[BY LEASED WIRE.]
CHICAGO, March 12.—Wheat closed strong and at advances of 2½¢ for the May futures, 1½¢ for July and \$1.18 for September. SALTS IS FINE FOR KIDNEYS, QUIT MEAT

Flush the Kidneys at once when Back hurts or Bladder bothers—Meat forms uric acid.

No man or woman who eat meat regularly can make a mistake by flushing the kidneys occasionally, says a well-known authority. Meat forms uric acid which clogs the kidney pores so they sluggishly filter or strain only part of the waste and poisons from the blood, then you get sick. Nearly all rheumatism, headaches, liver trouble, nervousness, constipation, dizziness, sleeplessness, bladder disorders come from sluggish kidneys. The moment you feel a dull ache in the kidneys or your back hurts, or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of scalding, get about four ounces of Jad Salts from any reliable pharmacy and take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia and has been used for generations to flush clogged kidneys and stimulate them to activity, also to neutralize the acids in urine so it no longer causes irritation, thus ending bladder disorders. Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink which all regular meat eaters should take now and then to keep the kidneys clean and the blood pure, thereby avoiding serious kidney complications.

BIG WHEAT SUPPLY IN CANADA REPORTED

An Ottawa special message yesterday said: "There is no reason for apprehension concerning Canada's supply of wheat. This is shown by a statement of stocks on hand on February 8. On that date there were in elevators and flour mills 37,004,717 bushels, in transit on cars 12,571,786 bushels, and in farmers' hands 29,554,000 bushels, a total of 79,130,593 bushels. To be deducted from this are 19,250,000 bushels for seed and 25,000,000 for food requirements until fall threshing, leaving a surplus of 35,880,593 bushels. To this should be added 36,370 bushels imported from February 8 to March 2, while exports in that period total 8,741,998 bushels. Subtracting the difference from the total, there remained a visible wheat supply on March 2 of 28,174,973 bushels."

ARGENTINA WHEAT.
A special cable says the weather in Argentina is more favorable, being warm and mostly clear, and that wheat is arriving damp. Shipments are expected to be larger of wheat. Many steamships have arrived this week without cargoes. This is tending to relieve the tension on freights.
