## WHEAT TOUCHES HIGH RECORDS AT \$1.48 PRICE

Strength Attributed to Advance in Cash Prices and Sales to Millers in West.

[BY LEASED WIRE.] CHICAGO, Jan. 27.—Grains again today made high records on the crop on the board of trade. May wheat touched \$1.48, and closed at \$1.48, an advance of 1/4c over yesterday's finish. July wheat closed at \$1.33, and advance of 1/4c.

May corn gained 1/4c and July 1/4c. May oats made a net advance of 1/4c, and July 1/4c. There was practically no news to affect the market, and the strength was attributed to the advance of cash prices and to sales of cash grain to millers in the west. Mills in Nebraska, for instance, were buying wheat at what corresponded to \$1.50 here, and could get very little of it at that figure.

The provision market, which yielded to an early slump, due to the Union Stock Yards quarantine, rallied and closed with from 10 to 30 cent gains.

## HATCH CHICKS EARLY FOR FANCY PRICES

Farmers do Wise to Prepare For Dear Eggs Next Fall.

If the farmer wishes to benefit by the high prices that eggs are certain to bring next fall and winter, he should begin to get ready for them at once, say the poultry specialists of the United States Department of Agriculture. The way to have eggs late in the year is to hatch pullets early. It is the early hatches from which the early pullets are derived that are the largest money makers for the poultry producer.

The early hatched cockerels can be marketed in almost any market in America when they attain a weight of three-fourths of a pound to a pound and a half each, which they should reach at about six to ten weeks of age respectively, at a greater profit to the producer than at any time of their lives. The early hatched pullets, if properly grown, should begin to lay in the fall at the time when eggs are scarce and high in price.

## REIMBURSES FARMERS

WASHINGTON, Jan. 27.—The department of agriculture has begun reimbursing farmers whose stock has been slaughtered during the foot and mouth epidemic. The sum of \$2,500,000 became available when President Wilson signed the urgent deficiency bill.

Up to January 1 the outbreak had cost the federal government a total of \$2,129,138.04. Of this sum \$1,840,328.89 represents the federal government's share of the expense of slaughtering affected herds and reimbursing the owners for their loss.

The loss in Illinois has been larger than any other state, 36,758 animals having been slaughtered. Ohio ranks third with 10,111.

## QUARANTINE GIVES PACKERS BIG CLUB

[BY LEASED WIRE.]

CHICAGO, Jan. 27.—Several hundred men today began clearing and fumigating the pens at the Union Stock Yards to remove any possible germs of the foot and mouth disease. Midnight tonight was set in a wire from Washington as the dead line for the quarantine on shipments, announced yesterday.

So far not a trace of the plague has been found in the yards. It will take about ten days to clean up.

Fifty thousand hogs and the usual run of cattle and sheep were received today, and the railroads reported 802 carloads of stock en route to this city. The shippers are left at the mercy of the packers by reason of the quarantine. Trade in the hog market was at a standstill and first sales were made at 25 cents under yesterday.

## U. S. AGENTS CLOSE PITTSBURG MARKET

[BY LEASED WIRE.]

PITTSBURG, Pa., Jan. 27.—With the telegraphed reports from points east of Pittsburgh that cattle which had passed through the stock yards here were found to be suffering from foot and mouth disease the local branch of the federal bureau of animal industry ordered the stock yards closed down for disinfection this morning.

The disinfection of the yards will take in the neighborhood of a week and during that time the meat supply from the west for western Pennsylvania will be entirely cut off.

Only cattle shipments now en route will be received at the local yards, and all cattle received will be treated as exposed cattle. Word was received from Washington at noon that cattle might be sold for immediate slaughter after having been thoroughly examined by federal inspectors.

## HOG PRICES SLUMP AS MARKETS CLOSE

Yards Reduce Figure From 60 to 50 Cents With Quarantine Renewal.

A drop from 60 cents to 50 cents per hundred on hogs was recorded at the local stock yards today following the closing of the yards at Pittsburgh and Chicago by federal quarantine officials. With 50,000 hogs on the Chicago market, and no outlet, the packers broke the price 50 cents on the opening this morning and the prices at the local yards were adjusted accordingly.

A load of live stock was shipped by Gar & Shurley through Pittsburgh last of the closing of the yards there, but night before word had been received as the ultimate destination of the consignment was Jersey City, the firm hopes to avoid loss on the shipment. Yards at St. Louis, Chicago, Cincinnati and Pittsburgh have been placed in the quarantine list.

## KELLY SUSPENDS

(Continued from Page One.)

In trouble with the student council before, but most of them suffered the consequences after their first offense.

As the result of the fight which ensued when Harold Spencer, a freshman, refused to be "rubbed," ammonia was thrown into the crowd, and January Hutton, one of the combatants and leaders in the attack, is suffering with sore eyes. It was thought at first that his eyesight would be impaired but the physician stated today that he would probably be relieved of his suffering within a few days and that no permanent injury has been done.

The affair occurred about midnight Saturday, after almost all of the residents of Bundy dormitory had retired. Briggs, a sophomore, was attacked first and was given a good "rubbing" with hair brushes; Harold Spencer, a freshman, then was attacked and the attack on Leland Cox followed. Both these young men attempted to prevent their assailants from entering the room.

Harris Ammonia Bottle.  
Cox picked up a bottle of ammonia and hurled it through the transom, hitting Hutton in the head. A bottle filled with liquid, presumed to be formaldehyde, was also thrown among the crowd, but this liquid was found to be hydrochloric acid.

"The action of the authorities of Earlham has been uniform during the past few years regarding 'hazing,'" said President Kelly this morning. "The boys knew the results as special warning has been given since the government of Bundy hall has been turned over entirely to the students. The affair was brought up before the student council immediately and after a rigid examination had been made by the students themselves the matter was turned over to the president with recommendations. It is understood that the recommendations of the student council were carried out exactly by the president.

## SCHOOL TEACHING EXHAUSTING WORK

Miss Rosa M. Keller's Struggle to Keep Up—How Vinol Helped to Ward Off Nervous Breakdown.

Alburtis, Pa.—"I am a teacher in the public schools, and I got into a very nervous, run-down condition. I could not sleep and had no appetite. I was tired all the time.

"My sister told me how Vinol had built up her nephew and asked me to try it. I did so, and within a week after trying Vinol my appetite improved and I could sleep all right and now I feel well and strong.

"Vinol is certainly a fine medicine, and even the doctors say it is a good tonic."—Rosa M. Keller, Alburtis, Pa.

The reason Vinol restored Miss Keller to her natural health was because in her natural manner it sharpened her appetite, aided digestion, strengthened her nerves, and as a result brought the refreshing sleep she needed.

If there is any one in this vicinity, run-down, weak, nervous, worn out, and who can not sleep, we ask you to try Vinol, our delicious cod liver and iron tonic, on our guarantee to build you up and make you feel better, eat better, sleep better, or return your money. ## STATE REDUCES

(Continued from Page One.)

mittes, whereupon the trustees asked that an appropriation of at least \$150,000 be provided. However, the committee has recommended that an appropriation of only \$75,450 be provided for this institution.

"Seventy-five thousand dollars was be utterly insufficient to provide the necessary improvements to complete the work at the farm, to say nothing of placing the institution on a self-supporting basis," Mr. Seidel said today. "We wanted to use part of the appropriation we asked for to provide stone crushing works and brick and tile making plants."

"Before prisoners can be received at the farm it will be necessary to provide a sanitary sewer system, a water plant, a heating plant and addition quarters for the prisoners. These improvements alone will probably cost the entire amount of the appropriation recommended by the visiting committee."

The eighteen state institutions requested appropriations totaling over \$5,500,000 but the committee's total appropriation recommendations is about \$3,500,000, or \$2,000,000 less than the appropriations authorized in 1913.

## BECK TO HEAR BRYAN

Postmaster May Attend Indianapolis Banquet.

Postmaster Beck has received an invitation to the Bryan banquet of the Transportation club of Indianapolis and probably will arrange to attend. The banquet will be held Friday, February 5, at the Claypool hotel for a number of general freight agents, other railroad officials, Indiana shippers and government officials.

Mr. Bryan's subject has been announced as "The Railroads' Relation to the Business World." Other speakers will be Hon. John Barrett, director of the Pan-American Union, and Rev. John Cavanaugh, president of Notre Dame university.

## QUICK RELIEF FROM CONSTIPATION

Get Dr. Edwards' Olive Tablets

That is the joyful cry of thousands since Dr. Edwards produced Olive Tablets, the substitute for calomel.

Dr. Edwards, a practicing physician for 17 years and calomel's old-time enemy, discovered the formula for Olive Tablets while treating patients for chronic constipation and torpid livers.

Dr. Edwards' Olive Tablets do not costate calomel, but
