Our Athletic Policy Wrong?

On various occasions the Journal of the American Medical Association has entered a protest against the widespread tendency in the United States toward the extension of competitive athletics in schools.

These contentions, it says, are snared by European authorities to whom the question of permitting students of various ages to engage in competitive sports has been submitted by the Prussian government. In order to discover undeveloped athletic "talent" among the students of the high schools and universities of the German empire, in anticipation of their being trained for the projected Olympic games, competitive games were proposed under the auspices of athletic associations in many places. The participants were to be students without previous athletic training. The events were to include swimming matches, running and jumping contests, and numerous other exercises. Although it was assumed that such contests would increase appreciation of the importance of physical exercise, the intent of the plan was to discover promising candidates. The plan was submitted to the physiologist Rubner and the clinician Kraus, professors in the University of Berlin. In their report they contend that any system of athletics which finds its best expression in competition, and has as its chief end the development of athletic supremacy, fails to meet the real hygienic

needs of youth and to serve for the proper perfection of the body.

"The conclusions of Rubner and Kraus are not only to be endorsed, but deserve widespread publication as sane judgments of competent observers," declares the Journal.

While the esteemed Medical Journal may endorse the views of these two German authorities, it is doubtful if the American public will, as a whole, share in this view.

"Competition," the desire for athletic superiority, is responsible for the wholesome love of healthful sports shared by the people of the two great English speaking countries, the United States and Great Britain.

"Competition," the desire for athletic supremacy, causes thousands of American youths each year to try their skill in baseball, football, track and field events, golf, tennis and other sports too numerous to mention, and the health-giving, out-of-door exercise they obtain from their fanatical devotion to their games is certainly nothing if not beneficial to themselves and the nation. The English youth is as devoted to his sports as his Yankee cousin and his competition-inspired love of out-of-doors exercise has stood him in good stead during his long days of disease-breeding duty in the trenches on the firing line. Patience, subservience to discipline, pluck, initiative, and, above all else, hardihood, are the fruits of the young Britisher's devotion to his cricket and his football.

"I saw a detachment of Belgian troops enroute to the rear after a week's duty in the trenches," writes a war correspondent.

"Their heads were down, they barely dragged themselves along the road. They were the personification of utter exhaustion. Then I saw a force of English troops, also just released from a long period of trench duty. Their heads were high, their uniforms spick and span and they were also freshly shaven. They marched with the swinging stride of athletes and their spirits were as high as their eyes were bright. They slept like logs that night, but they were at their football bright and early the next day."

Overnight Relief For Constipation

When the bowels become clogged with a mass of poisonous stomach waste, sick headache with all its attendant misery, belching of sour stomach gases, bloated and general discomfort are sure to follow.

A mild, pleasant laxative tonic that will carry off the congested mass without upsetting the stomach or griping the bowels, is the combination of simple laxative herbs with pepsin, sold in drug stores under the name of Dr. Caldwell's Syrup Pepsin. A dose taken just before retiring will afford grateful relief next morning, without unpleasantness or discomfort. Dr. Caldwell's Syrup Pepsin is the ideal family remedy, especially for the women and children and old folks. A free trial bottle can be obtained by writing to Dr. W. B. Caldwell, 452 Washington St., Monticello, Ill.

HELPFUL WORDS

From a Richmond Citizen. Is your back lame and painful? Does it ache especially after exertion?

Is there a soreness in the kidney region? These symptoms suggest weak kidneys.

If so, there is danger in delay. Weak kidneys get fast weaker. Give your trouble prompt attention. Doan's Kidney Pills are for weak kidneys. Your neighbors use and recommend them.

Read this Richmond testimony. Edgar S. Mote, 24 South Twentieth street, Richmond, says: "I suffered terribly from backache and kidney weakness. The least cold I caught settled on my kidneys and I could hardly straighten. Soon after I began using Doan's Kidney Pills I was rid of the trouble. I publicly endorsed Doan's Kidney Pills some years ago." Price 50c, at all dealers. Don't simply ask for kidney pills—get Doan's Kidney Pills—the same that Mr. Mote had. JURY GET MANN WHITE SLAVE CASE

CHICAGO, March 31.—The case of Dr. Louis T. Wineburg, of Ligonier, Ind., went to the jury this afternoon after argument on the question of whether the physician was guilty of violating the Mann white slave law was concluded, and Federal Judge Carpenter read his instructions to the jury. The main question before the judge was the truth or untruth of the story told by 17-year-old Grace Locher, who declared that Dr. Wineburg took her to Chicago from Kalamazoo, Mich., and told her to pose as his wife at a local hotel.

Stagnant Blood Given A Quick Impulse

Wonderful Activity Imparted by a Famous Remedy.

The appearance of pimples, boils, skin eruptions and all evidence of impure blood, calls for S. S. S., the famous blood purifier. Cathartics, purges, bowel movers and laxatives won't do. No amount of bile will destroy certain germs which cause blood and skin eruptions. They are away down deep in the tissues, perhaps in the very marrow of the bones. And such a condition calls for the searching influence of S. S. S. It is indeed a remarkable remedy, since it is taken up by the blood stream and never loses its medicinal influence. On and on it goes, through and through the entire system and always with the same definite action to dislodge germs, destroy their activity and stimulate the liver, lungs, kidneys, bowels and skin to throw them out completely. It stimulates stagnant blood, provides a rational exhilaration to the nerve centers and thereby the natural functions of the body are aroused to cast out intruders, no matter how strongly entrenched they may be. It refutes the ancient theory that to destroy within us the germs that eat into our vitals calls for drugs that destroy our very existence. Get a bottle of S. S. S. today of any druggist and for special advice on severe blood disorders write at once to the Medical Adviser, The Swift Specific Co., 103 Swift Bldg., Atlanta, Ga. Do not accept a substitute. Insist upon what you ask for.

CARUSO

World-famous Tenor, says:

"Tuxedo completely satisfies my tobacco taste. It is mild and has a delicious flavor. Most important of all, from a singer's standpoint, Tuxedo does not irritate my throat."

Caruso

"Tuxedo Does Not Irritate My Throat"

The non-irritating quality of Tuxedo which Caruso praises is due to the original "Tuxedo Process" by which the tobacco is treated. This process refines the tobacco and absolutely removes all bite and sting.

Many thousands of men think they cannot smoke a pipe, for fear the tobacco might burn or parch their mouths. Tuxedo has done away with any such possibility. You can smoke Tuxedo all day long, without any irritation whatsoever—indeed, with increasing pleasure.

Tuxedo

The Perfect Tobacco for Pipe and Cigarette

is made from rich, mild, fragrant Kentucky Burley—acknowledged to be the finest pipe-tobacco in the world—aged until it is pipe-perfect and smokes coolly and slowly.

You cut off an inch of inspiration and real joy every hour you stay away from Tuxedo. Because it's so good, so true, so delicious, so fragrant, its memory lingers every time your smoke-appetite gets tuned up.
