WHEAT SHOWS LOSS DROPPING TWO CENTS

Trading of New York Man
Features Day's Activity at
Chicago.

[BY LEASED WIRE]
CHICAGO, March 10.—Losses were shown in wheat today of 2 1/2 to 3 1/2 c. Cash sales of this grain at the seaboard were 1,350,000 bushels late yesterday and 500,000 today.

There was a break of 4 1/2 c in the price of May wheat on the board of trade early today when the future sold from \$1.53 off to \$1.50 1/2 and reacted to \$1.52. Liverpool wheat closed unchanged and Paris wheat was 1/2 higher. Argentine cables reported much wheat arriving damp, as the result of continued rains. July wheat sold from \$1.19 1/2 to \$1.21 and back to \$1.20 1/2.

Corn closed 3/4 to 1 c lower and oats were off 1/4 to 3/8 c.

The feature of the wheat market was the liberal trading of a New York stock exchange man who was on the floor and who personally directed his brokers. It is generally believed he has made considerable money in the wheat market here, and he seemed to be able to swing prices at his own sweet will.

Cash sales of grain here were 60,000 bushels of wheat to exporters, 145,000 bushels of corn of which 75,000 were to exporters, and 77,000 bushels of oats.

Provisions were off sharply.

WHEAT RESERVE SHOWS A SURPLUS

Farm holdings of wheat in the United States March 1, were slightly above the average, according to the government report, just out. Reserves in Indiana of wheat in 1915 were 6,500,000 bushels compared with 8,000,000 in 1914; corn reserves in 1915 were 58,800,000 and 65,300,000 in 1914. This report shows 17.2 per cent of the 1914 crop, or 152,908,000 bushels, in the hands of the farmers, against 151,809,000 bushels, or 19.9 per cent, of the 1913 crop, and a five-year average of 150,400,000 bushels.

The three northwestern states have 32,700,000 bushels, or 11,000,000 bushels short of a year ago and 15,000,000 less than two years. Kansas has 30,100,000 bushels on hand, the largest reserve in the country. The central wheat-producing states have smaller reserves than a year ago.

Wheat on the farm March 1 was valued at \$138.6 per bushel, the highest in years, and 50 1/2 cents higher than a year ago. This crop alone means a big profit for the farmer, even though the acreage for this year is larger than usual and the yield may create a new record. There is little fear of prices slumping to any extent, despite the prospects of the new crop being a record one. The farmers are in a position of strength, as the demand for wheat will continue broad long after the war in Europe ends.

Other farm reserves are liberal; still prices are relatively high. Confidence in the future prices has caused farmers to increase their grain acreage wherever possible, and it looks like this policy will net big returns. It is one time when record crops will sell on a high level. Domestic needs are large and the foreign demand is certain to continue of liberal volume, so there is little chance of piling up a surplus big enough to make profits impossible.

SMITH GETS \$5. FINE
FOR THEFT OF COAL

James Smith, colored, pleaded guilty in city court this morning to a charge of stealing coal valued at 10 cents from a car on the C. & O. railroad. He justified his action by saying that he had not been able to get work and that the township trustee had refused to give him any more coal.

"I couldn't see my family freeze," he said, "so I asked the mayor. The case was taken under advisement by the mayor. After he had made an investigation he fined Smith \$5 and costs and tacked on an additional five days jail sentence. It appears that Smith's wife is being cared for at the hospital and that his family consists of a grown and able bodied son and a young woman to whom Smith is not related. It was also learned that the trustee did not refuse to give him any more coal until after he had furnished him with 1,000 pounds.

TROUBLE FACES U. S. RESIDENTS IN MEXICO CITY

Washington Fears Rioting
Mobs May Suddenly Attack
Americans Still Living in
Southern Capital.

PROBLEM IS WORRYING

Carranza Not to Be Held Responsible If Zapata Injures or Kills Citizens of United States.

[BY LEASED WIRE]
WASHINGTON, March 10.—With several big warships speeding to Vera Cruz to exercise "moral coercion" on General Carranza, the Washington administration today turned its attention to the problem of providing means of getting United States citizens out of Mexico City.

Although Carranza's answer to the demands of the United States was understood to be on its way to Washington, the authorities faced a new situation as a result of the reported evacuation of Mexico City by General Obregon and his Constitutionalist troops.

Danger to Americans.
It was pointed out that Carranza could not very well be held responsible for what happened in the Mexican capital after his forces surrendered control and Zapata, who is reported to have re-entered the city, took up control. The greatest fear of the government officials, as stated by President Wilson and Secretary Bryan, is for outbreaks of mobs driven desperate by hunger and it is for this reason the state department is trying to get out the several thousand Americans who are still in Mexico City.

There was a tendency on the part of the officials, however, to believe that the change in control in Mexico City would serve to improve the situation there.

It was suggested that Zapata would reopen communication with the northern section of the country and thus to the United States border through the Villa forces.

Plans have been formulated in the state department, it is understood to urge Carranza to reopen their former Vera Cruz t Mexico City which recently has been used only for military purposes so that Americans can get to the sea from the capital and there take ship for the United States.

SECRET SERVICE MEN
RAID DRUG DEALERS

[BY LEASED WIRE]
CHICAGO, March 10.—United States secret service men were said to be organizing into squads today for raids upon peddlers of drugs, the indiscriminate sale of which is prohibited under the new Harrison law. It was admitted in the federal building that Gary, Ind., was the headquarters of a band of opium smugglers who have been supplying Chicago unfortunates.

Collector Julius Smetanka, District Attorney C. F. Clyde and various county officials conferred today on the best way to handle the drug situation, which was rapidly becoming critical. Every available bed in the county hospital and police hospitals today were filled with drug patients and the unfortunates kept coming in.

SILENCE 30 GUNS
NEAR DARDENELLES

[BY LEASED WIRE]
ATHENS, March 10.—Thirty motor guns in the Turkish forts of Kolid, Bahr and Hamidieh on the Dardanelles were destroyed or silenced by the bombardment of the international fleet Monday. It was stated in a dispatch received here today from Tenedos. On Tuesday afternoon the weather became so foggy that the ships had to cease their bombardment, the dispatch added.

BREWERS GO ON STRIKE.

[BY LEASED WIRE]
MILWAUKEE, Wis., March 10.—Thirty-five hundred brewery workers today declared that unless the employers agree to an immediate increase of wages they will strike tomorrow, probably closing every brewery. They claim that during the recent trouble they have been given work only half time and demand an extensive wage increase. The brewers say they will not grant raises.

SHELLS HIT BATTLESHIPS.
[By Leased Wire]
ATHENS, March 10.—During the bombardment of the Turkish forts on the Dardanelles on Tuesday four shells fell upon the French battleship Suffren and six upon the British battleship Lord Nelson, according to information received here today. The extent of the damage caused by these shells is not known.

TURK SHELL BURSTS AT ADMIRAL'S FEET

Athens Dispatch Says French
Commander Escapes Death
by Miracle.

[BY LEASED WIRE]
PARIS, March 10.—Rear Admiral Guepratte of the French navy, commander of the battleship Suffren, a unit in the international fleet that is trying to force the Dardanelles, had a narrow escape from death Tuesday, according to an Athens dispatch to La Matin.

As he was directing the maneuvers of his ship a fragment of a Turkish shell fell at the feet of the rear admiral.

Powerful Turkish batteries are said to have been silenced by the French warship Gaulois, whose work is highly praised by Vice Admiral Sackville Hamilton Carden, commander of the fleet.

The dispatch says that operations were held up Tuesday morning by bad weather, but were resumed later in the day, when Turkish batteries on the heights of Renkul were silenced.

ROADS LOSE MONEY
ON WHEAT SHIPPED

[BY LEASED WIRE]
CHICAGO, March 10.—"Grain shipments with the present rates on Chicago railroads do not pay the transportation costs," insisted J. B. Boyd, chairman of the Western Trunk Line committee, today.

Under cross-examination before Commission Daniels of the Interstate Commerce commission, Mr. Daniels is hearing protests of shippers against proposed advances in a score of freight rates, including grain, asked by the roads. A. E. Helm of the Kansas state commission, cross-examined Mr. Boyd.

INDIANS KEEP UP
BATTLE ON POSSE

[BY LEASED WIRE]
BLUFF, Utah, March 10.—Hostilities between the Piute Indians and United States deputy marshals were resumed early today. It is reported here that ten deputies, sent out by Marshal Nebeker, were attacked at Douglas Mesa, about ten miles south of Bluff. Their fate is unknown, but as nothing has been heard from them it is feared they have been captured or killed.

Two Indians came in this forenoon and surrendered, but said their comrades were strongly entrenched and would not give up.

General Scott, who arrived from Washington yesterday has thus far been unable to see any of the Indian soldiers. Old Polk and Tseneag, who control the redmen, are said to have threatened to kill any of their followers seen talking with a white man.

COMMITTEE WORKS
FOR CO-OPERATION

Dwight Young, R. G. Leeds, Will W. Reller and Harry Goodwin were made members of a new committee on co-operation appointed yesterday by the executive board of the Central Charity Bureau. The committee will work to bring about co-operation between organizations and institutions of Richmond with the Central Charity Bureau in any activities the bureau takes up.

HELEN KELLER SICK.
[By Leased Wire]
AUSTIN, Tex., March 10.—Miss Helen Keller's lecture engagements in this state and the southwest have been canceled, it was said today, as the result of her illness. Miss Keller has a severe cold, and was threatened with pneumonia, but her condition is not serious.
