this powerful vegetable remedy that puts the stomach, liver and bowels in fine condition; that clears the skin of pimples, rash, blemishes and acne; that dissolves boils, and carbuncles; that makes nerves stronger and steadier and gives to pale, weak, rundown people the fullest measure of health and happiness.

Dr. Pierce's Golden Medical Discovery, free from alcohol or narcotics, does just what is stated above, simply because it banishes from the blood all poison and impure matter. It is the world's great Blood Purifier; so enters joints, dissolves the impure deposits and carries them out, as it does all impurities, through the Liver, Bowels, Kidneys and Skin.

If you have indigestion, sluggish liver, backache over the kidneys, nasal or other Catarrh, unsteady nerves or unsightly skin, get Dr. Pierce's Golden Medical Discovery today and start at once to replace your impure blood with the kind that puts energy and ambition into you and brings back youth and vigorous action.

A GREAT BOOK EVERY WOMAN SHOULD HAVE

If you will pay the mailing charges, Doctor Pierce will send you his cloth bound book of over 1,000 pages newly revised with color plates and illustrations.

Everyone should read and have it in case of accident or sickness in the home.

Treats of so many subjects in such an interesting manner that knowledge of the human body is quickly and easily attained by all who read the book.

Send 20 cents in postage for mailing charges to Dr. Pierce, Invalids' Hotel, Buffalo, N. Y., and enclose this notice—Adv.

THE B-11, one of the sea daredevils which have carried the war to the very doors of Constantinople, the Turkish capital. The B-11 is the British submarine which on December 14 thrilled England by entering the Dardanelles, diving under five chains of mines and torpedoing and sinking the Turkish cruiser Musselsied. Saturday the Dardanelles were again raided by a British submarine believed to have been the B-11 and three of the five chains of mines destroyed. The submarine is shown here as she approached a British cruiser to receive orders.

ALARM CLOCKS STIR NEW YEAR AT BIRTH

MILTON PERSONS ENJOY NOVEL FEATURES AT WATCH PARTY at Cary Club.

MILTON, Ind., Jan. 2.—The Cary club held its open meeting New Year's eve at the home of R. E. Calaway, with Mrs. Malinda Barton. The house decorations were simple and all was in tasteful harmony. The rooms were filled with guests numbering to between sixty and seventy and the evening was delightfully spent by all.

The evening's program of entertainment was opened by a piano solo by Misses Jessie Lantz and Mandie Hussy. Vocal solo Harry Doty, with piano accompaniment by Mrs. Harry Doty. Miss Nellie Jones was then called to the piano and gave two very fine numbers which were enjoyed by all. A two-course luncheon was served, the first course being chicken pat-

ties with pickles and olives and that

of the second consisting of block ice cream in the Cary club colors, cake and coffee. Favors were tiny watches. Games were then introduced, such as charades and that old time game, Happy is the Miller, and everybody had a good time.

The old year began to wane and all joined in full chorus, singing with Miss Nellie Jones at the piano, and just as the old year went out and the new year came in, alarm clocks all over the house began ringing out the old and ringing in the new, after which all joined in singing "Goodnight My Lady." Among the out of town guests were Mr. and Mrs. Fred Hurst of Charleston, Mo. The evening was one long to be remembered by the club and its guests.

That pedestrians on rural roads wear white patches on the back of their clothing at night, and that backs of wains are painted white as a protection against automobiles, has been seriously proposed in England.
